The Rules From Two Classic Boxed Sets:

WHEN... Thomas Edison crash-landed on Mars in 1929 in the other three of his own inventions, it opened the portal to an ancient and exotic civilization. Nineteen years later, the British Empire is finally established in several colonial outposts, and steam-powered aerial gunboats patrol the skies above the Martian canals. But now the Martian princes threaten the British, and clouds of deadly robots and powerful laser galleries are bent against the invaders.
