Parliamentary Debates Victoria. Parliament, 1905 **The Land Is Our History** Miranda Johnson, 2016-09-20 The Land Is Our History tells the story of indigenous legal activism at a critical political and cultural juncture in Australia Canada and New Zealand In the late 1960s indigenous activists protested assimilation policies and the usurpation of their lands as a new mining boom took off radically threatening their collective identities Often excluded from legal recourse in the past indigenous leaders took their claims to court with remarkable results For the first time their distinctive histories were admitted as evidence of their rights Miranda Johnson examines how indigenous peoples advocated for themselves in courts and commissions of inquiry between the early 1970s to the mid 1990s chronicling an extraordinary and overlooked history in which virtually disenfranchised peoples forced powerful settler democracies to reckon with their

demands Based on extensive archival research and interviews with leading participants The Land Is Our History brings to the fore complex and rich discussions among activists lawyers anthropologists judges and others in the context of legal cases in far flung communities dealing with rights history and identity The effects of these debates were unexpectedly wide ranging By asserting that they were the first peoples of the land indigenous leaders compelled the powerful settler states that surrounded them to negotiate their rights and status Fracturing national myths and making new stories of origin necessary indigenous peoples claims challenged settler societies to rethink their sense of belonging *Foreign Agriculture* ,1943

Rodwell,2024-12-27 Periodically in Australian society racial chasms emerge portraying the great divide between Indigenous and non Indigenous Australians exposing the sustained influence of the doomed race protective myth and its residue This book exposes that a long and powerful influence on Australian society economy culture and history has been the doomed race protective myth While most nations harbour protective myths of one form or another often endorsed by Australian governments at all levels and steeped in a cruel racism and inter alia a quest for pastoral lands Australia s doomed race protective myth has asserted an undue influence on First Nations people This book argues the doomed race protective myth warped the vision of power elites politicians and bureaucrats For centuries sustained by representations in official and public history schools churches and a whole host of public institutions the doomed race protective myth has been voiced by almost every facet of non Indigenous Australian society with pastoral Australia particularly benefiting This book opens fresh vistas to

the continuing racism in Australian society through an examination of the long politicised doomed race protective myth which was foisted on First Nations people and with vested interests in pastoral Australia Key events in Australia s race relations history such as the 2023 First Nations Voice to Parliament Referendum have new light shed on them Transnational themes relevant to Indigenous history have been examined People with an interest in non Indigenous Indigenous affairs academics politicians and bureaucrats and students will enjoy this book

D. H. Lawrence, *Ecofeminism and Nature* Terry Gifford, 2022-09-30 Shortlisted for the ASLE UKI Prize for Best Academic Monograph This is the first ecocritical book on the works of D H Lawrence and also the first to consider the links between nature and gender in the poetry and the novels In his search for a balanced relationship between male and female characters what role does nature play in the challenges Lawrence offers his readers How far are the anxieties of his characters in negotiating relationships that might threaten their sense of self derived from the same source as their anxieties about engaging with the Other in nature Indeed might Lawrence s metaphors drawn from nature actually be the causes of human actions in *The Rainbow* for example The originality of Lawrence s poetic and narrative strategies for challenging social attitudes towards both nature and gender can be revealed by new approaches offered by ecocritical theory and ecofeminist readings of his books This book explores ecocritical notions to frame its ecofeminist readings from the difference between the Other and otherness in *The White Peacock* and *Lady Chatterley s Lover* anotherness in the poetry of *Birds Beasts and Flowers* psychogeography in *Sea and Sardinia* emergent ecofeminism in *Sons and Lovers* land and gender in *The Boy in the Bush* gender dialogics in *Kangaroo* human animality in *Women in Love* trees as tests in *Aaron s Rod* to radical animism in *The Plumed Serpent* Finally three late tales provide a reassessment of ecofeminist insights into Lawrence s work for readers in the present context of the Anthropocene

Indigenous Peoples' Land Rights under International Law Jérémie Gilbert, 2016-06-21 This book addresses the right of indigenous peoples to live own and use their traditional territories and analyses how international law addresses this Through its meticulous examination of the interaction between international law and indigenous peoples land rights the work explores several burning issues such as collective rights self determination property rights cultural rights and restitution of land It delves into the notion of past violations and the role of international law in providing for remedies reparation and restitution It also argues that there is a new phase in the relationship between States indigenous peoples and private actors such as corporations in the making of territorial agreements The first edition of this ground breaking book was

published in 2006 at the time the negotiations for the adoption of the United Nations Declaration on the Rights of Indigenous Peoples UNDRIP were still underway The adoption of the Declaration in 2007 marks an important moment not only in terms of law making but also represents the achievement of long decades of lobbying and advocacy from indigenous peoples representatives This fully revised new edition reflects on the 10 years which have followed the adoption of the UNDRIP and examines its impact regarding indigenous peoples land rights Its aim is not only to assess the importance of the UNDRIP in terms of international standards but also to reflect on the maturing of international law in relation to indigenous peoples land rights Over the last 10 years these have reached a new level of visibility and a voluminous new jurisprudence and doctrine have been developed Praise for the first edition Gilbert s passion for his subject is palpable and illuminates every page as do his zeal to expose international law s complicity in indigenous peoples loss of their territories and tentative hope that international law might now provide some protection of indigenous peoples lands The choice of topic is also to be applauded There are few texts that examine indigenous peoples land rights in such depth Claire Charters Associate Professor University of Auckland New Zealand in *International and Comparative Law Quarterly* ICLQ Gilbert s gaze is firmly fixed on the future and the question how international law will reflect *lex ferenda* on indigenous land rights His interpretation of international law must be seen in this light He is looking beyond the current controversies in the rights discourse towards a more conciliatory phase in state indigenous relations International law undoubtedly has an important role to play in his vision but its primary function is to facilitate dialogue rather than as a combative and adversarial mechanism Gilbert s book is a tour de force on indigenous territoriality Stephen Allen Senior Lecturer in Law Queen Mary University London United Kingdom in *International Journal on Minority and Group Rights*
