information components and data base vendors Includes only organizations functioning on national level and a small group of international organizations based in the U S Alphabetical arrangement by names of organizations Entry gives address telephone number handicapping conditions served and information about the organization and its information services Miscellaneous appendixes of organizations Index Self-Handicapping Raymond L. Higgins,C.R. Snyder,Steven Berglas,2013-11-11 The concept of self handicapping can be legitimately anchored in a variety of intellectual contexts some old and some newer As this volume reminds us Alfred Adler was perhaps the first to articulate the significance of various self defeating claims and gestures for protecting the self concept Thus the apparent paradox of defeat in the interests of protection More recently but still more than 30 years ago Heider's naive psychology added attributional rhetoric to the description of self defeating strategies While predominantly cognitive in its thrust the attributional approach incorporated several motivational influences especially those involving egocentric concerns Heider hardly violated our common sense when he suggested that people are inclined to attribute their performances in a self serving manner the good things I caused the bad things were forced upon me The notion of self handicapping strategies proposed by Berglas and myself a little more than a decade ago capitalized on these homely truths while adding a particular proactive twist We not only make excuses for our blunders we plan our engagements and our situational choices so that self protective excuses are unnecessary In doing so we use our attributional understanding to arrange things so that flawed and failing performances will not be interpreted in ways that threaten our self esteem *Transportation for the Elderly and Handicapped* ,1978 **The Publishers Weekly** ,1917 **Publishers Weekly** ,1920 **Gambling, a Guide to Information Sources** Jack Gardner,1980

Handicapping Conditions in Children Bill Gillham,2022-02-26 First published in 1986 *Handicapping Conditions in Children* provides an accessible overview of a wide range of handicapping conditions and their remediation and gives a balanced perspective on the medical educational and social issues It will therefore be of value to a wide audience in these professions as well as to students and parents Each chapter deals with one specific area but is presented to cover description of the condition and its aetiology its prevalence in the population and relatives developmental characteristics special problems and needs educational and social provision the potential for the future and further reading lists The book does not include every possible condition but concentrates on those that are most frequent or problematic This book is a reissue originally published in 1986 The language used is a reflection of its era and no offence is meant by the Publishers to any reader by this republication Resources to Facilitate the Transition of Learners with Special Needs from School-to-work Or Postsecondary Education ,1989 Administrative Manual Michigan.
