## **Sir Gardner Wilkinson And His Circle:**

*Sir Gardner Wilkinson and His Circle* Jason Thompson, 1992-01-01 Following in the footsteps of Napoleon's army Europeans invaded Egypt in the early nineteenth century to gaze in wonder at the massive inscrutable remains of its ancient civilizations One of these travelers was a twenty four year old Englishman John Gardner Wilkinson His copious observations of ancient and modern Egyptian places artifacts and lifeways recorded in such widely read publications as *Manners and Customs of the Ancient Egyptians* and *Handbook for Travellers in Egypt* made him the leading early Victorian authority on ancient Egypt and paved the way for the scientific study of Egyptology In this first full scale biography of Wilkinson 1797-1875 Jason Thompson skillfully portrays both the man and his era He follows Wilkinson during his initial sojourn in Egypt 1821-1833 as Wilkinson immersed himself in a contemporary Egyptian lifestyle and in study of its ancient past He shows Wilkinson in his circle of friends among them Edward William Lane Robert Hay and Frederick Catherwood And he traces how Wilkinson continued to use his Egyptian material in the decades following his return to England With the rise of professional Egyptology in the middle and later nineteenth century Sir Gardner Wilkinson came to be viewed as an amateur and his popularity diminished Drawing upon recently opened sources Thompson returns Wilkinson to his rightful place within centuries of Egyptian scholarship and assesses both the vision and the limitations of his work The result is a compelling portrait of a Victorian gentleman scholar and his cultural milieu

Finding the Walls of Troy Susan Heuck Allen, 2023-09-01 The relentlessly self-promoting amateur archaeologist Heinrich Schliemann took full credit for

discovering Homer's Troy over one hundred years ago and since then generations have thrilled to the tale of his ambitions and achievements. But Schliemann gained this status as an archaeological hero partly by deliberately eclipsing the man who had launched his career. Now at long last Susan Heuck Allen puts the record straight in this fascinating archaeological adventure that restores the British expatriate Frank Calvert to his rightful place in the story of the identification and excavation of Hisarlik, the site now thought to be Troy as described in the Iliad. Frank Calvert had lived in the Troad in the northwest corner of Asia Minor, excavating there for fifteen years before Schliemann arrived and learning the local topography well. He was the first archaeologist to test the hypothesis that Hisarlik was the Troy of Hector and Helen. So that he would have unrestricted access to the site, he purchased part of the mound and was the first archaeologist to conduct excavations there. Running out of funds, he later interested Schliemann in the site. The thankless Schliemann stole Calvert's ideas, exploited his knowledge and advice, and finally stole Calvert's glory in part by slandering him and denigrating his work. Allen corrects the record and does justice to a man who was a victim of his own integrity while giving a balanced treatment of Schliemann's true accomplishments. This meticulously researched book tells the story of Frank Calvert's development as an archaeologist, his adventures and discoveries. It focuses on the twists and turns of his turbulent relationship with the perfidious Schliemann, the resulting gains for archaeology, and the successful conclusion of their common quest. Allen has brought together a wide range of relevant published material as well as unpublished sources from archives, diaries, letters, and personal interviews to tell this gripping story. The relentlessly self-promoting amateur archaeologist Heinrich Schliemann took full credit for discovering Homer's Troy over one hundred years ago and since then generations have thrilled to the tale of his ambitions and achievements. But Schliemann gains

**Rude Stone Monuments in All Countries: Their Age and Uses** James Fergusson, 2023-10-25 In *Rude Stone Monuments in All Countries: Their Age and Uses* James Fergusson meticulously examines the enigmatic megaliths that dot various landscapes from Stonehenge in England to lesser-known sites worldwide. Employing a comparative approach, Fergusson blends meticulous archaeological analysis with rich descriptive prose, crafting a narrative that is as engaging as it is informative. His attention to the cultural contexts of these structures offers readers insights into the ancient societies that erected them, while challenging prevailing assumptions about their purposes, whether as burial sites, astronomical observatories, or religious sanctuaries. This work is a commendable fusion of exploration and scholarship, positioned within the 19th-century intellectual milieu which grappled with the intersections of archaeology, anthropology, and history. James Fergusson (1808-1886), a Scottish architectural historian and archaeologist, was driven by his passion for understanding the built environment's role in human civilization. His extensive travels and studies in architecture and antiquity deeply informed his perspectives on megalithic structures. Fergusson's background in architecture, coupled with the burgeoning interest in prehistoric monuments during his time, positioned him uniquely to undertake this comprehensive study, making significant contributions to the archaeological discourse of his era. This book is an essential

read for anyone intrigued by prehistoric cultures archaeology and the historical significance of monumental architecture Fergusson's groundbreaking work not only illuminates the age and uses of these stone structures but also inspires contemporary reconsiderations of the cultural legacies embodied in these ancient edifices Students scholars and enthusiasts alike will find themselves captivated by Fergusson's insights and eloquent exploration of humanity's monumental past
