impact of the pandemic on the application of international human rights standards in prisons and on worldwide prison population rates The book concludes by drawing out the commonalities and diverging practices between jurisdictions discussing the impact of measures introduced and reflecting on what could be learnt from policies that emerged during the pandemic Particular attention is paid to whether reductionist strategies that emerged during the pandemic can be used to counteract mass incarceration and prison overcrowding in the future Although the book reflects the situation until mid 2021 after the second and during the third wave of the pandemic it is highly relevant to the current situation as the living conditions in prisons did not change significantly during the following waves which showed high infection rates in particular in the general population but increased vaccination rates too In prisons problems the pandemic raises have an even greater impact than for the general society Revealing many notable and interesting changes in prison life and in release programmes this book is essential reading for students and scholars of penology criminology law sociology and public health It will also appeal to criminal justice practitioners and policy makers

Poder constituyente a debate: perspectivas desde América Latina Antonio Felipe Barreto Rozo, Nicolás Figueroa García Herreros, Jorge González Jácome, 2020-05-01. Poder constituyente a debate: perspectivas desde América Latina presenta diferentes perspectivas que ilustran diversos entendimientos sobre la manera como los procesos de cambio constitucional se construyen a partir de interacciones entre normas jur dicas, instituciones estatales, ideas jur dicas y pol ticas, procesos socio econ micos y actores sociales. Cada uno de los ensayos reunidos en estas p ginas estructura su an
