The Labour Party Nationalism And Internationalism 1939 51:

The Labour Party, Nationalism and Internationalism, 1939-1951 R. M. Douglas, Ray A. Douglas, 2004-03-01 This book traces the controversy that ensued as the British democratic left set about the task of defining the principles of a radically new international system for the postwar world The schemes proposed by Labour policymakers during these years encompassed a wide variety of political institutions aiming at the restraint or supersession of the sovereign nation state What they shared in common however was a reconceptualisation of British identity in which the hyper patriotism and national exceptionalism of the wartime period blended with the left's traditional internationalism This new muscular internationalism was to have major impact upon the evolution of entities as diverse as the United Nations Organisation the British Commonwealth and the accelerating campaign in favour of European unity after Labour assumed the reins of government in 1945 Breaking with traditional accounts that place Cold War tensions at the centre of the Attlee government's activities in the immediate postwar years R M Douglas's book provides an entirely new framework for reassessing British foreign policy and left wing concepts of national identity during the most turbulent moment of Britain's modern history This will be essential reading for all students of British foreign policy the Labour Party and international relations **BOOK JACKET** **The Labour Party, Nationalism and Internationalism, 1939-1951** R. M. Douglas, 2004-03-01 The Second World War was a watershed moment in foreign policy for the Labour Party in Britain This book traces how the British democratic left set about the task of defining the principles of a radically new international system for the post war world The author shows how the experience of total war fundamentally reshaped the left's attitudes toward national identity and international policy Breaking with the traditional accounts that place Cold War tensions at the centre of the Attlee government's activities in the immediate postwar years R M Douglas's book provides an entirely new framework for reassessing British foreign policy and left wing concepts of national identity during the most turbulent moment of Britain's modern history American Empire A. G. Hopkins, 2019-08-27 Compelling provocative and learned This book is a stunning and sophisticated reevaluation of the American empire Hopkins tells an old story in a truly new way American history will never be the same again Jeremi Suri author of *The Impossible Presidency* *The Rise and Fall of America's Highest Office* **Imagining Internationalism in American and British Labor, 1939-49** Victor Silverman, 2000 Vividly capturing a moment in history when American and British unions seemed about to join with their Soviet counterparts to create a world unified by its workers this wide ranging study uncovers the social cultural and ideological currents that generated worldwide support among workers for a union international as well as the pull of national interests that ultimately subverted it In a striking departure from the conventional wisdom Victor Silverman argues that the ideology of the cold war was essentially imposed from above and came into conflict with the attitudes workers developed about internationalism This work the first to look at internationalism from the point of view of the worker confirms at the level of social and cultural history that the postwar tensions between the Anglo Americans

and the Soviets took several years to become a new orthodoxy Silverman demonstrates that for millions of trade unionists in dozens of countries the Cold War began in late 1948 rather than between 1945 and 1946 as generally recorded by diplomatic historians Tracing the faultlines between politics and ideals and between national and class allegiances Silverman shows how the vision of an international working class recovery was ultimately discredited and the cold war set inexorably in motion

Nationalism, Labour and Ethnicity 1870-1939 Angel Smith, Stefan Berger, 1999 This text looks at the inter relationships between labour nationalist movements and ethnicity during the Age of Imperialism Two of the most debated contemporary issues focus on the decline of labour particularly socialist ideologies and the rise of nationalism It is sometimes assumed that the demise of one led to the triumph of the other It is also thought that labour as an internationalist movement underestimated and misunderstood the power of nationalism This text links these historical phenomena and sets the debate in more accurate historical context The Labour Party, Denis Healey and the International Socialist Movement Ettore

Costa, 2018-05-18 This book describes how after the Second World War the Labour Party assumed leadership of the International Socialist Movement thanks to the achievements of the Attlee Government International Secretary Denis Healey guided the reconstruction of the Socialist International through the early Cold War making the British vision for socialist internationalism prevail over the French and Belgian At first the provisional Socialist International International Socialist Conference and Cominfo supported cohabitation with pro communist socialists and the USSR but with the Sovietisation of Eastern Europe it committed to militant anti communism Ambiguity between the Labour Party and Labour Government influenced British policy in Austria Czechoslovakia Greece Italy and Poland while the characterization and stereotypes of Eastern and Southern Europe shaped the language and actions of the British Furthermore the book shows how international contacts and the British and Swedish model encouraged the transition of socialist parties to responsible government parties fully embracing Western democracy and prepared the ideological revision of the 1950s **The British Labour Party and**

the Wider World Paul Corthorn, Jonathan Davis, 2007-10-24 The legacy of Blair and the invasions of Iraq and Afghanistan continue to loom large for the Labour Party whether in opposition or in government giving rise to fierce debates over Labour s attitude and posture towards the wider world This book considers the idea of Labour s international identity examining how world events and Labour s response to them have helped to shape ideology political culture and domestic agendas from the 1920s until the Iraq War It provides a fascinating and original exploration of Labour both on the world stage and at home from the influence of the Soviet Union on political thought in the interwar years to the international student revolts of the 1960s and from media in the 1990s to Kosovo and New Labour Interventionism This is essential reading for scholars of modern British politics as well as anyone interested in the motivations and influences behind the Labour Party s actions on the world stage **The Labour Party, Nationalism and Internationalism, 1939-1951** Ray A. Douglas, 2004-03 **The**

