**Consciousness of the Heart and Dimension of the Holy Spirit**

Joseph Sener, 2016-11-17 Humans have developed visible and invisible aids like science and religion for survival on Earth and searched for gifts of knowledge which is Gods will and His wisdom We wanted to know why we are on Earth Why we remember the past but not the future and who we really are We search for truth and like to be reminded that the knowledge of the truth belongs to creator God who dwells in higher dimensions *Unlocking the Consciousness of Your Soul* Terry L Newbegin, 2012-10-08 The book is about my experiences in life and how those experiences introduced me to the wisdom of my very soul It is a story about where I truly began as a child of God who I thought I was because of where I was born and how I became enlightened to the most profound kept secrets that were ever devised in the history of mankind It is a story that unravels the mystery behind your suffering Without realizing it your soul has been hiding from you for many lifetimes and by choosing to open up your heart and put aside your dogmatic beliefs for a while your soul will reveal to you all the whys of you choosing the route of sin physicality earth brainwashing forgetfulness and suffering as the means to remember who you are If you are looking for clarity in life and how to overcome distress grief anger and the pain you are feeling right now then it becomes very important to understand who you truly are where you truly come from how miracles are created and why you do the things you do It is a story that touches on the human struggles of life and how to overcome them just by learning to connect to the wisdom of your soul The story takes you all the way back to the first creation known as the Garden of Eden and how it relates to your evolution through time and space When you live and make decisions from the mind of reason from others long established interpretations of Gods written words and from what the experts assert what is best for you your soul cannot bring forth the wisdom that you hold deep within your consciousness Thus you become more and more susceptible to turbulent experiences *Awakening Earth* Duane Elgin, 1993 Just as there are relatively distinct stages that characterize the development of an individual from infancy to early adulthood so too are there discernible stages in the development of our species as we move toward a planetary scale civilization Awakening Earth brings together views from science and spirituality East and West the practical and the visionary to present a compelling new picture of human evolution Based upon twenty years of research this book explores the human journey from the initial awakening of hunter gatherers roughly 35 000 years ago through the agrarian era and Industrial Revolution and then goes on to describe three additional stages of development essential for realizing our initial maturity as a global species civilization A disoriented world civilization faced with dwindling resources mounting pollution and exploding population is a recipe for ecological collapse and social anarchy It is imperative that the human family begin to make rapid and profound changes in how we live together on the Earth To accomplish this we must now ask ourselves fundamental questions Who are we What are we doing here Where are we going as a species Awakening Earth provides a catalyst for this conversation with its integrative vision and

inspiring map of the journey toward a sustainable compassionate and creative future While not predicting a sudden new age of social enlightenment Awakening Earth does present the promising view that humanity is roughly halfway through seven major transformations in culture and consciousness required to build a planetary civilization that can endure into the deep future

Pleiadians     **The Awakening Earth** Peter Russell,2019-06-07 Originally published in 1982 The Awakening Earth explores the idea of the Earth as a collective self regulatory living organism and considers in this context the function of the human race The book provides an exploration of humanity s potential and explores the possibility of mankind s evolutionary future Drawing on the work of physicists psychologists philosophers and mystics the book argues that humanity is on the verge of another evolutionary leap and explores evolution in the context of spiritual growth arguing that widespread inner awakenings could lead to a more analogous society functioning as a single social super organism much in the way cells in a body function as a biological organism     **Taking Turns with the Earth** Matthias Fritsch,2018-10-02 The environmental crisis one of the great challenges of our time tends to disenfranchise those who come after us Arguing that as temporary inhabitants of the earth we cannot be indifferent to future generations this book draws on the resources of phenomenology and poststructuralism to help us conceive of moral relations in connection with human temporality Demonstrating that moral and political normativity emerge with generational time the time of birth and death this book proposes two related models of intergenerational and environmental justice The first entails a form of indirect reciprocity in which we owe future people both because of their needs and interests and because we ourselves have been the beneficiaries of peoples past the second posits a generational taking of turns that Matthias Fritsch applies to both our institutions and our natural environment in other words to the earth as a whole Offering new readings of key philosophers and emphasizing the work of Emmanuel Levinas and Jacques Derrida in particular Taking Turns with the Earth disrupts human centered notions of terrestrial appropriation and sharing to give us a new continental philosophical account of future oriented justice     [Touch the Earth, Kiss the Sky](#) Diotima Mantinea,2020-03-08 Discover a Powerful Integration of Science Spirit Magic Touch the Earth Kiss the Sky is a fascinating blend of spiritual practice and cutting edge science Follow the eight Stations of the Sun through an astronomical year with Touch the Earth exercises designed to help ground your experience in nature as well as Kiss the Sky exercises that will help you get in contact with the Divine and your own inner sense of the sacred Within these pages you will explore a scientific account of consciousness and its relationship to magical practice spiritual energy and the subtle realms Profound meditations and exercises lead you to a deeper sense of personal meaning and show you how to make magical changes in your life and the larger reality around you     [Physical Body Ascension to the New Earth](#) Robert E. Between the Moon and Earth Jay Alfred, 2007-01-18 Are heavens and hells parallel realities in a multiverse What has plasma got to do with it Since the dawn of history various cultures have imagined heaven and the abode of gods to be literally located in some part of the sky and hell in the interior of the Earth From a modern scientific perspective these were the earliest concepts of parallel universes and the idea of a multiverse which is a serious area of research in cutting edge physics today This book presents a model supported by scientific evidence which can shed more light on the intuitive traditional view It appears that after the death of the ordinary matter body a plasma counterpart of that body will indeed find itself in an invisible higher energy plasmasphere which interpenetrates and co rotates with the familiar visible form of planet Earth Depending on their composition these plasma bodies will gravitate or levitate into particular shells that host their own communities in the relevant plasmasphere consistent with established scientific laws in plasma dynamics The higher shells coincide with the visible atmosphere and beyond The lower shells coincide mainly with the crust and upper mantle of the ordinary matter Earth This book takes a detailed look at the habitats of these human linked plasma life forms It is a companion volume to the author's book *Our Invisible Bodies* which focuses mainly on the nature of the bodies of these plasma life forms

*The Real History of Earth* Sal Rachele, 2020-01-07 Welcome to the Real History of Earth You will not find this material in your high school or college history classes In fact the so called powers that be who appear to control the educational process on this planet definitely DO NOT want you to have this information It is said that knowledge is power The purpose of this book is to empower you to live an awakened life full of creativity and compassion Knowing how and why things are the way they are on Earth gives each of us the power to make effective changes both within ourselves and the world If you are a physicist biologist archaeologist anthropologist or economist this material will likely challenge your deepest and most cherished ideas of reality Due to the world of the Internet the ideas presented herein can be researched and investigated thoroughly and the author encourages you to do so This book explores several deep questions that have plagued humanity since time began including such timeless classics as Why is there so much suffering on Earth and How do we break out of our self imposed prison of negative thoughts and beliefs We will also answer the question of how we came to be on this small planet at the edge of a rather average galaxy with our racial and ethnic mix languages and cultural habits Also we will tread on some sacred cows including the belief that humanity evolved from the ape and the idea

that this is the most advanced civilization that has existed on Earth both incorrect assumptions We urge you to keep an open mind while reading this book Do not blindly accept or reject anything that is being said Unless a mind is open there is no way to attain greater knowledge and wisdom Have you ever tried pouring liquid into a closed container So dear readers fasten your seat belt and open the book for a wonderful ride
