Journal of the American Medical Association American Medical Association,1924 **The Art of Terrestrial
Diagrams in Early China** Michelle H. Wang,2023-11-21 This is the first English language monograph on the early history of
cartography in China Its chief players are three maps found in tombs that date from the fourth to the second century BCE
and together constitute the entire known corpus of ancient Chinese maps ditu A millennium separates them from the next
available map from 1136 CE Most scholars study them through the lens of modern empirical definitions of maps and their use
This book offers an alternative view by drawing on methods not just from cartography but from art history archaeology and
religion It argues that as tomb objects the maps were designed to be simultaneously functional for the living and the dead
that each map was drawn to serve navigational purposes of guiding the living from one town to another as well as to diagram
ritual order thereby taming the unknown territory of the dead In contrast with traditional scholarship The Art of Terrestrial
Diagrams in Early China proposes that ditu can speak through their forms Departing from dominant theories of
representation that forge a narrow path from form to meaning the book braids together two main strands of argumentation
to explore the multifaceted and multifunctional diagrammatic tradition of rendering space in early China **Official

Boym,2009-06-30 What is the real Russia What is the relationship between national dreams and kitsch between political and

artistic utopia and everyday existence Commonplaces of daily living would be perfect clues for those seeking to understand a culture But all who write big books on Russian life confess their failure to get properly inside Russia to understand its doublespeak Svetlana Boym is a unique guide A member of the last Soviet Generation the Russian equivalent of our Generation X she grew up in Leningrad and has lived in the West for the past thirteen years Her book provides a view of Russia that is historically informed replete with unexpected detail and everywhere stamped with authority Alternating analysis with personal accounts of Russian life Boym conveys the foreignness of Russia and examines its peculiar conceptions of private life and common good of Culture and Trash of sincerity and banality Armed with a Dictionary of Untranslatable Terms we step around Uncle Fedia asleep in the hall surrounded by a puddle of urine and enter the Communal Apartment the central exhibit of the book It is the ruin of the communal utopia and a unique institution of Soviet daily life a model Soviet home and a breeding ground for grassroots informants Here privacy is forbidden here the inhabitants defiantly treasure their bits of domestic trash targets of ideological campaigns for the transformation perestroika of everyday life Against the Russian and Soviet myths of national destiny the trivial the ordinary even the trashy take on a utopian dimension Boym studies Russian culture in a broad sense of the word she ranges from nineteenth and twentieth century intellectual thought to art and popular culture With her we go walking in Moscow and Leningrad eavesdrop on domestic life and discover jokes films and TV programs Boym then reflects on the 1991 coup that marked the end of the Soviet Union and evoked fin de si cle apocalyptic visions The book ends with a poignant reflection on the nature of communal utopia and nostalgia on homesickness and the sickness of being home
