

What is the social construction of childhood?

- The idea is that what we know as childhood isn't an absolute truth which has always been around and is the same everywhere
- Instead, sociologists argue childhood is an idea which has been built (constructed) over time

Social Construction Of Educational Leade:

The Social Construction of Educational Leadership Anna Hicks McFadden, Penny Smith, 2004 Most historical and theoretical work on school administration choice has focused on the importance of race and class with increased attention to gender during the past two decades Rarely has geography been a consideration and when it appears at all it is used only to distinguish the unique conditions of urban school settings *The Social Construction of Educational Leadership* Southern Appalachian Ceilings addresses decisions about who is chosen to lead public schools and how they do it Using their research on senior level public school leaders in the southern mountains of North Carolina as a representative case study the authors construct an argument for a reconsideration of the role of place both in decisions about who becomes a school leader and in how those leaders behave professionally The authors describe the changes in a leadership system grounded in race class geographic and gender preferences that dating back to colonial systems of deference describing the pattern of those changes and exploring their implications for school leadership and the preparation of prospective leaders in the region and elsewhere

The Palgrave Handbook of Educational Leadership and Management Discourse Fenwick W. English, 2022-10-13 This Handbook explores the discourse within the field of educational leadership and management It provides a clear analysis of the current field as well as older foundational ideas and newer concepts which are beginning to permeate the discussion The field of educational leadership and management has long acknowledged that educational contexts include a variety of leaders beyond school principals and other school officials such as informal and middle level leaders By looking at the knowledge dynamic rather than a static knowledge base this Handbook allows research to be presented in its multidimensional evolving reality

Handbook of Research on Educational Leadership for Equity and Diversity Linda C. Tillman, James Joseph Scheurich, 2013-08-21 The rapid growth of diversity within U S schooling and the heightened attention to the lack of equity in student achievement school completion and postsecondary attendance has made equity and diversity two of the principle issues in education educational leadership and educational leadership research The Handbook of Research on Educational Leadership for Equity and Diversity is the first research based handbook that comprehensively addresses the broad diversity in U S schools by race ethnicity culture language gender disability sexual identity and class The Handbook both highly values the critically important strengths and assets that diversity brings to the United States and its schools yet at the same time candidly critiques the destructive deficit thinking biases and prejudices that undermine school success for many groups of students Well known chapter authors explore diversity and related inequities in schools and the achievement problems these issues present to school leaders Each chapter reviews theoretical and empirical evidence of these inequities and provides research based recommendations for practice and for future research Celebrating the broad diversity in U S schools the Handbook of Research on Educational Leadership for Equity and Diversity critiques the inequities connected to that diversity and provides evidence based practices to promote student success for all children

Educational Leadership Margaret

Preedy, Nigel Bennett, Christine Wise, 2011-11-01 Drawing together current thinking and research by leading writers in the field this Reader will help you to understand and critically analyse key strategic aspects of educational leadership including leadership perspectives and values external and internal contexts autonomy and accountability partnership and collaboration leading strategy and change The book explores major challenges for educational leaders in managing the increasingly permeable boundary between educational organisations and their external contexts and reconciling environmental expectations and internal priorities The Reader will encourage you to positively problematize the field and reflect on current debates and issues This book will be an essential resource for providers and students of postgraduate level courses in educational leadership and management as well as those involved in undertaking professional development programmes It will also serve the reflective practitioner as personal reference when occupying or aspiring towards leadership roles in schools colleges and other educational organisations Dr Maggie Preedy Professor Nigel Bennett and Dr Christine Wise have taught researched and published widely in the field of educational leadership and management Maggie Preedy and Christine Wise are Senior Lecturers in the Faculty of Education and Language Studies at The Open University UK Nigel Bennett is Emeritus Professor of Leadership and Management in Education at The Open University Understanding Educational Leadership: People, Power And Culture Busher, Hugh, 2006-06-01 Understanding Educational Leadership is key reading for teachers headteachers school leaders policy makers Education students and practitioners and others who have an interest in improving schooling **BOOK JACKET** **International Handbook of Educational Leadership and Administration** Kenneth A. Leithwood, Judith Chapman, P. Corson, P. Hallinger, Ann Hart, 2012-12-06 EDITORS This introduction to the International Handbook of Educational Leadership and Administration describes some of the motivation for developing the book and several assumptions on which is based much of the work represented in its 31 chapters A synopsis of the contents of those chapters is also provided **SOME KEY ASSUMPTIONS** It is sometimes suggested that the search for an adequate understanding of leadership is doomed to fail After all there is little evidence of agreement about the concept in spite of prodigious efforts dating back hundreds if not thousands of years Such a view is captured for example in Bennis observation that Of all the hazy and confounding areas in social psychology leadership theory undoubtedly contends for top nomination Probably more has been written and less is known about leadership than any other topic in the behavioural sciences 1959 page 259 We do not find this state of affairs discouraging nor entirely accurate and of course it did not prevent Bennis from proceeding either One reason for our desire to continue in the face of such discouraging words is that a great deal of leadership research aspires to develop a general theory a theory which applies to all or most domains of organized human activity This aspiration inevitably produces decontextualized and therefore abstract categories of practice Howard Gardner's 1995 depiction of leadership as story telling is a case in point **Critical Leadership Praxis for Educational and Social Change** Katie Pak, Sharon M. Ravitch, 2021 In this edited volume contributors draw on the work of Andrade and Morrell 2008

