Rediscovering Léon Brunschvicg's Critical Idealism Pietro Terzi, 2022-01-13 Léon Brunschvicg's contribution to philosophical thought in fin de siècle France receives full explication in the first English language study on his work. Arguing that Brunschvicg is crucial to understanding the philosophical schools which took root in 20th century France, Pietro Terzi locates Brunschvicg alongside his contemporary Henri Bergson as well as the range of thinkers he taught and influenced, including Lévinas, Merleau-Ponty, de Beauvoir, and Sartre. Brunschvicg's deep engagement with debates concerning spiritualism and rationalism, neo-Kantian philosophy, and the role of mathematics in philosophy made him the perfect supervisor for a whole host of nascent philosophical ideas which were forming in the work of his students. Terzi outlines Brunschvicg's defence of neo-Kantian judgement, historical analysis, and the inextricability of the natural and humanist sciences to any rigorous system of philosophy with wide-ranging implications for contemporary scholarship.

The Art of Dramatic Writing Lajos Egri, 1972-02-15. Learn the basic techniques every successful playwright knows. Amid the hundreds of how-to books out there, there have been very few which attempted to analyze the mysteries of play construction. Lajos Egri's classic *The Art of Dramatic Writing* does just that, with instruction that can be applied equally well to a short story, novel, or screenplay. Examining a play from the inside out, Egri starts with the heart of any drama: its characters. All good dramatic writing hinges on people and their relationships, which serve to move the story forward and give it life, as well as an understanding of human motives: why people act the way that they do. Using examples from everything from William Shakespeare's *Romeo and Juliet* to Henrik Ibsen's *A Doll's House*, Egri shows how it is essential for the author to have a basic premise, a thesis demonstrated in terms of human behavior, and to develop the dramatic conflict on the basis of that behavior. Using Egri's ABCs of premise, character, and conflict, *The Art of Dramatic Writing* is a direct, jargon-free approach to the problem of achieving truth in writing.

Eternal Truth Rear Admiral Joseph H. Miller, 2015-09-25. We must discover the real world. All generations are struggling for truth. Truth is our heritage and gift to the next generation, so we must support education for all people. Some generations have essentially halted progress, and others are making progress only because of a few. In our world, we must proclaim religious and free speech. The concept of human liberty is more than 4,000 years old and is repeated by Christ Himself. We must dare to read, think, speak, and write the truth. Truth is not only violated by falsehood but also by silence. Ignorance produces the work of monsters. Ignorance is not bliss; it is oblivion. Ignorance is sin, not innocence. Man is what he believes, coated by either truth or ignorance. Truth demands a basic standard of living for the masses to ensure security and freedom for their development. Man is master of his fate, but

he must seek the truth Truth is on the march and nothing can stop it
