The Land Tax In China:

The Land Tax in China Han Liang Huang,1968 **The Property Tax in China** Yilin Hou,Qiang Ren,Ping Zhang,2014-11-20 This monograph offers a detailed analysis of the creation pilot implementation and possible wide adoption of the real property tax at the local level in China Starting in 2003 as China s economy gradually recovered from the Asian financial crisis that started in 1998 the real property market entered a period of rapid expansion followed immediately by rampant speculation rising housing costs and official corruption Over the last ten years the price of real property in most cities has more than tripled especially in metropolitan areas In an effort to curb this the government has instituted a number of property market controls including property tax pilot programs in Shanghai and Chongqing While this is the latest of a number of fiscal reforms it is a very important one that carries with it the ability to change the landscape of public finance intergovernmental relations and local governance in China It represents a fundamental change in the provision of public services the relationship between local governments and tax payers and the status of localities in the government structure Taking a public choice perspective the authors argue that the local property tax should be used not solely as a means of controlling housing prices but should be fully employed as a fiscal and budgetary institution that will contribute to mitigating multifarious socio economic problems resulting from economic growth rapid urbanization and widening income disparity As this program is the first of its kind so this book is the first detailed study of property tax in China as such it will appeal to researchers of public finance and public policy It will also be of great interest to policymakers in China and in other countries that are considering adopting or reforming their versions of the local property tax It fills the gap in a growing body of literature about the inner workings of Chinese economics and policy *The Land Tax in China* Han-liang Huang,1918

tax imperative Those who are familiar with the present financial situation of China know that two out of her three largest sources of revenue will be unavailable for many years to come These three sources are the custom duties the salt gabelle and the land tax which together furnish nearly two thirds of the total revenue The tariff has been limited however by treaty agreements with foreign powers to five per cent ad valorem and its receipts thus Limited have been hypothecated to the payments Of the Boxer Indemnity which will not expire until 1940 The salt gabelle the fiscal success of which has been most remarkable since its reorganization will be largely absorbed by the payments of interest and amortization of the loan services To which it is pledged This situation is responsible for a large part of the present financial embarrassments Perhaps some immediate relief may be expected from the revision of the tariff to an effective five per cent basis But such an increase will necessarily be limited It is for these reasons that many students of the financial situation in China have pointed to the reform of the land tax as a key to the solution of the present financial difficulties of the country About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Land Tax in China - Scholar's Choice Edition* Han Liang Huang,2015-02-20 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **China's Urbanization and Socioeconomic Impact** Zongli Tang,2017-06-26 This book examines the impacts of China's urbanization on the country's economic development clan culture rural societies minority resident areas natural environment women and public policy reforms drawing on official statistics independent survey data archives and fieldwork research to do so Adopting a cross disciplinary perspective the book places special emphasis on issues that have been neglected in prior studies and provides up to date information reports and analyses based on the latest events Further it considers future directions and strategies regarding urban development discusses regional