Labour Party and European Integration Matthew Broad, William King, 2025-10-21 This book uses a biographical approach

to explore the Labour Party's relationship with European integration moving beyond simple pro or anti labels to showcase the complexity of views that have existed. Its positioning within the biographical turn emphasizes the importance of formative experiences in shaping such viewpoints held by both familiar figures and more underappreciated voices. Taking a broad view of Labour history, the book covers the roots of Labour's diverse thinking on integration from the 1920s to the recent past. Its significant intervention in the fields of Labour Party history, European integration studies and history through biography helps provide essential historical context for understanding Labour's current European policies.

International Relations and the Labour Party Lucian Ashworth, 2007-11-28 PLEASE NOTE THIS IS AN NJR AND BLURB SHOULD NOT BE USED IN ITS RAW FORM From 1918 to 1945 the British Labour Party worked closely with some of the biggest names in international relations IR scholarship. Through such structures as the Advisory Committee on International Questions IR scholars were instrumental in the construction of Labour foreign policy and the experience of working closely with Labour's leadership influenced the approach to IR taken by these scholars. One of the major effects of the collaboration of Labour with IR experts was a wealth of memoranda, reports and pamphlets written by IR scholars for the Party. This material, despite its relevance to the history of the discipline of IR, has received scant attention in modern IR scholarship. This study has three major goals. The first is to add to the literature on the study of Labour foreign policy by examining the crucial role played by IR theorists and writers. The Advisory Committee and its intellectual members did much to shape the foreign policy of the Party, giving it a coherent approach to international problems. The second is to put the international theories of five key writers, Leonard Woolf, H. N. Brailsford, Philip Noel Baker, Norman Angell and David Mitrany, into the context of both the development of Labour's international policy and the evolution of the international environment between the wars. Although all five writers are acknowledged as key thinkers in this period, the memoranda on foreign affairs that they did for the Labour Party are little known within IR. The final goal is to demonstrate the inadequacy of the current interpretation within IR of the inter-war period. The obsession with the anachronistic division between realism and idealism, terms that had different connotations before the Second World War, masks both the very different debates that were going on at the time and the changing international landscape of the inter-war period itself.

The Practice of Socialist Internationalism Talbot C. Imlay, 2018 How did the early twentieth-century socialist parties of Britain, France and Germany cooperate with each other to create a united vision on international issues? Talbot Imlay offers a new perspective on how European socialists practised internationalism, addressing issues such as post-war reconstruction, European integration and decolonization.

A Sacred Trust Michael D. Callahan, 2004-09-29 The second volume explains how the League of Nations mandates system fused two of the predominant and compelling global forces of the twentieth century: imperialism and Wilsonian internationalism. After the First World War, Britain and France administered most of Germany's former tropical African colonies as mandates under the supervision of the League as a sacred trust of civilization. This system of international trusteeship changed British and French

rule in Africa In short mandates were not colonies Mandates meant less militarism more commercial equality a greater emphasis on the interests of Africans and an end to the extension of European national sovereignty over colonized peoples Accountability to the League also required the British and French to reconsider traditional economic strategic and ideological assumptions about their empires In the process the sacred trust sowed the seeds of self doubt about the very purpose and future of European imperialism The mandates system continued to represent a genuine internationalisation and reformation of colonialism and had long term economic political and cultural consequences for Africans and Europeans within the mandated territories Despite the Depression repeated Anglo French foreign policy failures growing humiliations for Geneva and war in Africa and Europe the principles and practices of international trusteeship proved persistent Mandates demonstrated the relevance of international law the importance of the League of Nations and the impact of Wilsonian principles on international relations and European imperialism

Propaganda and Public Relations in Military

Recruitment Brendan Maartens, Thomas Bivins, 2020-11-19 This book represents the first international investigation of military recruitment advertising public relations and propaganda Comprised of eleven case studies that explore mobilisation work in Africa the Americas Asia and Europe it covers more than a hundred years of recent history with chapters on the First and Second World Wars the Cold War and the present day The book explores such promotion in countries both large and small and in times of both war and peace with readers gaining an insight into the different strategies and tactics used to motivate men women and occasionally even children to serve and fight in many parts of the world Readers will also learn about the crucial but little known role of commercial advertising public relations and media professionals in the production and distribution of recruitment promotion This book the first of its kind to be published will explore that role and in the process address two questions that are central to studies of media and conflict how do militaries encourage civilians to join up and are they successful in doing so It is a multi disciplinary project intended for a diverse academic audience including postgraduate students exploring aspects of war propaganda and public opinion and researchers working across the domains of history communications studies conflict studies psychology and philosophy

