UNIVERSAL CONSTITUTION of EARTH

PREFACE

Generally speaking, any CONSTITUTION is the most important document for every *human being* as it stipulates fundamental principles of organization, everyday living and decent behavior in a society, based on which the members of this society keep in-between relationship and self-government. Consequently, the *Constitution* should be considered as the **Supreme Law** common and equally obligatory for all inhabitants on territory of a particular society, men and women, young and aged, rich and poor, ill and healthy, strong and weak, and therefore it should be properly studied by all of them, kept in mind, fulfilled, and modernized in due way and time.

It is obvious, that the world on Earth is becoming as a more and more global complete system, which requires global governance, well described and open for everyone's understanding and reach. Thus, the *Universal Constitution of Earth* is exactly such a document designated for all Inhabitants of Earth in the started era of *globalization*, which describes the new World order induced to secure the Life on the planet and provide peaceful public tranquility, progress and prosperity to all Earth humans of present and future generations.

Such an idea comes to the mind of various prominent world thinkers more and more often. For example, the previous leader of the Catholic Church, Pope Benedict XVI, has called for the establishment of World Government and a New World Order in his speech made at the *Pontifical Council for Justice and Peace* on December 3, 2012. The Pope called for the "construction of a world community, with a corresponding authority," to serve the "common good of the human family".

As a means of defending global peace and justice, the Pope's vision for the establishment of World Government and a New World Order is supposedly not to

The Constitution Of The Earth:

An Essay on the Constitution of the Earth Essay,1844 *The Constitution of The United Peoples of Earth* Abhijit Naskar, If humanity is in misery it may not be my fault but if I die leaving humanity with the same amount of misery then it is my fault The Constitution of The United Peoples of Earth is a seminal literary composition by the 21st century Neuroscientist and Thinker Abhijit Naskar that provides the foundational pillars of a truly egalitarian progressive and global human society for all the governments of our planet The purpose of this magnificent human creation is unification of all the citizens of Earth as one human species beyond all forms of sectarian identities This document is to be the backbone of humanity ensuring harmony justice and progress in the entire global conscientious kingdom of humans *Source Book in Geology, 1900-1950* Kirtley Fletcher Mather,1967 Here find source literature for the most important contributions to the remarkable recent expansion of geological knowledge Excerpted are 65 articles on topics including the constitution of Earth s interior earthquakes radioactive timekeepers submarine features and deep sea cores entrapment of petroleum and crystal structure

Constitution of the Earth's Interior J. Leliwa-Kopystynski,Roman Teisseyre,2016-07-29 Constitution of the Earth s Interior discusses the physical and evolutionary principles connecting various elements of the knowledge about structure and dynamics of the Earth s interior This work is divided into eight chapters that primarily focus on the physical chemical and petrological state This text contains general data on a general stationary model which is described by equations of state combining the basic parameters including pressure temperature density gravity acceleration and mineral composition within the Earth s interior Considerable chapters concern the chemical and petrological composition of the matter in the Earth s interior The remaining chapters describe models containing inhomogeneities used to illustrate processes connected with phase transitions This book will be of great value to geologists physicists and researchers *The Theory of the Earth* Thomas Burnet,1697 [The Sacred Theory of the Earth](#) Thomas Burnet,1753 **The Sacred Theory of the Earth (Complete)** Thomas Burnet,1907-01-01 Since I was first inclin d to the Contemplation of Nature and took Pleasure to trace out the Causes of Effects and the Dependence of one thing upon another in the visible Creation I had always methought a particular Curiosity to look back into the Sources and Original of Things and to view in my Mind so far as I was able the Beginning and Progress of a Rising World And after some Essays of this Nature and as I thought not unsuccessful I carried on my Enquiries further to try whether this Rising World when form d and finish d would continue always the same in the same Form Structure and Consistency or what Changes it would successively undergo by the continued Action of the same Causes that first produc d it and lastly what would be its final Period and Consummation This whole Series and Compass of Things taken together I call d a Course of Nature or a System of Natural Providence and thought there was nothing belonging to the external World more fit or more worthy our Study and Meditation nor any thing that would conduce more to discover the Ways of Divine Providence and to shew us the Grounds of all true Knowledge concerning Nature And therefore

