Snapshot Photography Catherine Zuromskis, 2021-08-24 An examination of the contradictions within a form of expression that is both public and private specific and abstract conventional and countercultural Snapshots capture everyday occasions Taken by amateur photographers with simple point and shoot cameras snapshots often commemorate something that is private and personal yet they also reflect widely held cultural conventions The poses may be formulaic but a photograph of loved ones can evoke a deep affective response In Snapshot Photography Catherine Zuromskis examines the development of a form of visual expression that is both public and private Scholars of art and culture tend to discount snapshot photography it is too ubiquitous too unremarkable too personal Zuromskis argues for its significance Snapshot photographers she contends are not so much creating spontaneous records of their lives as they are participating in a prescriptive cultural ritual A snapshot is not only a record of interpersonal intimacy but also a means of linking private symbols of domestic harmony to public ideas of social conformity Through a series of case studies Zuromskis explores the social life of snapshot photography in the United States in the latter half of the twentieth century She examines the treatment of snapshot photography in the 2002 film One Hour Photo and in the television crime drama Law and Order Special Victims Unit the growing interest of collectors and museum curators in vintage snapshots and the snapshot aesthetic of Andy Warhol and Nan Goldin She finds that Warhol s photographs of the Factory community and Goldin s intense and intimate photographs of friends and family use the conventions of the snapshot to celebrate an alternate version of family values In today s digital age snapshot photography has become even more ubiquitous and ephemeral and significantly more public But buried within snapshot photography s mythic construction Zuromskis argues is a site of democratic possibility

TV Snapshots Lynn Spigel, 2022-04-08 In TV Snapshots Lynn Spigel explores snapshots of people posing in front of their television sets in the 1950s through the early 1970s Like today's selfies TV snapshots were a popular photographic practice through which people visualized their lives in an increasingly mediated culture Drawing on her collection of over 5 000 TV snapshots Spigel shows that people did not just watch TV women used the TV set as a backdrop for fashion and glamour poses people dressed in drag in front of the screen and in pinup poses people even turned the TV setting into a space for erotic display While the television industry promoted on screen images of white nuclear families in suburban homes the snapshots depict a broad range of people across racial ethnic and class backgrounds that do not always conform to the reigning middle class nuclear family ideal Showing how the television set became a central presence in the home that exceeded its mass entertainment function Spigel highlights how TV snapshots complicate understandings of the significance of television in everyday life

development of the Internet and Web based phenomena **Landscape and Images** John R. Stilgoe, 2015-02-12 John Stilgoe is just looking around This is more difficult than it sounds particularly in our mediated age when advances in both theory and technology too often seek to replace the visual evidence before our own eyes rather than complement it We are surrounded by landscapes charged with our past and yet from our earliest schooldays we are instructed not to stare out the window Someone who stops to look isn't only a rarity he or she is suspect Landscape and Images records a lifetime spent observing America's constructed landscapes Stilgoe's essays follow the eclectic trains of thought that have resulted from his observation from the postcard preference for sunsets over sunrises to the concept of teen geography to the unwillingness of Americans to walk up and down stairs In Stilgoe's hands the subject of jack o lanterns becomes an occasion to explore centuries old concepts of boundaries and trespassing and to examine why this originally pagan symbol has persisted into our own age Even something as mundane as putting the cat out before going to bed is traced back to fears of unwatched animals and an untended frontier fireplace Stilgoe ponders the forgotten connections between politics and painted landscapes and asks why a country whose vast majority lives less than a hundred miles from a coast nonetheless looks to the rural Midwest for the classic image of itself At times breathtaking in their erudition the essays collected here are as meticulously researched as they are elegantly written Stilgoe's observations speak to specialists whether they be artists historians or environmental designers as well as to the common reader Our landscapes constitute a fascinating history of accident and intent The proof says Stilgoe is all around us **The Present in Linguistic Expressions of Temporality** Marie-Eve Ritz, 2023-11-30 This book offers a comprehensive examination of Present Time Expressions PTEs illustrating how a more informed understanding of their semantic and pragmatic representations can offer unique insights into the temporal systems of languages The volume takes as its point of departure the notion that tenses aspectual viewpoint markers and temporal expressions have a semantic meaning which is further pragmatically enriched and manipulated in use by speakers Building on this foundation the book introduces current theories on the linguistic expression of temporality toward better highlighting the need for further understanding of PTEs encompassing tenses of the present and words such as now The volume draws on data from Australian English and Indigenous Australian languages to support its goal of arriving at a theory of the flexibility of uses of PTEs and their centrality in language and highlight the implications for future research on pragmatic and semantic change This book will be of particular interest to graduate students and researchers in semantics pragmatics discourse analysis and philosophy of language as well as those interested in research on Indigenous Australian Languages and Australian English Memory Booster Book Charles Phillips, 2013-10-21 Keep your memory sharp with the Memory Booster Book Based on the best selling Book in a Box kits the Memory Booster Book will help you to discover how your memory works and suggest interesting ways to make it function more effectively And you can learn about the truly memorable ways in which people from the past used their memories it's astonishing **Photography** Liz Wells, 2021-07-08 Now in its sixth

Nightmare Remains Ege Selin Islekel, 2024-09-15 Offering a political epistemology of collective mourning Focusing on forms of improper burial in Turkey and Latin America Ege Selin Islekel argues that a political technology of mourning is fundamental to contemporary politics This technology of necrosovereignty shapes not only individuals and populations lives but also their epistemic and political afterlives Local practices of mourning however contain resistant capacities opening alternative ways of knowing remembering and assembling Nightmare knowledges Islekel posits are resistant modes of knowing tied up with grief that challenge the contemporary politics of death and those politics archival boundaries Seen in mothers movements across the globe from the Mothers of the Plaza de Mayo of Argentina to the Saturday Mothers of Turkey nightmare knowledges produce counterarchives that mobilize traditionally ignored epistemic categories Nightmare Remains forges a new dialogue between post Foucauldian political theory and decolonial thought and brings a fresh critical perspective to the theoretical discourse of enforced disappearances
