Radical Students Alan Barcan, 2002-08-04 From the 1920s to the 1960s the Australian Left struggled to make ideological sense of the Great Depression the growth of fascism and militarism overseas World War II the atomic bomb the Cold War and fear of communism All these issues found expression on the campus of Australia s oldest university where ardent youth pursued the ideal of social justice Sydney s controversial philosophy professor John Anderson and his Freethought Society added volatility to the mix with their rejection of orthodox politics Later impassioned hostility between supporters of the Communist Party

Kennedy,2015-05-05 John Anderson was Australia s most important philosopher in the first half of this century The young Scotsman held the chair of philosophy at the University of Sydney for thirty years until retirement in 1958 He developed his own distinctive system of realism and fathered a vigorous local school characterised by inquiry independence and a deep commitment to philosophy as a way of life He was a formidable public figure and fierce controversialist who outraged many of Sydney s conventionally minded From an early Marxist phase he opposed all forms of censorship and mind control This first biography of Anderson is no hagiography containing much new material about Anderson s Scottish past and his conflicted public and private life His relations with students were complex with women they were decidedly problematic In the aftermath of a pragmatic revolution that has swept our universities and colleges Anderson s uncompromising calls to unfettered inquiry and the Socratic way of life are timely **John Stoward Moyes and the Social Gospel** Paul

Terracini,2015-04-28 This book deals with the social gospel and one of its leading proponents in twentieth century Australia the Anglican bishop of Armidale New South Wales from 1929 to 1964 John Moyes It is an investigation and assessment of the career of Bishop Moyes as a study in Christian social engagement It concerns his vision for the role of the church in society and his contribution to that effect It is not a biography of John Moyes Neither is it an exhaustive history of the social gospel movement in Australia or anywhere else although they both feature prominently throughout Bishop Moyes was a highly articulate public debater who participated in several of the critical episodes in Australian history during the twentieth century The reader will find within the pages of this book discussion of highly contentious issues such as the attempt to ban the Communist Party of Australia in 1950 and 1951 the decision to commit Australian troops to the Vietnam War in 1965 and the Christian response to state legitimised violence Moyes is placed in context with some of the most notable Christian spokespeople on social and political issues in the twentieth century such as Walter Rauschenbusch Ernest Burgmann William Temple George Bell Dietrich Bonhoeffer Reinhold Niebuhr Martin Luther King Jr and Andr Trocm It is argued here that John

Moyes made intelligent prescient and compassionate contributions to many of the issues to which he turned his mind but that like most others before or since he was unable to find a solution to the theological and moral challenges raised by the perceived threat to Australia's sovereignty during World War II. This book challenges the view that when national sovereignty is threatened the Christian response must be to support the government's call to war. Molecular Red McKenzie Wark, 2015-04-21. In Molecular Red McKenzie Wark creates philosophical tools for the Anthropocene, our new planetary epoch in which human and natural forces are so entwined that the future of one determines that of the other. Wark explores the implications of the Anthropocene through the story of two empires: the Soviet and then the American. The fall of the former prefigures that of the latter. From the ruins of these mighty histories Wark salvages ideas to help us picture what kind of world's collective labor might yet build. From the scientific pioneers who were trying to transform science during the Russian Revolution to visionaries contemplating cyborg possibilities and science fiction dreams in late 20th century California, Molecular Red not only looks at the crisis of climate change that we face but also how we might be able to understand it and how we might salvage some hope out of the wreckage.

The 10th National Labour History Conference held at the University of Melbourne on 4-6 July 2007 centred around the broad theme of Labour Traditions; the conference offered papers, talks, and forum discussions on a range of topics involving presentations from leading scholars, reflective activists, and those who are still making our collective history as they speak. John Faulkner, Robert Ray, John Cain, and Wally Curran spoke at a forum on how the labour movement has conducted its internal debates over issues large and small. Terry Irving organised a session on Popular Movements for Democracy in Early Australia. Verity Burgmann assembled some very engaging speakers to commemorate the centenary of the founding of the IWW in Australia. Phillip Deery organised an impressive array of people to talk and argue about the Cold War. The blend of scholarly research and direct engagement in the field is reflected in the presentations on workplace health and safety by Yossi Berger, Ray Markey, Greg Patmore, and Bill Shorten. In addition to sessions on these special topics, there were numerous informative and engaging presentations on individual subjects ranging from Bobbie Oliver on apprenticeship systems to Paddy Garrity on trade unions and the arts. Faith Paul Strangio, 2013-06-14 Jim Cairns is a familiar sight around the markets of Melbourne seated at a table stacked with copies of his latest book. It seems an unlikely occupation for a man who was once the driving force and major thinker in the Labor Party. Left a man who reached the positions of Deputy Prime Minister and Treasurer in Australia's most reformist government under Gough Whitlam. Cairns' post-1975 trajectory bewildered many of his one-time followers, not least the significant section of the baby boomer generation who rallied behind him during the Moratoriums against the Vietnam War. To some he is a tragic fallen hero; to others a relic of an earlier age of idealism. But Cairns was never a conventional politician. In this mature and sophisticated biography Paul Strangio draws a compelling picture of the inner man, revealing a consistent thread running through the apparent contradictions of Cairns' public career. He explains how a policeman turned into a counter-culture guru, how an opponent of capitalism became Treasurer of Australia, how a devoted husband could feel a kind of love for Junie Morosi. Both highly readable and carefully researched, *Keeper of the Faith* reassesses the part Cairns played in shaping Australian public life. In tracing his ideological and political rivalry with Whitlam, it challenges the popular nostalgia that surrounds his former leader. Strangio argues that Cairns' contribution to public life, especially as a voice of dissent against the established order, has been seriously underestimated. Drawing on a rich range of archival and oral sources and recounting many fascinating anecdotes, this is a masterly portrait of one of those rare people who never waver in their search for truth.

What Did You Do in the Cold War Daddy? Ann Curthoys, Joy Damousi, 2014-09-01 The Cold War was a turbulent time to grow up in. Family ties were tested, friendships were torn apart, and new beliefs forged out of the ruins of old loyalties. In this book, through twelve evocative stories of childhood and early adulthood in Australia during the Cold War years, writers from vastly different backgrounds explore how global political events affected the intimate space of home, family life, and friendships. Some writers were barely in their teens when they felt the first touches of their parents' political lives, both on the Left and the Right. Others grew up in households well attuned to activism across the spectrum, including anti-communism, workers' rights, anti-Vietnam War, anti-apartheid, and women's rights. Sifting through the key political and social developments in Australia from the end of World War II to the early 1990s, including the referendum to ban the Communist Party of Australia, the rise of the Movement, and the Labor split and post-war migration, this book is a powerful and poignant telling of the ways in which the political is personal.

Activist Wisdom Sarah Maddison, Sean Scalmer, 2006 Peace marches, protest demonstrations, and campaigns for or against every cause imaginable have long been part of the Australian social and political landscape. This book blends the voices and experiences of insiders with an analysis of the successes and failures, the communication of ideas, and the social and political impacts. It features interviews with some of Australia's best-known activists from the environmental, women's, peace, student, refugee, and Aboriginal movements. With passion and insight, these people articulate their unique form of practical knowledge. *Activist Wisdom* connects this knowledge to key social movement histories and theories, providing a look at the world of activism and its inevitable tensions.
