*The SAGE Handbook of Feminist Theory* Mary Evans, Clare

Hemmings, Marsha Henry, Hazel Johnstone, Sumi Madhok, Ania Plomien, Sadie Wearing, 2014-08-12 At no point in recorded history has there been an absence of intense and heated discussion about the subject of how to conduct relations between women and men. This Handbook provides a comprehensive guide to these omnipresent issues and debates mapping the present and future of thinking about feminist theory. The chapters gathered here present the state of the art in scholarship in the field covering Epistemology and marginality; Literary, visual and cultural representations; Sexuality; Macro and microeconomics of gender; Conflict and peace. The most important consensus in this volume is that a central organizing tenet of feminism is its willingness to examine the ways in which gender and relations between women and men have been and are organized. The authors bring a shared commitment to the critical appraisal of gender relations as well as a recognition that to think theoretically is not to detach concerns from lived experience but to extend the possibilities of understanding. With this focus on theory and theorizing about the world in which we live this Handbook asks us across all disciplines and situations to abandon our taken for granted assumptions about the world and interrogate both the origin and the implications of our ideas about gender relations and feminism. It is an essential reference work for advanced students and academics not only of feminist theory but of gender and sexuality across the humanities and social sciences.

[Velázquez and his Times](#) Carl Justi, 2016-10-24 Diego Rodríguez de Silva y Velázquez June 1599-August 6 1660 known as Diego Velázquez was a painter of the Spanish Golden Age who had considerable influence at the court of King Philip IV. Along with Francisco Goya and Le Greco he is generally considered to be one of the greatest artists in Spanish history. His style whilst remaining very personal belongs firmly in the Baroque movement. Velázquez's two visits to Italy evidenced by documents from that time had a strong effect on the manner in which his work evolved. Besides numerous paintings with

historical and cultural value Diego Velázquez painted numerous portraits of the Spanish Royal Family other major European figures and even of commoners. His artistic talent according to general opinion reached its peak in 1656 with the completion of *Las Meninas*, his great masterpiece. In the first quarter of the 19th century, Velázquez's style was taken as a model by Realist and Impressionist painters in particular by Édouard Manet. Since then, further contemporary artists such as Pablo Picasso and Salvador Dalí have paid homage to their famous compatriot by recreating several of his most famous works.

**yo, la pareja y la familia** Singly, François de, 2016-12-20. Familias reconstituidas, familias monoparentales, familias homoparentales. Si bien todo este tipo de vinculaciones no constituyen en sí mismas una creación reciente, no deja de ser cierto que en las últimas décadas la familia ha experimentado cambios sustanciales tanto en su cuadro institucional como en su función primordial. La transformación de dicha función constituye de hecho el nexo de este ensayo. Del matrimonio concertado cuya función era la transmisión del patrimonio pasando por la herencia, denominada familia tradicional, la familia adopta actualmente una pluralidad de expresiones diversas. No obstante, nos dice Singly, no por ello la familia ha dejado de jugar un rol fundamental en una sociedad en la que sea de paso altamente individualizada. La tesis de Singly sostiene que dicho rol consiste hoy en construir la identidad individualizada de cada uno de sus miembros. Así de acuerdo siempre con el autor, en el interior de la familia tendrá lugar un proceso de socialización tanto horizontal entre los cónyuges como vertical entre padres e hijos, centrado en torno al desarrollo personal de sus miembros, donde estos aprenderán a conciliar la preocupación por uno mismo con el respeto hacia el otro. A partir de más de una centena de entrevistas realizadas por el propio Singly y varios estudiantes, contando además con el apoyo de numerosas novelas y películas, esta obra descubre cuáles son los mecanismos necesarios para que se produzca dicho proceso de socialización, haciendo especial hincapié en el papel del adulto como revelador del yo escondido en los otros. Para Singly, el adulto constituirá actualmente una especie de Pigmalión o Pigmaliona al servicio de los suyos, aquel que desvela la identidad latente en estos últimos. La presente edición incluye una introducción a cargo de Lluís Flaquer, catedrático de Sociología en la Universitat Autònoma de Barcelona, uno de los mayores especialistas en España en familia e infancia así como responsable del grupo de investigación Infancia, familias y políticas sociales comparadas Iphigenia.

**Comics Beyond Text and Image** Benjamin Fraser,2025-08-08

Comics Beyond Text and Image conceptualizes comics as bodies exploring the substance and the many movements and expressions of comics first and foremost in terms of corporeality The book centers on the metaphor of the comics body as a way of opening up our understandings of what comics do It begins from the position that narrative in comics is corporeal expressed in and through

the visual bodies into which the page can be divided analytically and from the interaction of the human body with the comics body Drawing on the philosophy of Baruch Spinoza the author argues for the primary role of visual narration over textual narration develops a theory of the comics text as a cohesive and variegated cartography and shows how thought is expressed in the extensive space of the comics page This theory is then applied in snapshots of individual comics works that each in their own way continue the philosophical discussions of embodiment This book moves beyond traditional modes of narration or narrative and will appeal to students and scholars of comics studies as well as to those thinking about visual narrative more broadly and to scholars of Spinoza and Deleuze
