**In a Sunburned Country** Bill Bryson, 2012-05-15 Deliciously funny fact filled and adventurous In a Sunburned Country takes us on a grand tour of Australia It's a place where interesting things happen all the time from a Prime Minister lost yes lost while swimming at sea to Japanese cult members who may entirely unnoticed have set off an atomic bomb on their 500 000 acre property in the great western desert Australia is the only island that is also a continent and the only continent that is also a country Its aboriginal people a remote and mysterious race with a tragic history have made it their home for millennia And despite the fact that it is the most desiccated infertile and climatically aggressive of all inhabited continents it teems with life In fact Australia has more things that can kill you in extremely nasty ways than anywhere else sharks crocodiles the planet's ten most deadly poisonous snakes fluffy yet toxic caterpillars sea shells that actually attack you and the unbelievable box jellyfish don't ask The dangerous riptides of the sea and the sun baked wastes of the outback both lie in wait for the unwary Australia is an immense and fortunate land and it has found in Bill Bryson its perfect guide In a Sunburned Country offers the best of all possible introductions to what may well be the best of all possible nations Even with those jellyfish

flight technology enabled much faster connections between Britain and her imperial possessions as the colonies prepared for independence BOAC ferried diplomats politicians and colonial administrators between London and the far flung corners of Africa and Asia in much faster times than had previously been possible In this book acclaimed historian Robin Higham presents a unique comprehensive study of BOAC from the early jet travel of the de Havilland Comet and the Vickers VC10 to the dawn of supersonic passenger aviation Highly illustrated and meticulously researched using previously unseen sources this book will be essential reading for all aviation enthusiasts and anyone interested in the history of modern Britain
