Social Capital As A Policy Resource:

Social Capital as a Policy Resource John D. Montgomery, Alex Inkeles, 2013-03-14 **The Handbook of Social Capital** Dario Castiglione, Jan W. van Deth, Guglielmo Wolleb, 2008-04-17 Social capital is a relatively new concept in the social sciences. In the last twenty or so years it has come to indicate that networks of social relationships represent a resource for both the individual and society since they provide support for the individual and facilitate collective action. Although this is not an entirely new idea, the more systematic way in which social capital captures such an intuition has created a new theoretical paradigm and helped to develop a series of innovative research programmes in politics, economics, and the study of human well-being. The concept has gained currency beyond academia, extending its influence to political and policy-making circles at local, national, and international levels. It has also affected the way in which social surveys are conceived and public policies assessed. As the idea of social capital has spread, the literature about it has increased exponentially. After twenty years of rapid expansion, it is time for a more considered and critical assessment of how the original concept has been adapted and refined and how successful its application has been. The Handbook of Social Capital intends to do precisely that. It offers a state-of-the-art view of discussions about the concept of social capital and the way in which it has been applied in empirical research. The organization of the Handbook reflects this intention by focusing on conceptual development and analysis in the first part, by identifying two main areas of research in which social capital has favoured the development of new and influential research programmes: political participation in democratic societies and economic development, and by exploring the more normative and policy-oriented consequences of social capital. All chapters comprising the volume were specifically written for the Handbook by some of the main experts in the fields. The book provides authoritative and innovative introduction to the study of social capital.

Social Capital as a Health Resource in Later Life: The Relevance of Context Fredrica Nyqvist, Anna K. Forsman, 2015-02-20 This book examines the social aspects of healthy ageing for older individuals. It features more than 15 papers that explore the relevance of the social environment for health on the micro, meso, and macro level. Overall, the book applies a comprehensive contextual approach that includes discussion of how family and friends, neighborhoods, nations, and welfare regimes influence health. The book first explores the issue on the individual level. It looks at the importance of social capital for health among older people, examines types of social networks and health among older Americans, as well as discusses dynamic social capital and mental health in late life. Next, the book looks at the issue through a neighborhood and societal context, which takes into account day-to-day interaction in the immediate environment, as well as the social health and economic policies in place in different regions in the world, including America, Europe, Asia, and Africa. From there, the book goes on to offer implications and recommendations for research and practice, including the management of related concepts of research on well-being and health. It also offers a psychosocial approach to promoting social capital and mental health among older adults. This book provides health professionals as well as researchers

and students in gerontology sociology social policy psychology and social work with vital insights into the social factors that increase healthy life years and promote well being *Social Capital in Hong Kong* Sik Hung NG, Stephen Yan-leung CHEUNG, Brahm PRAKASH, 2011-01-01 Given the rapid pace at which the Hong Kong Special Administrative Region HKSAR and other Asian economies are growing and the global volatility that these societies are experiencing social capital and its diverse connectivities can furnish useful anchoring to communities neighbourhoods local governments and social protection networks This book provides a critical analysis of social capital its indigenous evolution and spread in HKSAR Some of the experiments and activities narrated in this book indicate the ingenious blending of the local ethos and culture with modern organisational forms and information networks BACK COVER *Theories of Social Capital* Ben Fine, 2010-01-11 Tracing the evolution of social capital since his highly acclaimed contribution of 2001 *Social Capital Versus Social Theory* Ben Fine consolidates his position as the world's leading critic of the concept Fine forcibly demonstrates how social capital has expanded across the social sciences only by degrading the different disciplines and topics that it touches a McDonaldisation of social theory The rise and fall of social capital at the World Bank is critically explained as is social capital's growing presence in disciplines such as management studies and its relative absence in others such as social history Writing with a sharp critical edge Fine not only deconstructs the roller coaster presence of social capital across the social sciences but also draws out lessons on how and how not to do research **Social Capital and Welfare Reform** Jo Anne Schneider, 2006-02-01 In this groundbreaking study Jo Anne Schneider considers the reasons behind the limited success of most welfare reform initiatives and offers evidence based recommendations for enhancing the effectiveness of welfare policy Schneider draws on her rich and nuanced ethnographic studies of Philadelphia Milwaukee and Kenosha Wisconsin to clarify the role of social capital for both individuals and institutions She shows that the social relationships and patterns of trust that enable people to gain access to resources like government services organization funding and jobs are crucial in helping families achieve their goals Schneider examines the complex ways in which social capital functions in conjunction with economic human and cultural capital and explores social capital dynamics among government nonprofits and congregations that together provide the welfare support system *Social Capital and Welfare Reform* is compulsory reading for researchers and students in social work sociology anthropology public policy education community psychology social psychiatry and non profit and public administration as well as policy makers interested in welfare reform poverty and nonprofits *Social Capital and Sport Governance in Europe* Margaret Groeneveld, Barrie Houlihan, Fabien Ohl, 2010-09-13 This book critically presents the mechanisms and structures in a selection of sport federations within a variety of European countries that illuminate the varied relationships between not for profit sport federations their members governments and the citizens they represent *Sport and Social Capital* Matthew Nicholson, Russell Hoyer, 2008-05-09 Despite the importance of sport as a social economic and political institution research into sport and social capital has not been extensive *Sport and Social Capital*

