So You Want To Cut Down Your Drinking A Selfhelp Guide To Sensible Drinking:

Treating Addictive Behaviors William R. Miller, Nick Heather, 2013-06-29 About a decade ago psychologists began exploring the commonalities among alcohol and drug abuse smoking and obesity The term substance abuse evolved into the current concept of addictive behaviors which recognizes similarities with other behaviors that do not involve consummatory responses e.g. pathological gambling compulsions sexual deviations Professional societies and journals now have been founded in both Britain and the United States with the purpose of focusing on research and treatment in the area of addictive behaviors As the field has evolved new models have emerged to address the questions and puzzles that face professionals This volume examines some of these current issues and in particular explores common processes of change that seem to cut across the addictive behaviors The chapters are based on papers presented at the Third International Conference on Treatment of Addictive Behaviors which was held at North Berwick Scotland in August of 1984 The conference was organized around an integrative model of stages and processes of change that has been useful in organizing new knowledge about how to intervene with addictive behaviors This model is set forth by its authors Jim Prochaska and Carlo DiClemente in Chapter 1 In Chapter 2 Fred Kanfer expounds his own model of self regulation which overlaps nicely with the Prochaska DiClemente framework and provides a behavioral theoretical context *So you want to cut down your drinking?*

Department of Health, Education, and Welfare,1993 **Helping the Problem Drinker** Tim Stockwell,Sue Clement,2023-12-01 Originally published in 1987 Helping the Problem Drinker addressed the realisation that only a small proportion of problem drinkers ever contacted existing treatment agencies and that therefore a more comprehensive community oriented approach should be developed This included training of primary care health workers and the development of multidisciplinary Community Alcohol Teams At the time other community based initiatives such as self help groups for early problem drinkers and early intervention programmes in general practice and general hospitals had been implemented This book draws together what had been learned about these new developments a number of which had now been evaluated The book will still be of interest to all planners and professional staff concerned with alcohol problems both specialists and non specialists in general medicine psychiatry psychology and the social services Oxford Handbook of Psychiatry David Semple,2005 The Oxford Handbook of Psychiatry is a new book directed at medical students doctors coming to psychiatry for the first time psychiatric trainees and other professionals who may have to deal with patients with psychiatric problems It is written by a group of experienced middle grade psychiatrists and is designed to provide easy access to the information required by psychiatry trainees on the wards or on call It closely follows the familiar format of the other Oxford Handbooks and provides coverage that is comprehensive evidence based and practical The content of the handbook is written in the concise note based style characteristic of the series with topics confined to single pages The book is divided into four sections Fundamentals of Psychiatric Practice General Adult Psychiatry Psychiatric Subspecialties and Useful Reference Material Within each chapter topics are covered in a clear logical manner For the clinical disorders there is detailed information on the etiology epidemiology clinical features common differential diagnoses assessment investigation management and prognosis There is an in depth coverage of psychiatric assessment psychopathology evidence based practice mental health legislation in the UK therapeutic issues transcultural psychiatry and eponyms in psychiatry The book is internally cross referenced and has both key references to important papers and to further information resources As well as being indexed alphabetically it is also indexed by ICD 10 DSM IV codes and there is a quick index for acute presentations This Handbook is practical and directive in style designed to provide portable reassurance to doctors beginning psychiatry There is helpful advice for the management of difficult and urgent situations and the text is peppered with clinical observations on the practice of clinical psychiatry and guidance based upon the experience of the authors **Alcohol**

Education and Young Offenders Steve Baldwin, 2012-12-06 Since the establishment of the first alcohol education course ABC for young offenders in 1981 this form of service delivery has been expanded across the United Kingdom While some before and after data have been reported no controlled evaluations have been completed on effectiveness with this type of intervention The present research reports a series of evaluation studies to investigate the impact of ABCs on offending and drinking behavior Young offenders were recruited from local courts The first study completed in Dundee reported results from a comparative evaluation between two types of ABCs As an attention placebo study one group received a behavioral ABC with program contents designed to reduce drinking and offending behaviors Some dependent variable differences between the two groups were observed at follow up The second study was established in Glasgow as a replication of the main study The third study used a quasi experimental design to establish a no intervention control group in the Perth courts Young offenders were recruited to complete screening interviews without any intervention The intervention group was recruited from courts in Forfar a similar rural town This group completed an information based ABC using educational materials about alcohol and its effects Some dependent variable differences were observed at follow up The fourth study was based in a Young Offender Institution at Forfar Prerelease young offenders were randomly assigned to either a no intervention control group or a behavioral ABC group Some dependent variable differences were reported at follow up

Health Promotion Kevin Lucas, Barbara Lloyd, 2005-10-03 The authors offer a reappraisal of health promotion activity examining evidence for what actually works highlighting issues for improving efficacy

Educating Young Drinkers Gellisse Bagnall, 2023-12-01 Young people are regarded as vulnerable by the media often exaggeratedly so In the early 1990s they had become the focus of public concern regarding alcohol misuse But attempts to educate teenagers into using alcohol sensibly have often been counterproductive What kind of approach should alcohol education take to produce effective results Originally published in 1991 Educating Young Drinkers outlines the reasons for the lack of success in previous experiments in alcohol education at the time It focuses on an activity based primary intervention with young people as a possible solution With the active involvement of school teachers Gellisse Bagnall had developed a relevant and pupil oriented programme designed for easy classroom use The evaluation of the results of this experiment demonstrated that non didactic alcohol education can be made to work In emphasizing the political and theoretical assumptions made in devising health education policies Educating Young Drinkers was directly relevant to social scientists within alcohol and or health education as well as to policy makers It would also be a valuable source of information for teachers and all those working with young people

Alcohol Use David B. Cooper, 2000 Addressing the impact of alcohol on various types of individual and circumstance this in depth and practical guide is for health professionals A variety of perspectives including transcultural workplace and community issues are explored

Changing Addictive Behavior Jalie A. Tucker, Dennis M. Donovan, G. Alan Marlatt, 2001-02-15 This volume proposes that prevailing clinical approaches to treating addictive behaviors are actually best suited to a minority of the

population with problems in the case of substance abusers those with substantial functional impairment and physical dependence But what about persons with mild to moderate addictive behavior problems for whom intensive treatment may prove unnecessarily costly disruptive and stigmatizing Or those substance abusers who are unable or unmotivated to abstain but want to reduce the harm associated with drug use Contributors draw upon cutting edge theory and research to examine ways that traditional therapeutic treatments can be supplemented by public health interventions that extend the reach and effectiveness of care Timely and pragmatic the book points the way toward necessary evolutions in the roles of behavior change specialists in today s challenging health care environment
