## **The Contours Of American History:**

**The Contours of American History** William Appleman Williams, 2011-10-01 William Appleman Williams was one of America's greatest critics of US imperialism. *The Contours of American History*, first published in 1961, reached back to seventeenth-century British history to argue that the relationship between liberalism and empire was in effect a grand compromise with expansion abroad containing class and race tensions at home. Williams was not the first historian to identify the United States as an imperial power, yet he was unique in linking domestic disquiet to the long history of American expansion which he traced back to England's Glorious Revolution. Reaching deep into thirteenth-century British history to identify the motor contradictions of what eventually would become known as liberalism, Williams presents a wholly original interpretation of US history, one where the story of the United States is the story of capitalism. Coming as it did before the political explosions of the 1960s, Williams's message was a deeply heretical one, and yet the Modern Library ultimately chose *Contours* as one of the best 100 nonfiction books of the 20th Century. This fiftieth anniversary edition will introduce this magisterial work to a new readership with a new introduction by Greg Grandin, one of today's leading historians of US foreign policy.

[The Degradation of American History](#) David Harlan, 2009-02-15 American historical writing has traditionally been one of our primary forms of moral reflection. However, David Harlan argues that in the disillusionment following the 1960s, history abandoned its redemptive potential and took up the methodology of the social sciences. In this provocative new book, Harlan describes the reasons for this turn to objectivity and professionalism, explains why it failed, and examines the emergence of a New Traditionalism in American historical writing.

Part One: The Legacy of the Sixties describes the impact of literary theory in the 1970s and beyond, the rise of women's history, the various forms of ideological analysis developed by historians on the left, and the crippling obsession with professionalism in the 1980s.

Part Two: The Renewal of American Historical Writing focuses on the contributions of John Patrick Diggins, Hayden White, Richard Rorty, Elaine Showalter, Henry Louis Gates Jr, and others. Harlan argues that at the end of the twentieth century, American historical writing is perfectly poised to become what it once was: not one of the social sciences in historical costume, but a form of moral reflection that speaks to all Americans. A wholly admirable work. This book will be talked about for years. Library Journal

**The New American History** American Historical Association, 1997 Originally released in 1990, *The New American History*, edited for the American Historical Association by Eric Foner, has become an indispensable volume for teachers and students. In essays that chart the shifts in

interpretation within their fields some of our most prominent American historians survey the key works and themes in the scholarship of the last three decades Along with substantially revised essays from the first edition this volume presents three entirely new ones on intellectual history the history of the West and the histories of the family and sexuality The second edition of *The New American History* reflects in Foner's words the continuing vitality and creativity of the study of the past how traditional fields are being expanded and redefined even as new ones are created Author note Eric Foner is DeWitt Clinton Professor of History at Columbia University He is the author of numerous books including *Reconstruction 1863-1877* which was awarded the Bancroft Prize

**Energy and US Foreign Policy** Ahmed Mahdi, 2012-01-30 The quest for oil can be seen as a defining principle of global US foreign policy an imperative which has shaped and redefined the practice of American diplomacy especially in the wake of 9/11 which raised questions about the stability of global oil resources In *Energy and US Foreign Policy* Ahmed Mahdi relates the military expansion of the world's biggest superpower to its quest to gain guaranteed and secure access to the world's most important commodity Examining the foreign policy of George Bush Sr Bill Clinton and George W Bush culminating in the unprecedented military campaigns of the latter Mahdi demonstrates how and why oil has played a central role in US relations with the wider world By dissecting the failures of the US to secure its own economic and energy interests and by demonstrating the devastating impact this has had on the rest of the world especially in the Middle East Mahdi offers vital analysis for researchers and students of International Relations Diplomacy Security and Energy Studies

**The Forging of the American Empire** Sidney Lens, 2003-06-20 From Mexico to Vietnam from

Nicaragua to Lebanon and more recently to Kosovo East Timor and now Iraq the United States has intervened in the affairs of other nations Yet American leaders continue to promote the myth that America is benevolent and peace loving and involves itself in conflicts only to defend the rights of others excesses and cruelties though sometimes admitted usually are regarded as momentary aberrations This classic book is the first truly comprehensive history of American imperialism Now fully updated and featuring a new introduction by Howard Zinn it is a must read for all students and scholars of American history Renowned author Sidney Lens shows how the United States from the time it gained its own independence has used every available means political economic and military to dominate other nations Lens presents a powerful argument meticulously pieced together from a huge array of sources to prove that imperialism is an inevitable consequence of the U S economic system Surveying the pressures external and internal on the United States today he concludes that like any other empire the reign of the U S will end and he examines how this time of reckoning may come about Boundaries of the State in US History James T. Sparrow, William J. Novak, Stephen W. Sawyer, 2015-09-07 The question of how the American state defines its power has become central to a range of historical topics from the founding of the Republic and the role of the educational system to the functions of agencies and America's place in the world Yet conventional histories of the state have not reckoned adequately with the roots of an ever expanding governmental power assuming instead that the American state was historically and exceptionally weak relative to its European peers Here James T Sparrow William J Novak and Stephen W Sawyer assemble definitional essays that search for explanations to account for the extraordinary growth of US power without resorting to exceptionalist narratives Turning away from abstract metaphysical questions about what the state is or schematic models of how it must work these essays focus instead on the more pragmatic historical question of what it does By historicizing the construction of the boundaries dividing America and the world civil society and the state they are able to explain the dynamism and flexibility of a government whose powers appear so natural as to be given invisible inevitable and exceptional The ^AOxford Handbook of Religion and Race in American History Kathryn Gin Lum, Paul Harvey, 2018-03-01 In The Oxford Handbook of Religion and Race in American History thirty six scholars investigate the complex interdependencies of religion and race through American history The volume covers the religious experience social realities theologies and sociologies of racialized groups in American religious history as well as the ways that religion contributed to and challenged their racialization **Interpretations of American History Vol. I** Francis G. Couvares, 2000-07 Contrary to conventional wisdom no area of study is outdated more quickly than history and no time has been more turbulent for the discipline than our own This classic point counterpoint reader in American history now in a completely revised and updated seventh edition takes note of history's impermanence giving voice to the new without disposing of the old In ten lively chapters essays by the editors introduce dialectical readings by distinguished historians on topics from Reconstruction to the present The essays and readings address history's timeless questions Reconstruction Change or Stasis American Imperialism

Economic Expansion or Ideological Crusade and The Civil Rights Movement Top Down or Bottom Up New readings are included on African Americans women and immigrants In the fray of debate eminent historians from Samuel Hays and Alfred Chandler to John Lewis Gaddis Walter LaFeber and Kathryn Kish Sklar struggle to interpret the past The editors essays moderate **From Revolution to Innovation: Unfolding the Tapestry of American History** ChatStick
