Gibby offers an analysis of the major political and military decisions affecting how the war was conducted operationally and diplomatically by examining American Chinese North Korean and South Korean operations in the context of fighting a limited war with limited means but for objectives that were not always limited in scope or ambition The foundational political decision was Harry Truman's voluntary repatriation policy which extended the war by up to eighteen months Its military counterpart was the American led Operation Showdown the last deliberate military offensive to coerce concessions at the negotiation table Showdown's failure and the Communists own equally disappointing military efforts opened up new avenues for solving the war short of a militarily imposed solution Gibby's research draws on primary sources from American Korean and Chinese archives and publications Many of these sources have not yet been mined in diplomatic and military histories of the Korean War This innovative book also addresses a significant gap in the study of Korean military operations the linkage between ground and air pressure campaigns as well as the many Chinese and American operations conducted to establish negotiation positions Gibby also explores many political and propagandist developments that assumed great importance in the summer of 1952 such as prisoner of war riots the bombing of hydroelectric dams and the South Korean constitutional crisis which significantly influenced American and Chinese military decision making Ultimately this volume serves as a cautionary analysis of the limits of force the necessity to understand an adversary and the importance of strategic consensus It also offers an effective case study on an underappreciated period of civil military tension during the Cold War and on how civilian politicians and military leaders must collaborate to determine a realistic and effective strategy **Weekly Record**, 1974 **The American Western A Complete Film Guide** Terry Rowan, 2012-11-18 A comprehensive film guide featuring films and television shows of the great American western The stories of the men and women who tamed the old West Also featuring actors and directors who made these films possible *The Overlook Film Encyclopedia* Phil Hardy, 1994 Since the initial publication of the first three groundbreaking volumes
