## **The Community Of Europe:**

The Community of Europe Derek W Urwin Staff,2003-10-01      *The Community of Europe* Derek W. Urwin,2014-09-19

This hugely successful history of political and economic integration in Western Europe since the Second World War and especially but by no means exclusively the European Community itself was first published in 1991 to general acclaim Since then much turbulent water has flowed under the bridges of Maastricht and Strasbourg Now in this welcome Second Edition Derek Urwin has brought the story fully up to date with an account of developments since 1991 and an assessment of the mood and prospects of Europe and the Community today      **The European Community in the World** Richard

Bailey,2023-05-31 First published in 1973 The European Community in the World shows what outward looking can mean in terms of British participation in the Community and of the Community s policies and actions as a world power Richard Bailey says that the time for argument for or against British membership of the Common market has gone The enlargement of the Community is a fact how then can Britain best adjust to the new situation The extension of the European Community is significant for all the world and will increase its power among the institutions that govern the world affecting the politics of many countries from Sweden to Swaziland In post Brexit world this book is a must read for students and scholars of

European politics European history British history and British politics      *European Community* Brian Morris,Klaus Boehm,Maurice Geller,1990-12-01 An explanation of European Community law and bureaucracy in everyday terms It explains how the Community itself works with special diagrams and information on Community institutions policy making bodies and private sector agencies with whom the Community consults      **The Integration of the European Community and Third States in Europe** Andrew Evans,1996 This book examines the legal frameworks for integration provided by the

EC Treaty the Free Trade Agreement between Sweden and the EC concluded in 1972 the European Agreement between Poland and the Community and the European Economic Areas EEA The book not only compares the operation of four types of legal framework for integration but also with the assistance of comparisons explores underlying problems in the integration of the European Community and Third States in Europe In the case of many countries of the former Soviet Union notably Russia membership of the Union does not appear to offer a feasible basis for their participation in the European integration process and so the construction of a mutually acceptable legal framework for close relations between such countries and the Community arguably constitutes one of the most serious and pressing problems to be tackled by Union Integration Law The book is written for teachers and students of advanced courses in EU Law as well as for policy makers officials and

practitioners in the private sector whose work concerns relations between the Community and Third states      *The European Economic Community and the United States* Robert Richardson Bowie,Theodore Geiger,1961      **American Interest in the**

**European Community** United States. Congress. House. Foreign Affairs Committee,1974      **The New European**

**Community** Robert O Keohane,2018-03-09 The New European Community is the first systematic book length discussion of

the major political institutions of the European Community EC after the transformation of the 1987 Single European Act itself a surprise and a mystery whose effects are unraveled here Professors Keohane and Hoffmann open the volume by placing the evolution of the new European Community into broad theoretical perspective Their expert contributors including highly regarded international scholars a judge of the European Court of Justice and a long term British politician present engaging overviews of the process at work in major EC events and institutions The centerpiece of the volume Peter Ludlow s chapter on the European Commission lays out all of the systems and actors in the emerging EC and shows their direct connection with problems of Community development and integration Filled with examples illustrations anecdotes and valuable data The New European Community will be indispensable for all students and scholars of international relations and European studies as well as for those in business and government who want to understand the European Community before and beyond 1992

**Free Movement of Persons Within the European Community** Anne Pieter van der Mei,2003-02-24 This book explores the extent to which European Community law confers upon individuals the right to gain access to public services in other Member States Are European citizens and third country nationals who have moved to other Member States entitled to claim minimum subsistence benefits to receive medical care or to be admitted to education Does Community law provide for a freedom of movement for patients students and persons in need of social welfare benefits If so to what extent does Community law have regard for the Member States fears for and concerns about welfare tourism Besides addressing numerous detailed questions on the precise degree to which Community law allows for cross border access to public services the author analyses how Community law and the Court of Justice in particular have sought to reconcile the Community s objectives of realising freedom of movement and ensuring equality of treatment with the need to develop and maintain adequate social services within the Community In addition the book contains a detailed analysis of United States constitutional law on cross border access to public services exploring the question whether the European

