Zhang,2023-04-12 Zhang explores the sociohistorical environment that produced those poets an era of political intrigues geopolitical threats the rise of commodity economy flourishing popular culture and glamorous urban life Poetry was their means of livelihood as they drifted between low positions or as commoners living by procuring favors from the powerful elite The sadness and joys of a life in precarity shaped their thematic and stylistic choices response to contemporary literary trends and choice of poetic models They formed a broad social network that straddled the scholar officials and ordinary townsmen While their poetry reflects the characteristics and concerns of both classes there emerged a shared voice distinctly their own that turned the tide of poetry in the 13th century Fashioning the Female Subject Sabine Sielke,1997 Exploring the interrelatedness of the poetry of three American women writers **A Separate Vision** Deborah Pope,1999-03-01 The emergence of large numbers of women writers expressing a deliberately female consciousness has marked one of the significant directions of literature in this century A central idea embraced by these writers has been the particular isolation or marginality felt by women In *A Separate Vision* Deborah Pope focuses on four representative poets Louise Bogan Maxine Kumin Denise Levertov and Adrienne Rich to explore the ways in which women writers treatment of isolation extends our perception of women's experience and our understanding of the alienated human sensibility In the work of these poets Pope identifies four distinct phases of isolation split self and validation These phases represent a progression from negation to affirmation from a sense of powerlessness and severe restriction to one of literal and psychological freedom She shows how the dynamics of this progression have operated in each poet's development with each starting from the negative stance of victimization and moving in varying degrees toward validation But Pope also finds that in each woman's work one phase of isolation is predominant She sees the tension and confessionalism in the poetry of Bogan the earliest of the four as most representative of victimization Kumin's poems on her alienation from familial and social experiences exemplify personalization The split self is manifested most clearly in Levertov whose work shows a woman torn between her social female self and her inner artistic self Rich the most committed feminist of this group is also the strongest exemplar of validation Her recent poems are charged with personality and power and the isolation in her writing is the isolation of those in the forefront of exploration and change This progress toward a positive sense of women's isolation is a significant movement in contemporary poetry With what Pope describes as their vigorous revisioning of our patterns of human experience women poets are today showing us new ways of understanding and realizing human dignity and worth
