Social Construction Of What:

The Social Construction of What? Ian Hacking, 1999 Lost in the raging debate over the validity of social construction is the question of what precisely is being constructed Facts gender quarks reality Is it a person An object An idea A theory Each entails a different notion of social construction Ian Hacking reminds us His book explores an array of examples to reveal the deep issues underlying contentious accounts of reality Especially troublesome in this dispute is the status of the natural sciences and this is where Hacking finds some of his most telling cases from the conflict between biological and social approaches to mental illness to vying accounts of current research in sedimentary geology He looks at the issue of child abuse very much a reality though the idea of child abuse is a social product He also cautiously examines the ways in which advanced research on new weapons influences not the content but the form of science In conclusion Hacking comments on the culture wars in anthropology in particular a spat between leading ethnographers over Hawaii and Captain Cook Written with generosity and gentle wit by one of our most distinguished philosophers of science this wise book brings a much needed measure of clarity to current arguments about the nature of knowledge

Social Construction of Global Corruption Elitza Katzarova,2018-12-06 This book offers new ways of thinking about corruption by examining the two distinct ways in which policy approaches and discourse on corruption developed in the UN and the OECD One of these approaches extrapolated transnational bribery as the main form of corrupt practices and advocated a limited scope offense while the other approach tackled the broader structure of the global economic system and advocated curbing the increasing power of multinational corporations Developing nations in particular Chile initiated and contributed much to these early debates but the US sponsored issue of transnational bribery came to dominate the international agenda In the process the corrupt corporation was supplanted by the corrupt politician the corrupt public official and their international counterpart the corrupt country This book sheds light on these processes and the way in which they reconfigured our understanding of the state as an economic actor and the multinational corporation as a political actor

An Introduction to Social Constructionism Vivien Burr,2006-07-13 Introduction to Social Constructionism is a readable and critical account of social constructionism for students new to the field Focusing on the challenge to psychology that social constructionism poses Viven Burr examines the notion of personality to illustrate the rejection of essentialism by social constructionists This questions psychology s traditional understanding of the person She then shows how the study of language can be used as a focus for our understanding of human behaviour and experience This is continued by examining discourses and their role in constructing social phenomena and the relationship between discourse and power However the problems associated with these analyses are also clearly outlined Many people believe that one of the aims of social science

should be to bring about social change Viven Burr analyses what possibilities there might be for change in social constructionist accounts She also addresses what social constructionism means in practice to research in the social sciences and includes some guidelines on undertaking discourse analysis Introduction to Social Constructionism is an invaluable and clear guide for all perplexed students who want to begin to understand this difficult area **Social Construction and the Logic of Money** J. Samuel Barkin,2003-01-09 Examines the nature of international economic leadership since the seventeenth century **The Catholic Faith and the Social Construction of Religion** Peter Stuart,Allan M. Savage,2011-09-02 The intent behind this book is to provide grist for the mill for research students and other interested readers Chapter one by author Allan Savage presents an understanding of the social construction of religious activity which maintains that social construction of religion arises from a dialectical engagement within the world from a phenomenological philosophical point of view Co author Peter Stuart presents a classical and traditional point of view and readers expecting academic accord between the authors will be disappointed A further rationale for writing this book is that both Savage and Stuart desire to express their personal convictions in the public forum Both have interests in the ebb and flow of civilization especially as it pertains to the place of faith religion politics and a variety of social phenomena including economics culture gender ethnicity and the family as well as the ebb and flow of money power property and prestige as articulated throughout history They believe that writing about the place of faith and religion in French Canada is crucial if one is to understand the place that this keystone civilization occupies within confederation and its enduring ambivalence regarding its belonging or not to Canada **The Reality of Social Construction** Dave Elder-Vass,2012-04-23 Argues that versions of realist and social constructionist ways of thinking about the social world are compatible with each other **The Social Construction of Sexuality and Perversion** A.
