The Land And People Of Ethiopia:

The Land and People of Ethiopia Edna Mason Kaula,1972-01-01 An introduction to the people history government customs religion and art of Ethiopia once known as Abyssinia *Ethiopia: The Land, Its People, History and Culture* Yohannes K. Mekonnen, Editor,2013-01-31 This book is a general survey of Ethiopia as a country and its people It focuses on many subjects about Ethiopia s history geography politics ethnic groups and their cultures The book also covers Eritrea its people history and culture but the main focus of the book is on Ethiopia *Ethiopia* Yohannes K. Mekonnen,2013-04 This book is a general survey of Ethiopia as a country and its people It focuses on many subjects about Ethiopia s history geography politics and the diverse cultures of its people who collectively constitute one of the most fascinating countries in the history of Africa and of the entire world It starts from the beginning when foundations were laid for what was later to become the country of Ethiopia which is one of the oldest civilisations in the world Ethiopia also has the distinction of being the oldest Christian nation in Africa and one of the three oldest Christian countries in the world after Georgia and Armenia Ethiopia converted to Christianity centuries before Europe did And it is mentioned in the Bible many times The book also covers Eritrea its people history and culture but not in as much detail as it does Ethiopia Still the information about Eritrea is enough to serve as a simple and general introduction to the country But the main focus of the book is on Ethiopia Land, People, and Forests in Eastern and Southern Africa at the Beginning of the 21st Century Liz Wily,Sue Mbaya,2001 **The Oxford Handbook of the Ethiopian Economy** Fantu Cheru,Christopher Cramer,Arkebe Oqubay,2019-01-10 From a war torn and famine plagued country at the beginning of the 1990s Ethiopia is today emerging as one of the fastest growing economies in Africa Growth in Ethiopia has surpassed that of every other sub Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years The government has set its eyes on transforming the country into a middle income country by 2025 and into a leading manufacturing hub in Africa The Oxford Handbook of the Ethiopian Economy studies this country s unique model of development where the state plays a central role and where a successful industrialization drive has challenged the long held erroneous assumption that industrial policy will never work in poor African countries While much of the volume is focused on post 1991 economic development policy and strategy the analysis is set against the background of the long history of Ethiopia and more specifically on the Imperial period that ended in 1974 the socialist development experiment of the Derg regime between 1974 and 1991 and the policies and strategies of the current EPRDF government that assumed power in 1991 Including a range of contributions from both academic and professional standpoints this volume is a key reference work on the economy of Ethiopia *Lands and Peoples of the World: Latin America, Africa, and Australia* Robert M. Glendinning,1957 *Report of the Special Study Mission to Africa* United States. Congress. House. Committee on Foreign Affairs,Frances Payne Bingham Bolton,1956 *Reports and Documents* United States. Congress,1957 , **Sport and Protest in the Black Atlantic** Michael J.

Gennaro, Brian M. McGowan, 2022-11-02 This is the first book to focus on race sport protest and the Black Atlantic It brings together innovative scholarship on African American Afro European Afro Brazilian and Afro Caribbean sports in a manner that speaks effectively to the diversity of the African diaspora its history and culture The book explores the history of sports including baseball basketball boxing football rugby cricket and track and field athletics to show athlete and fan protests in sport intersected with discourses of nationalism self fashioning gender and masculinity leisure and play challenges of underdevelopment and the idea of progress It shows how sport in the African diaspora is a crucially important lens through which to understand the challenges changes and continuities of Black Atlantic history the history of protest and racism This is fascinating reading for anybody with an interest in sport history social and cultural history post imperial history and decolonization or the sociology of sport race and political protest

The Land Grabbers Fred Pearce, 2012-05-29 How Wall Street Chinese billionaires oil sheiks and agribusiness are buying up huge tracts of land in a hungry crowded world An unprecedented land grab is taking place around the world Fearing future food shortages or eager to profit from them the world's wealthiest and most acquisitive countries corporations and individuals have been buying and leasing vast tracts of land around the world The scale is astounding parcels the size of small countries are being gobbled up across the plains of Africa the paddy fields of Southeast Asia the jungles of South America and the prairies of Eastern Europe Veteran science writer Fred Pearce spent a year circling the globe to find out who was doing the buying whose land was being taken over and what the effect of these massive land deals seems to be *The Land Grabbers* is a first of its kind expos that reveals the scale and the human costs of the land grab one of the most profound ethical environmental and economic issues facing the globalized world in the twenty first century The corporations speculators and governments scooping up land cheap in the developing world claim that industrial scale farming will help local economies But Pearce's research reveals a far more troubling reality While some mega farms are ethically run all too often poor farmers and cattle herders are evicted from ancestral lands or cut off from water sources The good jobs promised by foreign capitalists and home governments alike fail to materialize Hungry nations are being forced to export their food to the wealthy

and corporate potentates run fiefdoms oblivious to the country beyond their fences Pearce's story is populated with larger than life characters from financier George Soros and industry tycoon Richard Branson to Gulf state sheikhs Russian oligarchs British barons and Burmese generals We discover why Goldman Sachs is buying up the Chinese poultry industry what Lord Rothschild and a legendary 1970s asset stripper are doing in the backwoods of Brazil and what plans a Saudi oil billionaire has for Ethiopia Along the way Pearce introduces us to the people who actually live on and live off of the supposedly empty land that is being grabbed from Cambodian peasants victimized first by the Khmer Rouge and now by crony capitalism to African pastoralists confined to ever smaller tracts Over the next few decades land grabbing may matter more to more of the planet's people than even climate change It will affect who eats and who does not who gets richer and who gets poorer and whether agrarian societies can exist outside corporate control It is the new battle over who owns the planet The World: Historical and Actual Frank Gilbert, 1882 **A Commentary, Critical, Experimental, and Practical, on the Old and**

Urban Issues in Rapidly Growing Cities Mintesnot Woldeamanuel, 2020-02-19 This book critically assesses the complex urban issues planning challenges and development opportunities of rapidly growing cities using Addis Ababa as a case study Just like other developing cities Addis Ababa is undergoing numerous natural and policy driven changes This book analyses the effect of these changes on urban management to allow better understanding of the conceptual frameworks that define the everyday functions of rapidly growing cities It demonstrates that rapid urban growth has simultaneously created opportunities for economic development in the developing world as well as social environmental and cultural challenges causing a mismatch between demand and the supply of services The author argues that by combining indigenous knowledge and practices and contemporary planning principles developing countries can overcome challenges concerning environmental and public health transport congestion rising rents and house prices and lack of open space Foregrounding the experience of everyday citizens of the city this book aids our understanding of the nature of rapidly growing cities and outlines what needs to be done so that the city meets the needs of the people A unique contribution to the literature on cities of the developing world this book will be of interest to students and scholars of Urban Studies Planning Development Studies and African Studies The Gedeo Adolf Ellegard Jensen, 2020 In 1955 nearly twenty years after publishing *Im Lande des Gada* In the Land of Gada Jensen revisited the Gedeo of southern Ethiopia Here published for the first time is the classic ethnography that Jensen wrote following that fieldwork Divided into chapters on the country and its people social life the age groups and the dual division the political order and religious and spiritual life and illustrated with 33 historical photographs from the archives of the Frobenius Institute the book includes a preface and introduction by Getachew Senishaw
