The Day Michael Collins Was Shot:

The Day Michael Collins was Shot Meda Ryan, 1989 Collins was killed in an ambush in Cork in 1922 The manner of his death and the identity of his killer have been the source of intense speculation and controversy ever since In this book Ryan solves the mystery Drawing on eyewitness testimonies she painstakingly reconstructs in minute by minute detail the final four days of Collins life and follows mile by mile his fatal journey through his home county of Cork **Michael Collins and the Women who Spied for Ireland** Meda Ryan, 2006 Concentrates on the crucial role played by women in Collins personal and working life Women like Kathleen Clarke Leslie Price de Barra Peg Barrett Nancy O'Brien Madge Hales and Collins sister Mary Collins Powell Madeline Dilly Dicker Moya Llewelyn Davies and Lady Hazel Lavery are woven into this fascinating narrative of Collins life **Michael Collins and the Civil War** Ryle T Dwyer, 2012-07-01 On 14 April 1922 a group of 200 anti Treaty IRA men occupied the Four Courts in Dublin in defiance of the Provisional Government Michael Collins who wanted to avoid civil war at all costs did not attack them until June 1922 when British pressure forced his hand This led to the Irish Civil War as fighting broke out in Dublin between the anti Treaty IRA and the Provisional Government's troops Under Collins supervision the Free State rapidly took control of the capital In Michael Collins and the Civil War Ryle Dwyer sheds new light on Collins role in the Civil War showing how in the weeks and months leading to the campaign he secretly persisted with guerrilla tactics in border areas This involved not only assassination but also kidnapping and hostage taking In confronting those tactics on behalf of the British for instance Winston Churchill engaged in similar behaviour including killing and hostage taking But until now much of this has conveniently been swept under the carpet of history

The Hales Brothers and the Irish Revolution Liz Gillis, 2016-07-08 The story of the Hales family from Bandon epitomises the whole revolutionary period in Ireland They were involved from the establishment of the Irish Volunteers in West Cork and were closely associated with well known revolutionary figures including Michael Collins Tom Barry and Liam Deasy Both Seán and Tom were company commanders in the IRA in the area The signing of the Anglo Irish Treaty in December 1921 split the family and led to the two brothers taking opposing sides in the Civil War that would follow Tom Hales was the most senior Republican officer on the scene of the chaotic ambush at Béal na mBláth that led to the shooting of Michael Collins Seán Hales was himself assassinated in Dublin by Republicans following a vote in Dáil Éireann to allow the Provisional Government to increase its powers to penalise Republican prisoners The story of these brothers and the rest of the family gives a unique insight into life in Ireland in this tumultuous period **The I.R.A. at War 1916-1923** Peter Hart, 2003-11-20 Between 1916 and 1923 Ireland experienced rebellion and mass mobilization guerrilla and civil war partition and ethnic conflict and the transfer of power from British to Irish governments The essays in The I.R.A. at War propose a new history of this Irish revolution one that encompasses the whole of the island as well as Britain all of the violence and its consequences and the entire period from the Easter Rising to the end of the Civil War When did the

revolution start and when did it end Why was it so violent and why were some areas so much worse than others Why did the I R A mount a terror campaign in England and Scotland but refuse to assassinate British politicians Where did it get its guns Was it democratic What kind of people became guerrillas What kind of people did they kill Were Protestants ethnically cleansed from southern Ireland Did a pogrom take place against Belfast Catholics These and other questions are addressed using extensive new data on those involved and their actions including the first complete figures for victims of the revolution These events have never been numbered among the world s great revolutions but in fact Irish republicans were global pioneers Long before Mao or Tito Sinn F in and the Irish Republican Army were the first to use a popular political front to build a parallel underground state coupled with sophisticated guerrilla and international propaganda and fund raising campaigns Ireland s is also perhaps the best documented revolution in modern history so that almost any question can be answered from who joined the I R A to who ordered the assassination of Sir Henry Wilson The intimacy and precision with which we are able to reconstruct and analyse what happened make this a key site for understanding not just Irish but world history

Myth and the Irish State John M. Regan, 2013-12-03 When we read a history we believe ourselves to be reading cold hard facts of the events that took place and how they occurred But there is no real truthful way to know the approach our historian has taken with the historical sources This book deals with the uncertainty in writing history in the context of Irish history in particular Regan argues in this book that the notion of elision simply ignoring unhelpful evidence threatens Irish history today Regan believes that some historians have ignored unhelpful facts that perhaps do not further their point or perhaps contradict them altogether Each chapter focuses on a period of Irish history that Regan believes to be inconsistent or incomplete in its facts He asks the controversial questions about the period of history such as why do some historians deny or marginalise the British threat of war and re conquest in 1922 why do so many Irish historians describe Michael Collins as a constitutionalist or a democrat when the evidence argues otherwise Was the Irish Civil War really fought between democrats defending the state against dictators attempting its overthrow Did the new state briefly experience a military dictatorship under Collins in 1922 Thinking historically is not about learning history or accepting the past as it is presented to us it is as Regan argues in his thought provoking work about developing the critical skills to interpret history for ourselves

Commemorating the Irish Civil War Anne Dolan, 2006-04-27 After civil war can the winners commemorate their victory hailing their conquering heroes with the blood of their former comrades still fresh on their boots Or should they cover themselves in shame and hope that the nation soon forgets In this book Anne Dolan explores the

tensions between memory and forgetting in twentieth century Ireland By examining the memory of winning the Irish Civil War she discusses the extent to which it has been used to serve party political ends where private grief finds consolation when the dead have fallen from political favour and how the dead are remembered when no one wanted to fight the war The book addresses the Irish Civil War at its most public point at the statues and crosses and in the ritual and rhetoric of commemoration It will be of central interest to all students and scholars of European history and politics **Japan Times.
