The History Of Transportation In New Jersey

Michael E. Ferlise

The History Of Transportation In New Jersey:

The Development of Transportation in New Jersey, 1975 *New Jersey in the Automobile Age* Horace Jerome Cranmer, 1964 *The History of Transportation in New Jersey* Michael E. Ferlise, 2003 History of Transportation in the United States Before 1860 Balthasar Henry Meyer, 1917 New Jersey in the Automobile Age, 1964 **New Jersey's Trolley Heritage** Kenneth C. Springirth, 2020 New Jersey's Trolley Heritage is a photographic essay of trolley cars that once served Atlantic City Ocean City and Wildwood plus the modernized Newark City subway along with the new Hudson Bergen Light Rail Line and River Line From 1889 to 1955 electric trolley cars served commuters and vacationers in Atlantic City Between 1938 and 1955 Atlantic City operated twenty five streamlined Brilliners known as the Miss America Fleet the largest fleet of these cars in service in the United States The Shore Fast Line connected Atlantic City via Pleasantville and Somers Point to Ocean City A portion of the Pennsylvania Reading Seashore Lines was used by the Shore Fast Line Open summer cars operated in Wildwood until it closed in 1945 After trolley service ended in Atlantic City Newark's City Subway was New Jersey's only remaining trolley line until New Jersey Transit opened the Hudson Bergen Line in 2000 and by 2011 linked North Bergen with Hoboken Jersey City and Bayonne New Jersey's Trolley Heritage documents an important part of the state's trolley history including the River Line which opened in 2004 connecting Camden with Trenton A Short History of Transport in Japan from Ancient Times to the Present John Andrew Black, 2022-03-18 A Short History of Transport in Japan from Ancient Times to the Present is a unique study the first by a Western scholar to place the long term development of Japanese infrastructure alongside an analysis of its evolving political economy Drawing from New Institutional Economics Black offers a historically informed critique of contemporary planning using the example of Japan's historical institutions their particular biases and the power they have exerted over national and local transport to identify how reformed institutional arrangements might develop more sustainable and equitable transport services With chapters addressing each major form of transport Black examines the predominant role of institutions and individuals from seventeenth century shoguns to post war planners in transforming Japan's maritime infrastructure its roads and waterways and its adoption of rail and air transport Using a multidisciplinary comparative and chronological approach the book consults a range of technical cultural and political sources to tease out these interactions between society and technology This spirited new contribution to transport studies will attract readers interested in institutional power the history of transport and the development of future infrastructure as well as those with a general interest in Japan **People, the Transportation Connection** New Jersey. Department of Transportation, 2001 *A History of the Transport Service* Albert Gleaves, 1921 Historical Archaeology of the Delaware Valley, 1600-1850 Richard Veit, David Orr, 2014-02-01 The Delaware Valley is a distinct region situated within the Middle Atlantic states encompassing portions of Delaware Pennsylvania New Jersey and Maryland With its cultural epicenter of Philadelphia its surrounding bays and ports within Maryland and Delaware

and its conglomerate population of European settlers Native Americans and enslaved Africans the Delaware Valley was one of the great cultural hearths of early America The region felt the full brunt of the American Revolution briefly served as the national capital in the post Revolutionary period and sheltered burgeoning industries amidst the growing pains of a young nation Yet despite these distinctions the Delaware Valley has received less scholarly treatment than its colonial equals in New England and the Chesapeake region In *Historical Archaeology of the Delaware Valley 1600 1850* Richard Veit and David Orr bring together fifteen essays that represent the wide range of cultures experiences and industries that make this region distinctly American in its diversity From historic period American Indians living in a rapidly changing world to an archaeological portrait of Benjamin Franklin from an eighteenth century shipwreck to the archaeology of Quakerism this volume highlights the vast array of research being conducted throughout the region Many of these sites discussed are the locations of ongoing excavations and archaeologists and historians alike continue to debate the region's multifaceted identity The archaeological stories found within *Historical Archeology of the Delaware Valley 1600 1850* reflect the amalgamated heritage that many American regions experienced though the Delaware Valley certainly exemplifies a richer experience than most it even boasts the palatial home of a king Joseph Bonaparte elder brother of Napoleon and former King of Naples and Spain This work thoroughly based on careful archaeological examination tells the stories of earlier generations in the Delaware Valley and makes the case that New England and the Chesapeake are not the only cultural centers of colonial America
