The Sky Is Not the Limit Neil deGrasse Tyson, 2010-03-19 From the author of *Astrophysics for People in a Hurry* and the host of *Cosmos A Spacetime Odyssey* a memoir about growing up and a young man's budding scientific curiosity This is the absorbing story of Neil deGrasse Tyson's lifelong fascination with the night sky a restless wonder that began some thirty years ago on the roof of his Bronx apartment building and eventually led him to become the director of the Hayden Planetarium A unique chronicle of a young man who at one time was both nerd and jock Tyson's memoir could well inspire other similarly curious youngsters to pursue their dreams Like many athletic kids he played baseball won medals in track and swimming and was captain of his high school wrestling team But at the same time he was setting up a telescope on winter nights taking an advanced astronomy course at the Hayden Planetarium and spending a summer vacation at an astronomy camp in the Mojave Desert Eventually his scientific curiosity prevailed and he went on to graduate in physics from Harvard and to earn a Ph D in astrophysics from Columbia There followed postdoctoral research at Princeton In 1996 he became the director of the Hayden Planetarium where some twenty five years earlier he had been awed by the spectacular vista in the sky theater Tyson pays tribute to the key teachers and mentors who recognized his precocious interests and abilities and helped him succeed He intersperses personal reminiscences with thoughts on scientific literacy careful science vs media hype the possibility that a meteor could someday hit the Earth dealing with society's racial stereotypes what science can and cannot say about the existence of God and many other interesting insights about science society and the nature of the universe Now available in paperback with a new preface and other additions this engaging memoir will enlighten and inspire an appreciation of astronomy and the wonders of our universe Landscape Architecture News Digest, 1991
