The Lacemakers:

The Lacemakers: Mrs. Charles Meredith, 1865 **The Lacemakers** Susanna Meredith, 1865 **The Lacemaker's Secret** Kathleen Ernst, 2018-10-08 In this heartfelt tale of labor and love Ernst produces one of her most winning combinations of historical evocation and clever mystery Kirkus Reviews Greed Uncertainty and Death Get Tangled in the Mystery of a Rare Piece of Belgian Lace Curator Chloe Ellefson needs distraction from the unsettling family secret she's just learned It doesn't help that her boyfriend Roelke McKenna has been troubled for weeks and won't say why Chloe hopes a consulting job at Green Bay's Heritage Hill Historical Park where an old Belgian American farmhouse is being restored will be a relaxing escape Instead she discovers a body in a century old bake oven Chloe's research suggests that a rare and valuable piece of lace made its way to nearby Door County Wisconsin with the earliest Belgian settlers More importantly someone is desperate to find it Inspired by a courageous Belgian woman who survived cholera famine and the Great Fire Chloe must untangle clues to reveal secrets old and new before the killer strikes again **European Women and Preindustrial Craft** Daryl M. Hafter, 1995-07-22 These essays with their combination of fascinating detail with respect to the individual industries and their innovative conceptual approach will be a most valuable source for any student of labor and gender history Labor History an engaging and thought provoking volume Technology and Culture Essays examine key 18th and 19th century industries including spinning weaving calico painting and the lingerie trade Focusing on links between women's preindustrial craft production and heavy industrialization this volume shows how women adopted or rejected new technology in various situations helping maintain social peace during profound economic dislocation **The Lacemakers** Rosanne Wasserman, 1992 *Women Workers in the Industrial Revolution* Ivy Pinchbeck, 2013-10-08 First Published in 2004 It is often assumed that the woman worker was produced by the Industrial Revolution and that since that time women have taken an increasing share in the world's work This theory is however quite unsupported by facts In every industrial system in the past women have been engaged in productive work and their contribution has been recognised as an indispensable factor This volume is devoted to women's employment in agriculture and the agrarian revolution *Humanitarian handicraft* Rebecca Gill, Claire Barber, Helen Dampier, Bertrand Taithe, 2025-10-07 This book uncovers the overlooked history of artisanal textiles in projects aimed at social uplift and moral reform The contributors ask what the implications of this form of gendered craft production are for our understanding of the humanitarian imagination relations of humanitarian production and the generation of meaning and social and artistic value It also opens a dialogue with contemporary socially engaged textile artists to engender critical reflection on the socially situated meaning of textile craft in past and present humanitarian contexts A Descriptive Catalogue of the Lace and Embroidery in the South Kensington Museum Fanny Bury Palliser, 1871 Textiles, Identity and Innovation: Design the Future Gianni Montagna, Cristina Carvalho, 2018-10-03 D_TEX presents itself as a starting point at a crossroads of ideas and debates around the complex universe of Textile Design in all its forms

manifestations and dimensions The textile universe allied to mankind since its beginnings is increasingly far from being an area of exhausted possibilities each moment proposing important innovations that need a presentation discussion and maturation space that is comprehensive and above all inter and transdisciplinary Presently the disciplinary areas where the textile area is present are increasing and important such as fashion home textiles technical clothing and accessories but also construction and health among others and can provide new possibilities and different disciplinary areas and allowing the production of new knowledge D_TEX proposes to join the thinking of design with technologies tradition techniques and related areas in a single space where ideas are combined with the technique and with the projectual and research capacity thus providing for the creation of concepts opinions associations of ideas links and connections that allow the conception of ideas products and services The interdisciplinary nature of design is a reality that fully reaches the textile material in its essence and its practical application through the synergy and contamination by the different interventions that make up the multidisciplinary teams of research The generic theme of D_TEX Textile Design Conference 2017 held at Lisbon School of Architecture of the University of Lisbon Portugal on November 2 4 2017 is Design the Future starting from the crossroads of ideas and debates a new starting point for the exploration of textile materials their identities and innovations in all their dimensions
