The Diamond Lane:

The Diamond Lane Karen Karbo, 1993-04-01 **Hidden History of Transportation in Los Angeles** Charles P. Hobbs, 2014-11-04 Los Angeles transportation's epic scale its iconic freeways Union Station Los Angeles International Airport and the giant ports of its shores has obscured many offbeat transit stories of moxie and eccentricity Triumphs such as the Vincent Thomas Bridge and Mac Barnes's Ground Link buspool have existed alongside such flops as the Santa Monica Freeway Diamond Lane and the Oxnard Los Angeles Caltrain commuter rail The City of Angels lacks a propeller driven monorail and a freeway in the paved bed of the Los Angeles River but not for a lack of public promoters Horace Dobbins built the elevated California Cycleway in Pasadena and Mike Kadletz deployed the Pink Buses for Orange County kids hitchhiking to the beach Join Charles P Hobbs as he recalls these and other lost episodes of LA area transportation lore Diffusion of Innovations, 4th Edition Everett M. Rogers, 2010-07-06 Since the first edition of this landmark book was published in 1962 Everett Rogers's name has become virtually synonymous with the study of diffusion of innovations according to Choice The second and third editions of Diffusion of Innovations became the standard textbook and reference on diffusion studies Now in the fourth edition Rogers presents the culmination of more than thirty years of research that will set a new standard for analysis and inquiry The fourth edition is 1 a revision of the theoretical framework and the research evidence supporting this model of diffusion and 2 a new intellectual venture in that new concepts and new theoretical viewpoints are introduced This edition differs from its predecessors in that it takes a much more critical stance in its review and synthesis of 5 000 diffusion publications During the past thirty years or so diffusion research has grown to be widely recognized applied and admired but it has also been subjected to both constructive and destructive criticism This criticism is due in large part to the stereotyped and limited ways in which many diffusion scholars have defined the scope and method of their field of study Rogers analyzes the limitations of previous diffusion studies showing for example that the convergence model by which participants create and share information to reach a mutual understanding more accurately describes diffusion in most cases than the linear model Rogers provides an entirely new set of case examples from the Balinese Water Temple to Nintendo videogames that beautifully illustrate his expansive research as well as a completely revised bibliography covering all relevant diffusion scholarship in the past decade Most important he discusses recent research and current topics including social marketing forecasting the rate of adoption technology transfer and more This all inclusive work will be essential reading for scholars and students in the fields of communications marketing geography economic development political science sociology and other related fields for generations to come Increasing the Productivity of the Nation's Urban Transportation Infrastructure John F. Kain, 1992 *Service and Methods Demonstration Program Annual Report* United States. Office of Transportation Management and Demonstrations, 1975 *Diffusion of Innovations, 5th Edition* Everett M. Rogers, 2003-08-16 Now in its fifth edition Diffusion of Innovations is a classic work on the spread of new ideas In this

renowned book Everett M Rogers professor and chair of the Department of Communication Journalism at the University of New Mexico explains how new ideas spread via communication channels over time Such innovations are initially perceived as uncertain and even risky To overcome this uncertainty most people seek out others like themselves who have already adopted the new idea Thus the diffusion process consists of a few individuals who first adopt an innovation then spread the word among their circle of acquaintances a process which typically takes months or years But there are exceptions use of the Internet in the 1990s for example may have spread more rapidly than any other innovation in the history of humankind Furthermore the Internet is changing the very nature of diffusion by decreasing the importance of physical distance between people The fifth edition addresses the spread of the Internet and how it has transformed the way human beings communicate and adopt new ideas MN Trunk Highway (TH) 100 Reconstruction, Glenwood Avenue to North of 50th Avenue North, Hennepin County ,1998