Algerian Independence and the British

Left Mélanie Torrent, 2024-11-14 Based on archives from governments parties organisations and individuals this book investigates the relationship between the British left and Algerian liberation movements during the Algerian War of Independence 1954 1962 It explores the presence of representatives of the Mouvement national algérien MNA and the Front de libération nationale FLN in London where they actively sought support for peace independence from France and the global end of European domination By surveying their interactions with individuals and groups in the anticolonial left including prominent Labour MPs and Trotskyist groups Asian and African associations and students unions Torrent shows how and why solidarity was interpreted differently across the left and in relation to Britain's own end of empire conflicts Tracing connections across Europe and beyond this book demonstrates how the war influenced conceptions of socialism communism

and internationalism in Britain what being European meant and what place the Commonwealth should have in a world where armed struggle and liberation diplomacy disrupted boundaries

British International Thinkers from Hobbes to Namier I. Hall, 2009-12-07 This book will be the first to examine the variety of British international thought its continuities and innovations The editors combine new essays on familiar thinkers such as Thomas Hobbes and John Locke with important but neglected writers and publicists such as Travers Twiss James Bryce and Lowes Dickinson

Churchill's Last Stand Felix Klos, 2017-09-30 After the Second World War with much of Europe in ruins the victorious Winston Churchill swore to build a peace across Europe that would last a generation Fighting against the new Iron Curtain which had fallen across the world and battling the personal disappointment of losing the 1945 election in Britain Churchill dedicated the rest of his life to forging a united Europe This book based in part on new evidence reveals his vision Britain as a leading member of the European family Through Churchill's own private papers Felix Klos unveils Churchill's personal battle to regain his place in world affairs his confidential conversations with European leaders and the thinking and preparation behind some of his most powerful speeches A beautifully written history of Europe after the war and a new glimpse at one of its greatest statesmen

Churchill on Europe Felix Klos, 2016-06-03 When the Nazi power was broken I asked myself what was the best advice I could give to my fellow citizens here in this island and across the channel in our ravaged continent There was no difficulty in answering the question My counsel to Europe can be given in a single word Unite Sir Winston Churchill in 1947 After the Second World War with Europe in ruins the victorious Winston Churchill swore to build a peace that would last Together with a group of thinkers and politicians Churchill began to build the institutions and the political will that would eventually lead to what we now know as the European Union He believed in a united Europe and wanted Britain to play a leading role This book based in part on new evidence reveals his vision Britain as a leading member of the European family On the 23rd June this book asks us all to think carefully what would Churchill have done

The Conservative Human Rights Revolution Marco Duranti, 2017 The Conservative Human Rights Revolution reconsiders the origins of the European human rights system arguing that its conservative inventors foremost among them Winston Churchill conceived of the European Convention on Human Rights ECHR as a means of realizing a controversial political agenda and advancing a Christian vision of European identity

Overseas Economic Relations and Statehood in Europe, 1860s-1970s Gerold Krozewski, 2023-04-06 Drawing on official archival and published sources this book explores how the formative history of the European nation state was embedded within economic globalization and associated with conceptions of the world overseas With a particular focus on France Germany Italy and Britain this research investigates how overseas relationships shaped state governance The argument departs from conventional histories by linking together the analysis of economic relationships and political cultures examining the ways in which state agency formed in different areas such as national economy building the organization of overseas raw material and food supplies labour migration and national identity Spanning over a century the book discusses

the changing role of overseas colonies in European national development Once a means to complete economic liberalization colonies were then envisaged as tools of crisis management before in the mid twentieth century complementarities in imperial colonial economies shifted away from empire This volume covers neglected aspects of the transnational history of European nation states and is an ideal resource for students and researchers interested in the ties between Europe Africa and Asia as well as connections between political economic and social relations and their conceptualizations **The Postwar Legacy of Appeasement** R. Gerald Hughes, 2014-01-16 Focusing on the Cold War and the post Cold War eras R Gerald Hughes explores the continuing influence of Appeasement on British foreign policy and re evaluates the relationship between British society and Appeasement both as historical memory and as a foreign policy process The Postwar Legacy of Appeasement explores the reaction of British policy makers to the legacies of the era of Appeasement the memory of Appeasement in public opinion and the media and the use of Appeasement as a motif in political debate regarding threats faced by Britain in the post war era Using many previously unpublished archival sources this book clearly demonstrates that many of the core British beliefs and cultural norms that had underpinned the Chamberlainite Appeasement of the 1930s persisted in the postwar period

The Top Books of the Year The Labour Party Nationalism And Internationalism 1939 51 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels enthraling the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the fascinating narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
