The Unhappy Consciousness E.F. Kaelin, 2012-12-06 In the wake of so many other keys to the treasure whoever undertakes still another book of criticism on the novels and drama of Samuel Beckett must assume the grave burden of justifying the attempt especially for him who like one of John Barth's recent fictional characterizations of himself believes that the key to the treasure is the treasure itself No one will ever have the privilege of the last word on these texts since any words other than the author's own found therein must be referred back to the text themselves for cautious verification Indeed the words the author has used to create the oeuvre stand by virtue of their own creativeness or fail in their pretense and need no critical comment to be appreciated for what they have achieved or have failed to achieve In criticism there is no privileged point of view not even the author's own He has consulted his knowledge and experience to make the work and whoever would criticize his efforts would seem to owe him the indulgence of doing the same If communication is mediated through the works the author and his readers respond in reciprocal fashion to the expressiveness of their contexts For the philosopher of art the challenge is extremely tempting on a manifold count **Unstable Images** Brenda Johnson

Clay, 2005-01-01 The subject of colonialism encompasses a multitude of analytic concerns about the nature and extent of political controls economic inequalities and social hierarchies Underlying the varied conditions of power and subordination are the diverse sometimes contested representations of human difference that motivate support or question colonial practices and projects *Unstable Images* concentrates a critical gaze on this discursive side of colonialism through close readings of a series of Western texts on the people of New Ireland from the 1870s to the 1930s When the status of New Ireland was granted New Britain region changed from precolonial to German control and finally to a League of Nations mandated by Australian administration *The Alchemy of Becoming* Diane Fulford, Karen Diguier, 2023-09-13 This is a book to be experienced not simply read The Alchemy of Becoming series sets out a methodology that empowers you to raise your level of consciousness to levels never imagined possible The first book and level of this process Being of Truth laid a foundation of authenticity and personal truth In this second installment Being of Love the journey continues as you discover that love is not just a feeling or emotion but rather a powerful life enhancing and life creating force Level 1 reframed fear to trust In Level 2 love is claimed over and beyond fear This is transformation Not just inspiration but transformation to a state of higher consciousness available to us all Einstein claimed that no problem can be solved from the same level of consciousness that created it It is only in higher consciousness that the intractable issues of our times can be addressed This applies equally to our individual lives be it our health relationships and to our sense of worth and well being Higher

The Duke [Illustrated Edition] Philip Guedalla, 2015-11-06 Includes over 100 maps of the actions engagements and battles of the entire Peninsular War Philip Guedalla wrote The Duke in 1931 when the exploits of the First Duke of Wellington were still generally known to his audience In a brisk but witty narrative Guedalla retraces the life and long career of Arthur Wesley later Duke of Wellington Wesley's unpromising youth provides no foreshadowing of his future greatness Guedalla rescues Wellington's highly successful apprenticeship in arms in India from historical obscurity only Jac Weller has covered that period better Wellington's successes in the Peninsular War and at Waterloo have been well documented and Guedalla does not place undue emphasis on this portion of his career Guedalla does carry the narrative forward into Wellington's long career in government and in politics after Waterloo where despite long and faithful public service he might fairly be said to have outlived his times Wellington spent a military lifetime defeating the more rabid effects of the French Revolution as a politician he found himself often out of synch with the much more peaceful English Revolution that followed It is Guedalla's gift as an historian to place Wellington in the context of his times and especially of his social class as a member of the Anglo Irish nobility His extensive research into Wellington's correspondence has produced a wealth of quotes that help provide a flavor of the man Guedalla avoids the temptation to speculate Wellington's words and actions are allowed to speak for him We come away with a sense of Wellington as a strict disciplined methodical and confident military officer endowed with both an enormous amount of common sense about people and politics and with distinct pride and ambition about his own career This book is highly recommended to students of the life of the Duke of Wellington D S Thurlow

Ancient Comedy and Reception S. Douglas Olson, 2013-12-12 This wide ranging collection consisting of 50 essays by leading international scholars in a variety of fields provides an overview of

the reception history of a major literary genre from Greco Roman antiquity to the present day Section I considers how the 5th and 4th century Athenian comic poets defined themselves and their plays especially in relation to other major literary forms It then moves on to the Roman world and to the reception of Greek comedy there in art and literature Section II deals with the European reception of Greek and Roman comedy in the Medieval Renaissance and Early Modern periods and with the European stage tradition of comic theater more generally Section III treats the handling of Greco Roman comedy in the modern world with attention not just to literary translations and stage productions but to more modern media such as radio and film The collection will be of interest to students of ancient comedy as well as to all those concerned with how literary and theatrical traditions are passed on from one time and place to another and adapted to meet local conditions and concerns