to clear up the several Parts of this Theory I was willing to lay aside a great many other Speculations and all those dry Subtilties with which the Schools and the Books of Philosophers are usually fill d But when we speak of a Rising World and the Contemplation of it we do not mean this of the Great Universe for who can describe the Original of that vast Frame But we speak of the Sublunary World this Earth and its Dependencies which rose out of a Chaos about Six Thousand Years ago And seeing it hath fallen to our Lot to act upon this Stage to have our present Home and Residence here it seems most reasonable and the Place design d by Providence where we should first employ our Thoughts to understand the Works of God and Nature We have accordingly therefore design d in this Work to give an Account of the Original of the Earth and of all the great and general Changes that it hath already undergone or is hence forwards to undergo till the Consummation of all things For if from those Principles we have here taken and that Theory we have begun in these two first Books we can deduce with Success and Clearness the Origin of the Earth and those States of it that are already past following the same Thread and by the Conduct of the same Theory we will pursue its Fate and History thro future Ages and mark all the great Changes and Conversions that attend it while Day and Night shall last that is so long as it continues an Earth By the States of the Earth that are already past we understand chiefly Paradise and the Deluge Names well known and as little known in their Nature By the future States we understand the Conflagration and what new Order of Nature may follow upon that till the whole Circle of Time and Providence be compleated As to the first and past States of the Earth we shall have little help from the Ancients or from any of the Philosophers for the Discovery or Description of them We must often tread unbeaten Paths and make a Way where we do not find one but it shall be always with a Light in our Hand that we may see our Steps and that those that follow us may not follow us blindly There is no Sect of Philosophers that I know of that ever gave an Account of the Universal Deluge or discover d from the Contemplation of the Earth that there had been such a Thing already in Nature Tis true they often talk of an Alternation of Deluges and Conflagrations in this Earth but they speak of them as Things to come at least they give no Proof or Argument of any that hath already destroyed the World As to Paradise it seems to be represented to us by the Golden Age whereof the Ancients tell many Stories sometimes very luxuriant and sometimes very defective For they did not so well understand the Difference betwixt the new made Earth and the present as to see what were the just Grounds of the Golden Age or of Paradise though they had many broken Notions concerning those Things as to the Conflagration in particular This hath always been reckon d one amongst the Opinions or Dogmata of the Stoicks That the World was to be destroyed by Fire and their Books are full of this Notion but yet they do not tell us the Causes of the Conflagration nor what Preparations there are in Nature or will be towards that great Change And we may generally observe this of the Ancients that their Learning or Philosophy consisted more in Conclusions than in Demonstrations they had many Truths among them whereof they did not know themselves the Premises or the Proofs Which is an Argument to me that the Knowledge they had was not a Thing of their own Invention or which they came to by fair Reasoning and Observations upon

Nature but was delivered to them from others by Tradition and ancient Fame sometimes more publick sometimes more secret These Conclusions they kept in Mind and communicated to those of their School or Sect or Posterity without knowing for the most part the just Grounds and Reasons of them *Congress of Arts and Science: Physics. Chemistry. Astronomy. Sciences of the Earth* Howard Jason Rogers,1906 *Theory of the Earth* James Hutton,2020-07-17 Reproduction of the original Theory of the Earth by James Hutton **The White Earth Nation** Gerald Vizenor,Jill Doerfler,2012-11-01 The White Earth Nation of Anishinaabeg Natives ratified a new constitution in 2009 the first indigenous democratic constitution on a reservation in Minnesota Many Native constitutions were written by the federal government and with little knowledge of the people and cultures The White Earth Nation set out to create a constitution that reflected its own culture The resulting document provides a clear Native perspective on sovereignty independent governance traditional leadership values and the importance of individual and human rights This volume includes the text of the Constitution of the White Earth Nation an introduction by David E Wilkins a legal and political scholar who was a special consultant to the White Earth Constitutional Convention an essay by Gerald Vizenor the delegate and principal writer of the Constitution of the White Earth Nation and articles first published in Anishinaabeg Today by Jill Doerfler who coordinated and participated in the deliberations and ratification of the Constitution Together these essays and the text of the Constitution provide direct insight into the process of the delegate deliberations the writing and ratification of this groundbreaking document and the current constitutional legal and political debates about new constitutions *The Sacred Theory of the Earth* Thomas Burnet,2020-09-28 HAVING given an account of this whole Work in the first Chapter and of the method of either Book whereof this Volume consists in their proper places there remains not much to be said here to the Reader This Theory of the Earth may be call d Sacred because it is not the common Physiology of the Earth or of the Bodies that compose it but respects only the great Turns of Fate and the Revolutions of our Natural World such as are taken notice of in the Sacred Writings and are truly the Hinges upon which the Providence of this Earth moves or whereby it opens and shuts the several successive Scenes whereof it is made up This English Edition is the same in substance with the Latin though I confess tis not so properly a Translation as a new Composition upon the same ground there being several additional Chapters in it and several new moulded As every Science requires a peculiar Genius so likewise there is a Genius peculiarly improper for every one and as to Philosophy which is the Contemplation of the works of Nature and the Providence that governs them there is no temper or Genius in my mind so improper for it as that which we call a mean and narrow Spirit and which the Greeks call Littleness of Soul This is a defect in the first make of some Men s minds which can scarce ever be corrected afterwards either by Learning or Age And as Souls that are made little and incapacious cannot enlarge their thoughts to take in any great compass of Times or Things so what is beyond their compass or above their reach they are apt to look upon as Fantastical or at least would willingly have it pass for such in the World Now as there is nothing so great so large so immense as the works of Nature and the methods of

