*The Sirius Mystery* Robert K. G. Temple, 1976      **The Cult of Alien Gods** Jason Colavito, 2010-03-05 Fans of fantasy horror writer H P Lovecraft must add *The Cult of Alien Gods* H P Lovecraft and Extraterrestrial Pop Culture to their reading lists California Bookwatch Combining literary theory cultural criticism and muckraking Colavito aims to debunk alternative history He does a fair job of presenting his case using a great deal of textual analysis but believers will dismiss it as yet another attempt to suppress the truth while those who haven't been immersed in the literature are likely to be bewildered or indifferent the writing is engaging and the topic intriguing Publishers Weekly Nearly half of all Americans believe in the existence of extraterrestrials and many are also convinced that aliens have visited earth at some point in history Included among such popular beliefs is the notion that so called ancient astronauts visitors from outer space were responsible for historical wonders like the pyramids In *The Cult of Alien Gods* author Jason Colavito reveals for the first time that the entire genre of ancient astronaut books is based upon fictional horror stories whose author once wrote that he never wished to mislead anyone In this entertaining and informative book Colavito traces the origins of the belief in ancient extraterrestrial visitors to the work of horror writer H P Lovecraft 1890 1937 This amazing tale takes the reader through fifty years of pop culture and pseudoscience highlighting such influential figures and developments as Erich von Däniken *Chariots of the Gods* Graham Hancock *Fingerprints of the Gods* Zecharia Sitchin *Twelfth Planet* and the Raelian Revolution The astounding and improbable connections among these various characters are revealed along with the disturbing consequences of Lovecraft's little joke for modern science and public knowledge Beyond documenting Lovecraft's influence on ancient astronaut theories and Raelian cloning efforts Colavito also argues that the appeal of such modern myths is a troubling sign in an age when science is having its greatest success He suggests that at the dawn of the 21st century Western society is witnessing a deep seated erosion of Enlightenment values that are the basis of the modern world Jason Colavito is a freelance writer and editor who has written for *Skeptic* magazine among other publications      **The Canopus Revelation** Philip Coppens, 2004 Links the star Canopus in the constellation Orion with the god Osiris the Grail legend and alchemy Proposes that Canopus enabled men to communicate with gods and enter other dimensions and shows how this connection is part of both Egyptian mythology and modern physics and describes the structure of the universe      **Ancient Mysteries** Peter James, Nick Thorpe, 2007-12-18 What was the Minotaur Did a Welsh prince discover America Did Robin Hood really exist How does the Star of Bethlehem fit into the science of astronomy Is the Vinland Map a fake Can archaeologists use spirit messages to guide their work For centuries philosophers scientists and charlatans have attempted to decipher the baffling mysteries of our past from the Stonehenge to the lost continent of Atlantis Today however DNA testing radiocarbon dating and other cutting edge investigative tools together with a healthy dose of common sense are guiding us closer to the truth Peter James and Nick Thorpe the professional historian and archaeologist team who created the acclaimed *Ancient Inventions* now tackle these age
