The Development Of Southern French And Catalan Society:

Development of Southern French and Catalan Society, 718-1050 Archibald R. Lewis, 2014-05-12 Early in the eighth century the current of the Muslim movement that inundated northern Spain crept over the Pyrenees to spread across a portion of the French Midi From the north the tide of Carolingian conquest forced the Muslims back and took in these same southern French and northern Spanish provinces During the same era the Vikings raided intermittently and with varying degrees of intensity along the seacoasts and up the inland waterways sometimes controlling considerable areas for extended periods These raids and conquests inevitably affected the way of life of the people of southern France and Catalonia Contemporary travelers and later scholars have noted that the feudal traditions and obligations that were so strong in the north seemed very weak or nonexistent in the south They found that the land seemed to be held largely as allods not as feudal fiefs they saw that women held positions of surprising power that throughout the area there was great emphasis on money and that the traditions of Roman and Visigothic law still survived Although scholars have noted these differences no one has made a comprehensive study of southern French and Catalan society as a whole It is to fill this void that Archibald Lewis provides this volume In a detailed and scholarly study based largely upon original records and chronicles he examines the familial social economic governmental military and religious life of the area from 718 to 1050 A D Lewis gives as comprehensive a picture as the records will permit of the society that existed in the early eighth century describes and discusses the major changes which took place during the next three centuries and analyzes their causes and effects This study which includes careful and detailed notes and an extensive bibliography provides a reliable and long needed reference tool *The Development of Southern French and Catalan Society, 718-1050* Archibald Ross Lewis, 1965 **The**

development of Southern French and Catalan society Archibald Ross Lewis, 1965 *The Southern French Nobility and the Albigensian Crusade* Elaine Graham-Leigh, 2005 This study takes the case of the Trencavel Viscounts of Beziers and Carcassonne who were the only members of the higher nobility to lose their lands to the crusade and argues that an understanding of how the Occitan nobility fared in the crusade years must be based in the context of the politics of the noble society of Languedoc not only in the thirteenth century but also in the twelfth **BOOK JACKET** *Women in Medieval Society*

Susan Mosher Stuard, 2012-04-17 Early medieval women exercised public roles rights and responsibilities Women contributed through their labor to the welfare of the community Women played an important part in public affairs They practiced birth control through abortion and infanticide Women committed crimes and were indicted They owned property and administered estates The drive toward economic growth and expansion abroad rested on the capacity of women to staff and manage economic endeavors at home In the later Middle Ages the social position of women altered significantly and the reasons why the role of women in society tended to become more restrictive are examined in these essays **Women in Frankish Society** Suzanne Fonay Wemple, 2015-12-16 Women in Frankish Society is a careful and thorough study of women

and their roles in the Merovingian and Carolingian periods of the Middle Ages During the 5th through 9th centuries Frankish society transformed from a relatively primitive tribal structure to a more complex hierarchical organization Suzanne Fonay Wemple sets out to understand the forces at work in expanding and limiting women's sphere of activity and influence during this time Her goal is to explain the gap between the ideals and laws on one hand and the social reality on the other What effect did the administrative structures and social stratification in Merovingian society have on equality between the sexes Did the emergence of the nuclear family and enforcement of monogamy in the Carolingian era enhance or erode the power and status of women Wemple examines a wealth of primary sources such as deeds testaments formulae genealogy ecclesiastical and secular court records letters treatises and poems in order to reveal the enduring German Roman and Christian cultural legacies in the Carolingian Empire She attends to women in secular life and matters of law economy marriage and inheritance as well as chronicling the changes to women's experiences in religious life from the waning influence of women in the Frankish church to the rise of female asceticism and monasticism

Nicholson,2024-10-08 Known worldwide among scholars of medieval Europe for her books on the Knights Hospitaller and the Knights Templar the trial of the Templars in Britain and Ireland and women and the crusades Professor Helen J Nicholson has drawn together in this volume a selection of her shorter publications previously published in academic journals scholarly collections or online Reflecting almost thirty years of published research this collection includes articles focusing on women s depiction in contemporary writing on the crusades and their involvement with the military religious orders the Templars and Hospitallers relations with the rulers of Latin Christendom and with their noble patrons and their operations in Britain and Ireland Women the Crusades the Templars and Hospitallers in Medieval European Society and Culture will interest scholars students and other researchers studying the military religious orders the crusades and women s lives in medieval Europe and the crusader states *Noble Privilege* M. L. Bush,1983 **The World of the Troubadours** Linda M. Paterson,1995-10-05

