Showcasing the Role of the Arabic Language along the Silk Roads UNESCO, 2024-12-14 The Decline of Imperial Russia Hugh Seton-Watson, 2017-02-24 This book originally published in 1952 describes and explains the stage of the decline of the Russian Empire between the Crimean and First World Wars The book is divided up by period the reign of Alexander II 1855 81 the period of reaction 1881 1905 and the Revolution of 1905 and its aftermath 1905 14 and also into three sections the structure of state and society political movements and foreign relations **History of Civilizations of** Central Asia Clifford Edmund Bosworth. 1992 History of civilizations of Central Asia Adle, Chahryar, Baipakov, Karl M., Habib, Irfan, UNESCO, 2003-12-31 The period treated in this volume is highlighted by the slow retreat of nomadism and the progressive increase of sedentary polities owing to a fundamental change in military technology Furthermore this period certainly saw a growing contrast in the pace of economic and cultural progress between Central Asia and Europe The internal growth of the European economies and the influx of silver from the New World gave Atlantic Europe an increasingly important position in world trade and caused a major shift in inland Asian trade Thus 1850 marks the end of the total sway of pre modern culture as the extension of colonial dominance was accompanied by the influx of modern ideas Archim. which have paralyzed western scholarship de Madariaga seeks to present Russia as viewed from the Kremlin rather than from abroad and to comprehend the full tragedy of Ivan's reign Philosophy After Hiroshima Fred Dallmayr, 2020-05-15 Philosophy after Hiroshima offers a philosophical analysis of the issues surrounding war and peace and their challenges to ethics It reminds us that the threat posed to civilization by nuclear weapons persists as does the need for continuing philosophical reflection on the nature of war the problem of violence and the need for a workable ethics in the nuclear age The book recalls the atomic bombings of Hiroshima and Nagasaki as the beginning of the nuclear age the Cold War and subsequently of the hegemonic unilateralism of the sole superpower Reviewing early critical responses to the first atomic bombings by such figures as Camus Sartre Russell Heidegger Jaspers and others the authors themselves respond to contemporary threats to peace including the US global war on terrorism the recrudescence of militarism and the continuation of imperial power politics by other means In the nuclear age the use of military force as a political instrument threatens the future of humanity This poses formidable challenges to philosophy and calls for its transformation In using memories of the atomic bombings to help us to grasp the moral implications of the current escalation of global violence the authors hope to show the urgent relevance of nonviolence in the contemporary context Drawing on a range of philosophical traditions Taoist and Western the contributors take up a welter of philosophical and political concerns of topical interest including human rights toleration the politics of memory intercultural dialogue the ethics of co responsibility and the possibility of a cosmopolitan order of law and peace Going beyond postmodernism and deconstruction several of the authors develop a post critical constructive paradigm of thinking a philosophy of the possible and a new methodology for the realization of the creative potential of the humanities Philosophy is viewed as a peace promoting global dialogue and Islam G. Yemelianova, 2002-05-10 The end of communism has revived the historical debate about Russia's relations with both the West and the East Some commentators viewed the Russian Chechen war as a clash of civilizations which would shape the future relationships between the new Russia and its Muslim periphery and perhaps lead to its disintegration But the reality has challenged this scenario This book surveys the public and private relations between Russia and Islam and concludes these are more complex than is usually recognized Ethnicity, Nationalism and Conflict in and After the Soviet <u>Union</u> Valery Tishkov,1997 Valery Tishkov is a well known Russian historian and anthropologist and former Minister of Nationalities in Yeltsin's government This book draws on his inside knowledge of major events and extensive primary research Tishkov argues that ethnicity has a multifaceted role it is the most accessible basis for political mobilization a means of controlling power and resources in a transforming society and therapy for the great trauma suffered by individuals and groups under previous regimes This complexity helps explain the contradictory nature and outcomes of public ethnic policies based on a doctrine of ethno nationalism The Formation of the Uzbek Nation-state Anita Sengupta, 2003-01-01 The Formation of the Uzbek Nation State is a detailed and insightful examination of the process of nation state formation in

the Central Asian region in the post October revolution period based on a case study of Uzbekistan Author Anita Sengupta examines the role of language and religion in the formation of the Uzbek nation state and demonstrates the continuous transition involved in such a process Eighteenth-Century Russian Music Marina Ritzarev, 2017-07-05 Little is known outside of Russia about the nation's musical heritage prior to the nineteenth century Western scholarship has tended to view the history of Russian music as not beginning until the end of the eighteenth century Marina Ritzarev s work shows this interpretation to be misguided Starting from an examination of the rich legacy of Russian music up to 1700 she explores the development of music over the course of the eighteenth century a period of especially intense Westernization and secularization The book focuses on what is characteristic and crucial to Russian music during this period rather than seeking to provide a comprehensive survey The musical culture of the time is discussed against the rich background of social political and cultural life