Providence men of this complexion must needs be very unfit for the contemplation of them Who would set a purblind man at the top of the Mast to discover Land or upon an high Tower to draw a Landskip of the Country round about for the same reason short sighted minds are unfit to make Philosophers whose proper business it is to discover and describe in comprehensive Theories the Phenomena of the World and the Causes of them This original disease of the Mind is seldom cured by Learning which cures many others Tis like a fault in the first Stamina of the Body which cannot easily be rectified afterwards Tis a great mistake to think that every sort of Learning makes a Man a competent Judge of Natural Speculations We see unhappy examples to the contrary amongst the Christian Fathers and particularly in St Austin who was unquestionably a Man of Parts and Learning but interposing in a controversy where his Talent did not lie showed his zeal against the Antipodes to very ill purpose though he drew his Reasons partly from Scripture And if within a few Years or in the next Generation it should prove as certain and demonstrable that the Earth is moved as it is now that there are Antipodes those that have been zealous against it and engaged the Scripture in the Controversie would have the same reason to repent of their forwardness that St Austin would have now if he was alive Tis a dangerous thing to engage the authority of Scripture in disputes about the Natural World in opposition to Reason lest Time which brings all things to light should discover that to be evidently false which we had made Scripture to assert And I remember St Austin in his Exposition upon Genesis hath laid down a rule to this very purpose though he had the unhappiness it seems not to follow it always himself The reason also which he gives there for his rule is very good and substantial 1 For saith He if the Unbelievers or Philosophers shall certainly know us to be mistaken and to erre in those things that concern the Natural World and see that we alledge our Sacred Books for such vain opinions how shall they believe those same Books when they tell them of the RESURRECTION of the Dead and the World to come if they find them to be fallaciously writ in such things as lie within their certain knowledge

Plantation Earth Moriah Saul, 2003 This book is dedicated to the Constitution of the United States and to the constitutionality of money in America and to the intrinsic value of labor the most valuable and truly intrinsic item in existence in our world The only true value of money is its necessity to divide the fruits of labor in our modern system of barter therefore labor is not only above capital it is above all other things of value in our world And this opinion was shared by Abraham Lincoln as well as others and the thought should be considered by all people who can form their own opinion on the value of labor and the value of money and which one deserves the higher consideration Money is a yoke and those who control it control those who wear its yoke In the absence of the gold standard there is no way to protect savings from confiscation through inflation There is no safe store of value Allen Greenspan The enormous differences between fiat unsecured paper currencies and the required intrinsic currency system of the United States Constitution is examined and discussed in depth The Constitution is quoted and it plainly states that No State shall make anything other than gold or silver a legal tender in payment of debts and yet all of the American States are today operating on a fiat unsecured currency system This book encourages each and every reader to do

some research and see if in their own opinion they agree with the one that I have formed that the States are in non compliance with our Constitution on this issue I firmly believe that the Constitution of the United States should be taught in all public schools That historical content and background and the writings of the founding fathers should be taught in all schools as the well the iniquities of the past that brought the Constitution of the United States into existence I believe that it would be a definite advantage to all children to learn of their rights from the first Government agency with which they have dealings in life Adhesion Contract Standardized contract form offered to consumers of goods and services on essentially take it or leave it bases without affording consumers realistic opportunity to bargain and under such conditions that consumer can not obtain desired product or services except acquiescing in form contract Distinctive feature of adhesion contract is that weaker party has no realistic choice as to its terms Blacks Law Dictionary Sixth edition There are also other constitutional issues brought forward as food for thought for the purpose of encouraging discussion And with that said I will refer people to the opinion of Thomas Jefferson Let no more people be heard of confidence in men but bind him down from mischief by the chains of the Constitution Thomas Jefferson The Sacred Theory of the Earth Burnet,1719 *The Theory of the Earth: Containing an Account of the Original of the Earth ...