Occitania known today as the south of France had its own language and culture in the Middle Ages Its troubadours created courtly love and a new poetic language in the vernacular which were to influence European literature for centuries There are many books on the troubadours but this is the first comprehensive study of the society in which they lived For readers of literature it offers a wide ranging insight into the realities that lay behind the poetic mystique For historians it opens up an important and neglected area of medieval Europe *Crusaders, Condottieri, and Cannon* Donald Joseph Kagay,L. J. Andrew

Villalon,2003 This collection of eighteen essays focuses on various phases of warfare around the medieval Mediterranean Topics of these essays range from crusading activity to the increasing use of mercenaries to the spread of gunpowder weaponry **Crusaders, Condottieri, and Cannon** Kagay,Villalon,2021-10-11 This volume consists of the work of eighteen established and younger scholars and focuses on the Mediterranean as a military arena during the Middle Ages The essays center on several pillars of Mediterranean warfare the crusading movement including the Spanish reconquista the development of gunpowder weaponry the widespread use of mercenaries and warfare as understood by the lawcodes and intellectuals of the period A number of articles in this collection present new answers to old historiographical questions

Capetian France 987-1328 Elizabeth M Hallam,2014-06-06 In 987 when Hugh Capet took the throne of France founding a dynasty which was to rule for over 300 years his kingdom was weak and insignificant But by 1100 the kingdom of France was beginning to dominate the cultural nd religious life of western Europe In the centuries that followed to scholars and to poets to reforming churchmen and monks to crusaders and the designers of churches France was the hub of the universe La douce France drew people like a magnet even though its kings were until about 1200 comparatively insignificant figures Then thanks to the conquests and reforms of King Philip Augustus France became a dominant force in political and economic

terms as well producing a saint king Louis IX and in Philip IV a ruler so powerful that he could dictate to popes and emperors

Spanning France's development across four centuries Capetian France is a definitive book This second edition has been carefully revised to take account of the very latest work without losing the original book's popular balance between a compelling narrative and an fascinating examination of the period's main themes Corporatism and Comparative Politics Howard J Wiarda, 2016-09-16 Corporatism is the third great ideology of modern social and political organization and it is one of the main organizing concepts used in comparative political analysis This study traces corporatism in history analyzes its modern practice and shows the rise of corporatism in the US *Papal Overlordship and European Princes, 1000-1270* Benedict Wiedemann, 2022 Papal Overlordship and European Princes 1000-1270 offers a new perspective on the political history of the central Middle Ages by focusing on the alliances between popes and rulers who claimed a special relationship with the successor of St Peter Rather than seeing these relationships as attempts by the popes to assert their lordship and monarchy over the entire world as many past narratives have this study asks what rulers got out of these relationships what they meant and how they were constructed Papal government in fact much pre-modern government in general was based around replying to petitions Thus rulers and subjects by entering into a relationship with the pope were able to petition Rome and have their requests approved and given the sanction of papal authority Papal power was enlisted in the causes of petitioners All of these relationships between the popes and the kings of England Aragon Sicily Hungary Portugal and a myriad of further polities have at one time or another been called feudal a word that explains little or nothing about the nature and expectations of the alliance The second strand of this study examines how these relationships were constructed and how words and concepts circulated Eventually terms like fief and vassal and ideas about deposition of vassal kings were introduced into the political discourse around papal authority over their kings It always remained the case however that rulers sought out papal overlordship because of the opportunity it gave them to adopt and adapt papal power for their own purposes **The Court Reconvenes** International Courtly Literature Society. Congress, 2003 Table of contents

Boundaries of the Ancient Near Eastern World Meir Lubetski, Claire Gottlieb, Sharon Keller, 1997-01-01 For over threescore years Cyrus H Gordon's scholarship and teaching have provided new directions to the study of the ancient Near East This collection of 34 essays in honour of his 90th birthday edited by three of his former pupils celebrates his fascinating and remarkable achievements and reflects his broad command of ancient studies The global impact of his research can be seen from the geographical dispersion of the outstanding scholars who have written here on the following topics archaeology Bible studies Ugaritic Aramaic Arabic Egypt Semitic the cuneiform world Indo-European Samaritan the Graeco-Roman world mediaeval studies The inclusion of a complete bibliography of Gordon's works is of singular value Early Medieval Jewish Policy in Western Europe Bernard S. Bachrach, 1977 Early Medieval Jewish Policy in Western Europe was first published in 1977 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible

and are published unaltered from the original University of Minnesota Press editions This is the first study of early medieval Jewish policy in the West which examines the nature of this policy from the perspective and aims of its formulators As the author points out most specialists in Jewish history have been dominated by what the historian Salo Baron has called the lachrymose conception a view which emphasized persecution and suffering as a fundamental theme of Jewish history Professor Bachrach challenges this view and attacks what he calls the myth of Christian church domination of the early medieval world