Community can possibly learn from the American experience      The Autonomy of Community Law R. Barents, 2004-01-01  
This book is the English version of my *De communautaire rechtsorde* which was published by Kluwer Deventer the Netherlands in 2000 Where necessary I have updated the text by taking account of developments until the beginning of 2003  
Foreword      NATO, the European Union, and the Atlantic Community Stanley R. Sloan, 2005-07-28 Provides an interpretive history of the trans atlantic alliance and explores critical developments in US European relations The author considers the ongoing pattern of US unilateralism and its consequences as the trans atlantic and intra European debate over Iraq produced deep splits among the allies and eroded European trust in US leadership      **A Language Policy for the European Community** Florian Coulmas, 1991 CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students researchers and practitioners in all of the social and language related sciences carefully selected book length publications dealing with sociolinguistic theory methods findings and applications It approaches the study of language in society in its broadest sense as a truly international and interdisciplinary field in which various approaches theoretical and empirical supplement and complement each other The series invites the attention of linguists language teachers of all interests sociologists political scientists anthropologists historians etc to the development of the sociology of language      Improving Economic and Social Cohesion in the European Community Jorgen Mortensen, 1994-09-12 This book gives a clear insight into the EC s efforts to reduce regional inequalities in Europe assessing the effectiveness of key EC policies such as the structural funds It also analyses regional income disparities within the EC the effects of economic integration on Europe s poorer areas and the strategic options of the less developed regions and countries in Europe The effects of the Single Market the Common Agricultural Policy and Economic and Monetary Union EMU on poorer EC areas are also evaluated      **Proposed European Community Internal Tax on the Consumption of All Fats and Oils Except Butter** United States. Congress. House. Committee on Agriculture. Subcommittee on Wheat, Soybeans, and Feed Grains, 1984      The Flow of Capital from the European Economic Community to Latin America Pan American Union. Department of Economic Affairs, 1963      European Community, Atlantic Community? Valérie Aubourg, Gérard Bossuat, Giles Scott-Smith, 2008      *The Ecumenical Movement & the Making of the European Community* Lucian Leustean, 2014-07-31 The European Community has largely been considered a predominantly secular project bringing together the economic and political realms while failing to mobilise the public voice and imagination of churchmen and the faithful Drawing on a wide range of archival sources this is the first study to assess the political history of religious dialogue in the European Community It challenges the widespread perception that churches started to engage with European institutions only after the 1979 elections to the European Parliament by detailing close relations between churchmen and high ranking officials in European institutions immediately after the 1950 Schuman Declaration Lucian N Leustean demonstrates that Cold War divisions between East and West and the very nature of the ecumenical movement had a direct impact on the ways in which churches approached the European Community He brings to

light events and issues which have not previously been examined such as the response of churches to the Schuman Plan and the political mobilisation of church representations in Brussels Strasbourg and Luxembourg Leustean argues that the concept of a united Europe has been impeded by competing national differences between religious and political institutions having a long standing legacy on the making of a fragmented European Community

**Decision-making in the European Community** Emil Joseph Kirchner, 1992 In this first major assessment of EC decision making at the highest levels for ten years Emil Kirchner examines the Council Presidency's role in European integration The author demonstrates how the EC Council Presidency plays a crucial role in the integration process enhanced by the Single European Act and the two Intergovernmental Conferences on EMU and Political Union He evaluates the balance and distribution of power between national and Community actors and asks whether the Council Presidency is primarily an instrument to maintain national control of EC decision making rather than a device for promoting integration He sheds light on the negotiations which led to the SEA and the two Intergovernmental Conferences and argues for a new interpretation of the relationship between the EC and its constituent states EC decision making is not characterised by a transfer of powers from the national to the EC level but by a sharing of competences between national and Community institutions and a pooling of sovereignties among member governments that is analogous to co operative federalism Decision making in the European Community will be vital reading for political scientists and students interested in the EC and for all those seeking to understand European integration potentially the 1990s most important political development
