Dorrien, 1986 **A Better World in Birth**, 1988 **The Democratic Socialist Party** Jim Percy, 1994 *Soviet Communism and the Socialist Vision* Julius Jacobson, 1972-01-01 Perhaps the sharpest and most useful criticism of Soviet communism has come from Left socialist sources The essays in this collection are unified by an abiding faith in the value of social change and political revolution as well as a shared belief that the Soviet Union has fallen drastically short of its own promissory notes delivered by the Bolshevik Revolution of 1917 This volume the first in a series published under the direction of New Politics magazine takes up the intimacies of Soviet society its legal practices its party organization its economic planning techniques with a devastating forthrightness that is not to be found in any other single source The writings draw heavily from scholarly sources in Europe that provide perspectives toward Soviet society uncluttered by the usual ideological gambits found in many books published in this country and unbiased by a reliance on purely secondary sources For all who are interested in the Soviet communist regime yesterday today and tomorrow this book will be crucial *American Democratic Socialism* Gary Dorrien, 2021-01-01 A sweeping ambitious history of American democratic socialism from one of the world's leading intellectual historians and social ethicists The movement whose tangled history Gary Dorrien tells in *American Democratic Socialism* has deep roots in the very American values it is accused of undermining The version of the socialist left that emerges is one that deserves more attention Hari Kunzru New York Review of Books Democratic socialism is ascending in the United States as a consequence of a widespread recognition that global capitalism works only for a minority and is harming the planet's ecology This history of American democratic socialism from its beginning to the present day interprets the efforts of American socialists to address and transform multiple intersecting sites of injustice and harm Comprehensive deeply researched and highly original this book offers a luminous synthesis of secular and religious socialisms detailing both their intellectual and their organizational histories **NOlympians** Jules Boykoff, 2020-04-08T00:00:00Z **NOlympians** Inside the Fight Against Capitalist Mega Sports in Los Angeles Tokyo and Beyond investigates the intersection of the global rise of anti Olympics activism and the declining popularity of hosting of the Games The Olympics were once buoyed by myths of luminous prosperity and upticks in tourism and jobs but in recent years these assurances have been debunked Now more than ever it's clear that the Olympics have transmogrified into a political economic juggernaut that arrives with displacement expanded policing and anti democratic backroom deals Jules Boykoff a former professional soccer player who represented the US Olympic soccer team zooms in on Los Angeles where the Democratic Socialists of America have launched the NOlympics LA campaign ahead of the 2028 Summer Games Boykoff shows how DSA LA's anti Olympics activism fits with the resurgence of socialism in the US and beyond Boykoff's research based on more than 100 interviews with anti Olympics

activists personal experiences at protests in Los Angeles Rio de Janeiro London and Tokyo academic research mass and alternative media coverage and Olympic archives is the backbone for this story of activists fighting against the odds and embracing the transformative politics of democratic socialism Landscapes of the Soul Douglas V. Porpora,2003-10-09 Do you believe in God Nine out of ten Americans unhesitatingly answer yes But for Douglas Porpora the real questions begin where pollsters leave off What he asks does religious belief actually mean in our lives Does it shape our identities and our actions Or despite our professions of faith are we morally adrift Landscapes of the Soul paints a disturbing picture of American spiritual life In his search for answers to his questions Porpora interviewed clerks and executives Jews evangelical Christians Buddhists Taoists and even followers of Bhagwan Sri Rajneesh He asked them about God and about what they saw as their own place in the universe What he found was a widespread inability to articulate any grand meaning of life We lack heroes to inspire us We lack a sense of calling of transcendent purpose in our existence Many of us seem incapable of caring deeply about the suffering of others Our society is permeated with moral indifference Yes we are a believing people but God is often a distant abstraction and rarely an emotional presence in our lives Only such an emotional connection Porpora argues can be the basis of a genuine moral vision Our emotional estrangement from God and the sacred keeps us from caring about social justice keeps us from wanting to change the world keeps us enclosed in our own private worlds Landscapes of the Soul is a passionate call to broaden our spiritual and moral horizons to raise our eyes to the greater reality that unites us all **Competing Chinese Political Visions** Sonny Shiu-Hing Lo,2010-02-26 A fascinating analysis of the features of the Hong Kong style democracy viewed as alien hostile potentially subversive and substantially dangerous by the mainland Chinese Communist Party Competing Chinese Political Visions Hong Kong vs Beijing on Democracy examines the uniqueness of the Hong Kong model of democracy a model the Chinese Communist Party not surprisingly views as too Westernized excessively pluralistic and too easily shaped by foreign intervention and influence Competing Chinese Political Visions examines the features that define Hong Kong s democracy including competitive elections a number of mini political parties legitimate checks and balances the right to protest and a vibrant social movement Drawing on a wealth of recent research noted Hong Kong expert Sonny Shiu Hing Lo examines the role of Hong Kong in the June 1989 Tiananmen Square incident discusses the leadership and visions of democratic leaders such as Martin Lee and offer some bold predictions for the intertwined futures of Hong Kong and China Radical Reformers Maurice R. Berube,2004-10-01 *Socialism: The Only Practical Alternative to Contemporary Capitalism* Tatah Mentan,2012 Since the end of World War II global capitalism spearheaded by US financial interests and backed by the most lethal military force that has ever been assembled has consolidated its power over the world economy In the past decades especially transnational corporations have tightened their control over national governments and international institutions The imposition of free trade policies and the increasing privatization of social services have facilitated the accumulation of fabulous wealth for the owners of capital at the expense of

