Social Theory in the Twentieth Century Patrick Baert, 1998-08 I think this is an outstanding book The coverage is comprehensive the lines of thought and exposition are clear and the level of discussion is very high yet remarkably lively and accessible It has an underlying intellectual seriousness and engagement which shines out through the individual chapters and the author's unwillingness to make do with secondary analyses and received ideas gives it a strength and freshness of approach which is extremely welcome Professor William Outhwaite University of Sussex *Social Theory in the Twentieth Century* offers an easy to read but provocative account of the development of social theory Patrick Baert covers a wide range of key figures and schools of thought including Giddens Foucault and Habermas Written in a lively style and avoiding jargon this book is aimed at students who wish to understand the main debates and dilemmas driving social theory Rather than providing a neutral summary of the different thinkers and theories Baert challenges the conventional readings of social theory with new and original interpretations In effect he bridges the gap between philosophy and social theory by placing the theoretical views within wider historical traditions *Social Theory in the Twentieth Century* will undoubtedly become the standard introduction to social theory for students in sociology politics and anthropology

Structuralist Analysis in Contemporary Social Thought (RLE Social Theory) Miriam Glucksmann, 2014-08-21 The primary concern of this book is to investigate whether or not structuralism constitutes a distinctive framework in the social sciences The author focuses on two major structuralist thinkers Louis Althusser and Claude L vi Strauss She analyses and compares the structure of their theory and places them within the context of their respective disciplines Dr Glucksmann began working on this book at a time when structuralism was at the height of its popularity in France and was thought to be a homogenous alternative to bourgeois sociology The progress of her study implicitly reflects the developments and divergences within structuralist thought that have emerged since then In particular she examines the differences between the political and philosophical thought of Althusser and L vi Strauss which have become increasingly manifest
