Introduction to Biotech Entrepreneurship: From Idea to Business Florentina Matei, Daniela Zirra, 2019-08-16 Primarily intended for biotechnology graduates, this handbook provides an overview of the requirements, opportunities and drawbacks of Biotech Entrepreneurship while also presenting valuable training materials tailored to the industrial and market reality in the European Biotech Business. Potential investors and business consultants will find essential information on the benefits and potential risks involved in supporting biotech businesses. Further, the book addresses a broad range of Biotechnology fields, e.g. food biotech, industrial biotech, bioinformatics, animal and human health. Readers will learn the essentials of creating innovations, founding a biotech start-up, business management strategies and European funding sources. In addition, the book discusses topics such as intellectual property management and innovation transfer. The book offers a comparative analysis of different countries, perspectives and reviews the status quo in Western and Eastern European regions, also in comparison with other leading biotech countries such as the USA and Canada. A long list of potentially profitable biotech start-up ideas and a collection of success stories involving European companies are also included. The book is based on the Erasmus Strategic Partnership project Supporting biotechnology students oriented towards an entrepreneurial path (www.supbioent.usamv.ro), which involved the collaboration of Life Sciences and Economics departments at higher education institutions throughout Western and Eastern Europe.

Dietary Interventions in Gastrointestinal Diseases Ronald Ross Watson, Victor R. Preedy, 2019-01-10 *Dietary Interventions in Gastrointestinal Diseases: Foods, Nutrients and Dietary Supplements* provides valuable insights into the agents that affect metabolism and other health-related conditions in the gastrointestinal system. It provides nutritional treatment options for those suffering from gastrointestinal diseases including Crohn's Disease, Inflammatory Bowel Disease, Ulcerative Colitis and Allergies, among others. Information is presented on a variety of foods including herbs, fruits, soy and olive oil, thus showing that changes in intake can change antioxidant and disease-preventing non-nutrients and affect gastrointestinal health and/or disease promotion. This book serves as a valuable resource for biomedical researchers who focus on identifying the causes of gastrointestinal diseases and food scientists.