working people and the environment worldwide Contemporary capitalism now dominates every major sector of the world economy The social and environmental costs of contemporary capitalism are prohibitive The global megatrends of rising inequality and absolute poverty political instability and global climate change all compounded and accelerated by this predatory mode of production are adversely affecting the lives and threatening the future of every inhabitant of nations and the entire world In view of these megatrends and the current global economic crisis the conclusion that contemporary capitalism does not serve the interests of the vast majority of the people on the planet and is both economically and environmentally unsustainable is self evident History offers harsh lessons The political violence of the 20th century which resulted in an estimated 200 million deaths and untold economic and environmental destruction cautions us to work for socialism in the 21st century with every means at our disposal except violence Facing the awful power and willingness of capitalism to coerce and corrupt we must find ways to make soft power prevail Clearly a revolution is in order it is time to place the socialist alternative on the national and world agenda

Dorrien,2008-05-01 This landmark study in the history and theory of modern Christian socialism examines the work of such major figures as Rauschenbusch Tillich Moltmann Gutierrez and Miguez Bonino Dorrien argues that these theologians provide a singular context for addressing questions of freedom and totalitarianism sacralization and democratization individual autonomy and the common good He focuses on the differing

Koyzis, 2019-05-07 In this freshly updated comprehensive study political scientist David Koyzis surveys the key political ideologies of our era unpacking the worldview issues inherent to each and pointing out essential strengths and weaknesses Writing with broad international perspective Koyzis is a sensible guide for Christians working in the public square culture watchers and all students of modern political thought **American Political Parties in the 21st Century** Dave Blevins, 2006-05-16 Since the United States gained its independence the American political landscape has been dominated by two major political parties first Whigs and Democrats and over the last century or so Democrats and Republicans In recent years however voter disenchantment with the major parties has led to the formation of numerous smaller parties Often addressing a particular concern such as the environment and operating on a local state or regional level these parties generally focus on affecting political decisions regarding specific topics of interest This book catalogs and describes more than 180 political parties that are active in the United States today Information has been gathered largely from the parties themselves via direct contact with representatives and from their websites From the Alaskan Independence Party to the Young Democratic Socialists entries contain the party name address telephone and fax numbers launch date and email and website addresses A review of the party's history and notable activities as well as an abbreviated summary of each party's platform is also provided Finally a listing of any affiliates and their contact information is also included where applicable **The Constitution of Socialism** Tim Platenkamp, 2025-06-19 To revive the fortunes of socialism the articulation of a credible and attractive alternative is absolutely essential Offering an original synthesis of socialism and republicanism *The Constitution of Socialism* discusses how society can move beyond capitalism It outlines an institutional and political framework for a socialist future in which collective decision making about the use and allocation of resources directly responds to social interests By means of institutional design this study explores the feasibility criteria of post capitalism and sketches the contours and features of a

viable model of socialism **The Principles of Islamic Political Economy** Masudul Alam Choudhury, 2016-07-27 This book examines the methodological development of the principles of Islamic political economy in its theoretical and applied aspects.
