maternal narratives which lead to unreal expectations of mothers and motherwork It is therefore disconcertingly significant for mothers that neither mothers nor their motherwork have been considered worthy of historical record nor are historical records usually written from a mother s perspective Hence the narrative research in this book which gives recognition to motherhood mothers and or the work they do is valuable It adds to the rapidly accumulating maternal research research that is now available for the historical record Mothers are speaking up developing a canon of literature research narrated in maternal language and claiming maternal knowledge and power
