Rainbow's End provides a bold new analysis of the emergence, growth and decline of six classic Irish American political machines in New York, Jersey City, Chicago, San Francisco, Pittsburgh and Albany. Combining the approaches of political economy and historical sociology, Erie examines a wide range of issues including the relationship between city and state politics, the manner in which machines shaped ethnic and working class politics, and the reasons why centralized party organizations failed to emerge in Boston and Philadelphia despite their large Irish populations. The book ends with a thorough discussion of the significance of machine politics for today's urban minorities.

[The Senator from New England](#)
 Sean J. Savage, 2015-06-11 Gold Winner for Political Science 2015 Foreword Reviews INDIEFAB Book of the Year Awards

John F. Kennedy's path to the presidency began during his eight years of service in the United States Senate. In *The Senator from New England*, Sean J. Savage contends that Kennedy initially pursued a centrist bipartisan course in his rhetoric and policy behavior regarding the regional policy interests of New England. Following his narrow defeat for the Democratic vice presidential nomination in 1956 and his nationwide speaking campaign for Adlai Stevenson, JFK's rhetoric and policy behavior became more partisan and liberal, especially during the 1958 midterm elections. While JFK claimed that he still protected and promoted the policy interests of New England on a bipartisan basis, he used his speaking engagements to interact with Democratic politicians throughout New England in an effort to secure the entire region's delegate votes at the 1960 Democratic National Convention. Based on the use of primary sources, archives, and special collections from four presidential libraries—the Library of Congress, Boston College, the Margaret Chase Smith Library, the Massachusetts Historical Society, and other institutions—*The Senator from New England* provides an unrivaled glimpse into Kennedy's Senate career and early presidential campaign strategy.

New Directions in Campaigns and Elections
 Stephen K. Medvic, 2011-02-26

The ground upon which campaigns and elections are contested has been shifting rapidly in the last decade. Radical and ongoing changes to the way elections are administered and campaigns are financed, new approaches to polling, campaign management and advertising, and voter mobilization, and recent developments in the organization of political parties and interest groups, the operation of the media, and the behavior of voters require close examination. *New Directions in Campaigns and Elections* guides students through the tangle of recent developments in real world politics, drawing on the insights of innovative scholarship on these topics. More than any other aspects of American politics, campaigns and elections have been affected in many cases transformed by new communication technologies, a recurring theme throughout the volume. This tightly organized collection of original contributions raises important normative questions, grounds students' thinking in cutting edge empirical research, and balances applied politics with scholarly insights. Like other volumes in the *New Directions in American Politics* series, the focused exploration of the latest developments across a comprehensive range of topics makes this an ideal companion for students eager to understand the rapidly changing political environment of the U.S. electoral process.
