D. C. Reeve,2012-03-12 The notion of practical wisdom is one of Aristotle s greatest inventions It has inspired philosophers as diverse as Martin Heidegger Hans Georg Gadamer Elizabeth Anscombe Michael Thompson and John McDowell Now a leading scholar of ancient philosophy offers a challenge to received accounts of practical wisdom by situating it in the larger context of Aristotle s views on knowledge and reality That happiness is the end pursued by practical wisdom is commonly agreed What is disputed is whether happiness is to be found in the practical life of political action in which we exhibit courage temperance and other virtues of character or in the contemplative life where theoretical wisdom is the essential virtue C D C Reeve argues that the dichotomy is bogus that these lives are in fact parts of a single life which is the best human one In support of this view he develops innovative accounts of many of the central notions in Aristotle s metaphysics epistemology and psychology including matter and form scientific knowledge dialectic educatedness perception understanding political science practical truth deliberation and deliberate choice These accounts are based directly on freshly translated passages from many of Aristotle s writings Action Contemplation and Happiness is an accessible essay not just on practical wisdom but on Aristotle s philosophy as a whole
