The Last Inheritor:

The Inheritor Théâtre de l'Aquarium, 2024-11-15 The first English language translation of the 1968 activist play about inequality and access to education In The Inheritor surrealist imagery and experimental forms convey the radically different experience of two students the Inheritor and the Non Inheritor as they prepare for a high stakes exam Revealing a world of privilege where there is no such thing as luck the play features a beheaded knight a talking record player and a boisterous chorus of professors depicted as a flock of squawking birds Based on sociologists Pierre Bourdieu and Jean Claude Passeron's The Inheritors French Students and Their Relations to Culture the play was collectively created by Théâtre de l'Aquarium a company then composed entirely of students It proved a powerful success when it premiered in May 1968 amid student and worker protests in Paris and it continues to speak forcefully to education inequity on campuses across anglophone countries today

The Principles of the Hindu Law of Inheritance ... Rajkumar Sarvadhikari, 1882 **The New Inheritors** Madeleine Mattarozzi Laming, 2012-12-20 This groundbreaking book examines why the majority of Australian school leavers want to go to university and have resisted government attempts to promote alternative forms of tertiary education The New Inheritors explores differences in young people's understanding of the purpose of university and their reasons for wanting to enrol The book reveals that although there has been a general shift in values towards the utilitarian perspective there is still significant support for the traditional liberal idea of university education as a cultural experience This support is concentrated in well educated families regardless of their financial resources but there is a substantial number of young people from less well educated families who have absorbed the liberal perspective The book begins with an extensive and unique overview of changes in Australian federal government tertiary education policy and changes in the public discourse on education This overview provides a framework against which differences among today's students are examined in detail Drawing on a study of over 200 secondary school students from diverse backgrounds The New Inheritors records their attitudes to university including access fees and the role of government and explores how these are formed by their family backgrounds and influenced by public policy on education The New Inheritors uncovers the complexity of young people's attitudes and what processes occur in the forming and reforming of those attitudes to university and what young people really want from university education Dr Madeleine Mattarozzi Laming is a Lecturer in Education at Australian Catholic University She has given numerous conference papers on transition from school to university and teaching students from diverse backgrounds

In 2011 she received an Australian Learning and Teaching Council Citation for an outstanding contribution to student learning particularly at the first year

The Wise Inheritor's Guide to Freedom from Wealth Charles A. Lowenhaupt, 2018-09-07

Wealth should never consume or imprison the wealth holder but it can. This book provides solutions to the issues many wealth inheritors encounter including problems with trust, family wealth secrets and family legacy. The next generation may witness one of the largest transfers of wealth in history. By one estimate, millennials and Generation Z are set to inherit 30 trillion over the next 30 years. The sudden inheritance of significant wealth creates a variety of challenges that seem counterintuitive and can be difficult to understand and deal with, making inheritors of wealth feel isolated from friends and colleagues. Meanwhile, the wealth industry is fed by revenue paid by wealth owners, not inheritors, causing misalignment of priorities and generational conflict. *The Wise Inheritor's Guide to Freedom from Wealth* helps readers to put their new wealth in perspective, preparing them to lead inspired lives of self-actualization and freedom. As a third-generation wealth counselor and industry leader, Charles A. Lowenhaupt has helped wealth creators and inheritors to manage almost every imaginable challenge, including marital tension, family dysfunction, and addiction. Few people actually have the knowledge and experience to figure out the purpose of wealth and set it on its course. In this book, he helps wealth inheritors to develop a healthy relationship with wealth at a young age, thus enabling readers to live in harmony with both their wealth and their families.

The Legal Culture and System of Taiwan Chang-fa Lo, Changfa Luo, 2006-01-01

With a special place among the world's important trading countries, Taiwan presents the international practitioner with its own particular legal issues and problems. Among the world's most many-sourced legal systems, the law of Taiwan sustains major elements from Chinese and Japanese sources as well as its own indigenous and traditional rules and strong influences from both civil and common law traditions. This convenient guide, written by a scholar-practitioner who is both Dean of Law at the National Taiwan University and a panelist in the World Trade Organization's Dispute Settlement Body, is an ideal introduction and practical handbook for anyone involved in a transaction that raises issues in Taiwanese law. After detailed summaries of Taiwan's system of government, its court system, sources of law, and administrative law and procedure, the author covers practice and procedure in such fields of legal activity as the following: contracts, torts, consumer protection, property rights, family law, law of succession, alternative dispute resolution, intellectual property law, trade, government procurement, labor law, and criminal law and procedure. International lawyers will find all the legal situations most likely to arise in the course of transactions connected to Taiwan covered expertly and knowledgeably in this very useful book. It is also valuable to students and scholars for its special insights into issues of comparative law.