tying together many of the phenomena that used to be viewed separately. The book highlights the importance of previously marginalized sectors serf culture choral sacred culture the contribution of foreign musicians the significant influence of Freemasonry the role of Ukrainian and West European cultures and so on as well as casting new light on the well researched topic of Russian opera Much new archival material is introduced and revised biographies of the two leading eighteenth century Russian composers Maxim Berezovsky and Dmitry Bortniansky are provided as well as those of the serf composer Stepan Degtyarev and the Italian Giuseppe Sarti The book places eighteenth century Russian music on the European map and will be of particular importance for the study of European musical cultures remote from such centres as Italy Germany Austria and France Eighteenth century Russian music is organically linked with its past and future and its contributory role in forming the Russian national identity and developing the Russian idiom is clarified **Inside Lenin's Government** Lara Douds, 2018-02-22 Lara Douds examines the practical functioning and internal political culture of the early Soviet government cabinet the Council of People's Commissars Sovnarkom under Lenin This study elucidates the process by which Sovnarkom's governmental decision making authority was transferred to Communist Party bodies in the early years of Soviet power and traces the day to day operation of the supreme state organ The book argues that Sovnarkom was the principal executive body of the early Soviet government until the Politburo gradually usurped this role during the Civil War Using a range of archival source material Lara Douds re interprets early Soviet political history as a period where fledging Soviet rather than simply Communist Party power was attempted but ultimately failed when pressures of Civil War and socio economic dislocation encouraged the centralising and authoritarian rather than democratic strand of Bolshevism to predominate Inside Lenin's Government explores the basic mechanics of governance by looking at the frequency of meetings types of business discussed processes of decision making and the administrative backdrop as well as the key personalities of Sovnarkom It then considers the reasons behind the shift in executive power from state to party in this period which resulted in an abnormal situation where as Leon Trotsky commented in 1923 leadership by the party gives way to administration by

its organs Politics and Nationality in Contemporary Soviet-Jewish Emigration, 1968-89 Laurie P. Salitan, 1992-06-18 According to this study Soviet policy toward Jewish emigration is ruled by domestic affairs rather than foreign It challenges the view that the exodus from the USSR is related to the superpower climate and offers a comparison with Soviet German emigration The Journal of Belarusian Studies 2017 Ostrogorski Centre, 2018-03-12 In 1965 the Anglo Belarusian Society began publishing a yearbook The Journal of Byelorussian Studies Since 2013 the Journal of Belarusian Studies is published in London by the Ostrogorski Centre in cooperation with the Anglo Belarusian Society The Journal is distributed annually to universities libraries and private subscribers in the UK the US Belarus and other countries throughout the world The 2017 issue of the Journal features articles on the Belarusian nation building in the context of the First World War and the activities of Belarusian diaspora in the United States in the Cold War era A particular attention is paid to the lifepath of Francis Skaryna one of the first East European book printers who laid the groundwork for the development of the Belarusian language The issue also features several book reviews The Journal is the oldest English language double blind peer reviewed periodical on Belarusian studies Pragmatism and Democracy Dmitri N. Shalin, 2011-12-31 This volume examines the roots of pragmatist imagination and traces the influence of American pragmatism in diverse areas of politics law sociology political science and transitional studies The work explores the interfaces between the Progressive movement in politics and American pragmatism Shalin shows how early 20th century progressivism influenced pragmatism s philosophical agenda and how pragmatists helped articulate a theory of progressive reform The work addresses pragmatism and interactionist sociology and illuminates the cross fertilization between these two fields of studies Special emphasis is placed on the interactionists search for a logic of inquiry sensitive to the objective indeterminacy of the situation The challenge that contemporary interactionist studies face is to illuminate the issues of power and inequality central to the political commitments of pragmatist philosophers Shalin explores the vital link between democracy civility and affect His central thesis is that democracy is an embodied process that binds affectively as well as rhetorically and that flourishes in places where civic discourse is an end in itself a source of vitality and social creativity sustaining a democratic community The author shows why civic discourse is hobbled by the civic body that has been misshapen by past abuses Drawing on the studies of the civilizing process Shalin speculates about the emotion demeanor and body language of democracy and explores from this angle the prospects for democratic transformation in countries struggling to shake their totalitarian past View Table of Contents Military Thought ,2006 Darwin Without Malthus Daniel Philip Todes, 1989 The first book in English to examine in detail the scientific work of 19th century Russian evolutionists and the first in any language to explore the relationship of their theories to their economic political and natural milieu **Routledge Library Editions: Education** Mini-Set A: Comparative Education 11 vol set Various, 2021-12-02 Mini set A Comparative Education re issues 11 volumes originally published between 1945 and 1983 and covers educational theory and practice from the UK France
