Theories of Distributive Justice Jeppe Platz, 2020-02-14 How should we design our economic systems Should we tax the rich at a higher rate than the

poor Should we have a minimum wage Should the state provide healthcare for all These and many related questions are the subject of distributive justice and different theories of distributive justice provide different ways to think about and answer such questions This book provides a thorough introduction to the main theories of distributive justice and reveals the underlying sources of our disagreements about economic policy It argues that the universe of theories of distributive justice is surprisingly simple yet complicated It is simple in that the main theories of distributive justice are just four in number and in that these theories each offer a distinct well defined theoretical approach to distributive justice yet it is complicated in that the main theories disagree at several distinct fundamental levels and in that it is possible to spin innumerable new theories from the elements of the four main theories

Key Features Covers the four major theories of distributive justice and their leading philosophers elucidating the attractions and drawbacks of each Friedrich A von Hayek and right liberalism John Rawls and left liberalism Robert Nozick and libertarianism Gerald A Cohen and socialism Explains why these four theories have come to dominate most philosophical discussions on distributive justice highlighting the essential answer provided in each that is lacking in other theories Written for any reader interested in the topic with an annotated reading list at the end of each chapter and helpful glossary at the back of the book
