Sniffing For Democracy:

Sniffing for Democracy Nora Meek, 2004-01-01 *Room for All of Us* Adrienne Clarkson, 2011-10-18 In this exciting and revealing personal inquiry former governor general Adrienne Clarkson explores the immigrant experience through the people who have helped transform Canada The Canadians she befriends whether an Ismaili doctor a Doukhobor farmer a Holocaust survivor or a Vietnam War deserter illustrate the changing idea of what it means to be Canadian and the kind of country we have created over the decades Like her many of the people who came did not have a real choice they often arrived friendless and with a sense of loss Yet their struggles and successes have enriched Canada immeasurably What drove them to become the kind of people they have become What would have happened to them if Canada had not taken them in What have they added to our national life as we go forward in the twenty first century Written with humour insight and personal revelation *Room for All of Us* is a tale of many destinies Like W G Sebald's *The Emigrants* Clarkson's book offers a richly textured intimate and unforgettable portrait of a changing country and its people *Democracy's Data* Dan Bouk, 2022-08-23 ONE OF THE NEW YORK TIMES BOOK REVIEW'S 100 NOTABLE BOOKS OF 2022 From the historian Dan Bouk a lesson in reading between the lines of the U S census to uncover the stories behind the data The census isn't just a data collection process it's a ritual and a tool of American democracy Behind every neat grid of numbers is a collage of messy human stories you just have to know how to read them In *Democracy's Data* the data historian Dan Bouk examines the 1940 U S census uncovering what those numbers both condense and cleverly abstract a universe of meaning and uncertainty of cultural negotiation and political struggle He introduces us to the men and women employed as census takers bringing us with them as they go door to door recording the lives of their neighbors He takes us into the makeshift halls of the Census Bureau where hundreds of civil servants not to mention machines labored with pencil and paper to divide and conquer the nation's data And he uses these little points to paint bigger pictures such as of the ruling hand of white supremacy the place of queer people in straight systems and the struggle of ordinary people to be seen by the state as they see themselves The 1940 census is a crucial entry in American history a controversial dataset that enabled the creation of New Deal era social programs but that also with the advent of World War Two would be weaponized against many of the citizens whom it was supposed to serve In our age of quantification *Democracy's Data* not only teaches us how to read between the lines but gives us a new perspective on the relationship between representation identity and governance today *Quicksilver's Knight* Christopher Stasheff, 2022-02-02 SWORD AND SORCERY SOME GUYS HAVE IT ALL Geoffrey Gallowglass the Lord High Warlock's second son has only two passions in life war and women As a knight errant he roams the Kingdom of Gramarye looking for wrongs to right and women to woo but no one has held his interest for very long Until he meets Quicksilver a fiery warrior woman as beautiful as she is deadly with a tongue as sharp as her sword Has Geoffrey finally found his perfect woman There's only one problem Quicksilver is the bandit chieftain who has conquered her lord's land and castle and

Smell Detectives Melanie A. Kiechle, 2017-07-18 What did nineteenth century cities smell like And how did odors matter in the formation of a modern environmental consciousness *Smell Detectives* follows the nineteenth century Americans who used their noses to make sense of the sanitary challenges caused by rapid urban and industrial growth Melanie Kiechle examines nuisance complaints medical writings domestic advice and myriad discussions of what constituted fresh air and argues that nineteenth century city dwellers anxious about the air they breathed attempted to create healthier cities by detecting and then mitigating the most menacing odors Medical theories in the nineteenth century assumed that foul odors caused disease and that overcrowded cities filled with new and stronger stinks were synonymous with disease and danger But the sources of offending odors proved difficult to pinpoint The creation of city health boards introduced new conflicts between complaining citizens and the officials in charge of the air *Smell Detectives* looks at the relationship between the construction of scientific expertise on the one hand and common sense the olfactory experiences of common people on the other Although the rise of germ theory revolutionized medical knowledge and ultimately undid this form of sensory knowing *Smell Detectives* recovers how city residents used their sense of smell and their health concerns about foul odors to understand adjust to and fight against urban environmental changes

Democracy in East Asia Larry Diamond, Marc F. Plattner, Yun-han Chu, 2013-02-15 Democratization scholars believe that the next regional wave of transitions to democracy may unfold in East and Southeast Asia In their introduction to the 1998 edition of *Democracy in East Asia* Larry Diamond and Marc F Plattner predicted that East Asia with its remarkable diversity of political regimes economies and religions would likely be the most critical arena in the global struggle for democracy a prediction that has proven prescient Although the recent political upheavals in the Middle East have

understandably grabbed the world's attention there is reason to doubt whether the overthrow of some authoritarian regimes there will lead to the establishment of stable democracies any time soon On the other hand East Asia the world's most populous and economically dynamic region already boasts several consolidated democracies and provides a fascinating laboratory for studies of both authoritarian resilience and the prospects for democratization This updated volume which features contributions by distinguished scholars in East Asian studies will be welcomed by instructors and students in the field particularly as U S foreign policy is in the process of undertaking a pivot toward Asia Democracy in East Asia offers a comprehensive treatment of the political landscape in both Northeast and Southeast Asia including discussions of China Japan South Korea Taiwan Indonesia the Philippines Malaysia Singapore Thailand Cambodia Laos Vietnam and Burma Myanmar Contributors Larry Diamond Marc F Plattner Francis Fukuyama Minxin Pei Yun-han Chu Hyung Baeg Im Thitinan Pongsudhirak Dan Slater Martin Gainsborough Don Emmerson Edward Aspinall Mark Thompson Benjamin Reilly Joseph Wong Chong Min Park Yu-tzung Chang

China is transforming Africa's information space It is assisting African broadcasters with extensive loans training and exchange programmes and has set up its own media operations on the continent in the form of CCTV Africa In the telecommunications sector China is helping African governments to expand access to the internet and mobile phones with rapid and large scale success While Western countries have ambiguously linked the need to fight security threats with restrictions of the information space China has been vocal in asserting the need to control communication to ensure stability and development Featuring a wealth of interviews with a variety of actors from Chinese and African journalists in Chinese media to Chinese workers for major telecommunication companies this highly original book demonstrates how China is both contributing to the Africa rising narrative while exploiting the weaknesses of Western approaches to Africa which remain trapped between an emphasis on stability and service delivery on the one hand and the desire to advocate human rights and freedom of expression on the other Arguing no state can be understood without attention to its information structure the book provides the first assessment of China's new model for the media strategies of developing states and the consequences of policing Africa's information space for geopolitics security and citizenship