in articulating critical leadership praxis as well as critical race theory and critical education leadership scholarship in order to offer new and generative theories of change they make explicit power dynamics social inequities and taken for granted forms of stratification in educational organizations with the primary purpose of offering specific and useful frames concepts and practices to educational leaders that they can adopt in their own work The goal is for educational leaders to develop their sense of agency and and their knowledge and professional competencies for taking an equity and inquiry stance in their work of transforming the organizations and people around them The work is intended to provide a counter narrative to a broad literature in educational leadership that reinscribe white middle class male leadership styles values and priorities as an assumed and normative backdrop both in terms of the frames used and the values and epistemologies promoted The work is organized into four sections Transforming Self Transforming Educators Transforming Organizations and Transforming Systems Contributors include practicing leaders doctoral students with leadership experience and leadership faculty and researchers

Second International Handbook of Educational Leadership and Administration Kenneth A. Leithwood, P. Hallinger, 2012-12-06 The first International Handbook of

Educational Leadership and Administration Leithwood et al was published in 1996 and quickly became something of a best seller for reference works within education Such success we suggest was at least partly due to the unprecedented global waves of concern for improving schools launched in the mid 1980 s combined with a widespread belief in leadership as the single most powerful contribution to such improvement The roots of this belief can be found in evidence produced by the early effective schools research although there is a romance with leadership as an explanation for success in many non school enterprises as well During the two year period during which this current handbook was being written activity in the realms of school leadership school improvement and leadership development gained further momentum The English government created its new National College of School Leadership and several Asian nations announced new initiatives in leadership selection preparation and development *Educational Leadership and Nancy Fraser* Jill Blackmore,2016-06-10 Drawing on the work of Nancy Fraser this book offers a critical view of contemporary educational leadership and reform discourses exploring how her key concepts of redistribution recognition and representation may apply to social and therefore educational justice Fraser offers a political and pragmatic reconciliation between feminist neo Marxist critical and post structuralist theories This book outlines how Fraser has worked on and worked over theories of social justice and how this can inform how we can understand educational theory policy and practice generally In particular the book focuses on the field of educational administration and leadership ELMA as it relates to equity issues such as school choice and inequality gender and inclusive leadership and alternative schooling Fraser s argument about scaling up social justice theory is shown to be highly salient given the emergence of the field of transnational education policy and its role in the context of intensified nation state and edu business competition Overall through the lens of Nancy Fraser s unitary framework this book considers epistemological questions about the nature of knowledge examines the relationship between the state the individual education and social movements addresses the difficulties and dilemmas which arise due to the intersections of gender class race sexuality and culture in a globalized context and illustrates how the principles of social justice can be mobilized by leaders in everyday practice Educational Leadership and Nancy Fraser is an illuminating read for those policymakers researchers and practitioners engaged in the field of educational administration leadership and social justice