Family Care and Social Capital: Transitions in Informal Care Patrick Barrett,Beatrice Hale,Mary Butler,2013-08-04 Becoming a caregiver is increasingly an inevitable experience for many people and therefore a likely life transition Drawing on research and personal experiences of working with family caregivers this book examines a range of family caregiving situations from across the life course It seeks to capture the dynamics of caregiving in a number of common situations caregiving during infancy for adults who acquire a disability through accidents or illness for older people with age related issues and caregiving by children and adolescent carers and grandparent carers In drawing attention to key moments of vulnerability faced by family and informal caregivers and by suggesting how to assist reconnection at these moments the book provides a guide for those working in the area of health disability and care Informal care is conceptualised as occurring with the context of personal interrelationships these being nested within wider kin networks and linked with wider professional formal care networks Informal care is seen both as an expression of social capital and as an activity that builds social capital It is an indicator of resources of mutual support within social networks and it has the effect of adding to the stock of social resources The book makes a case therefore for facilitating the development of social capital by strengthening the capacity of informal caregivers and caregiver groups and by improving the linkages with formal care organisations

Understanding Society and Natural Resources Michael J. Manfredo,Jerry J. Vaske,Andreas Rechkemmer,Esther A. Duke,2014-06-11 In this edited open access book leading scholars from different disciplinary backgrounds wrestle with social science integration opportunities and challenges This book explores the growing concern of how best to achieve effective integration of the social science disciplines as a means for furthering natural resource social science and environmental problem solving The chapters provide an overview of the history vision advances examples and methods that could lead to integration The quest for integration among the social sciences is not new Some argue that the social sciences have lagged in their advancements and contributions to society due to their inability to address integration related issues Integration merits debate for a number of reasons First natural resource issues are complex and are affected by multiple proximate driving social factors Single disciplinary studies focused at one level are unlikely to provide explanations that represent this complexity and are limited in their ability to inform policy recommendations Complex problems are best explored across disciplines that examine social ecological phenomenon from different scales Second multi

disciplinary initiatives such as those with physical and biological scientists are necessary to understand the scope of the social sciences Too frequently there is a belief that one social scientist on a multi disciplinary team provides adequate social science representation Third more complete models of human behavior will be achieved through a synthesis of diverse social science perspectives

Social Capital and Local Water Management in Egypt Dalia M. Gouda, 2016-11-02 From the 1980s onward billions of dollars were poured into irrigation improvement programs in Egypt These aimed at improving local Nile water management through the introduction of more water efficient technology and by placing management of the improved systems in the hands of local water user associations The central premise of most of these programs was that the functioning of such associations could rely on the revival of traditional forms of social capital social networks norms and trust for their success Social Capital and Local Water Management in Egypt shows how the far reaching social changes wrought at the village level in Egypt through the twentieth century rendered such a premise implausible at best and invalid at worst Dalia Gouda examines networks of social relationships and their impact on the exercise of social control and the formation of collective action at the local level and their change over time in four villages in the Delta and Fayoum governorates Outlining three time frames pre 1952 1952 73 and 1973 to the present and moving between multiple actors farmers government officials and donor agencies Gouda shows how institutional and technological changes during each period and the social changes that coincided with them yielded mixed successes for the water user associations in respect of water management Social Capital and Local Water

Management in Egypt is essential reading for anyone working in the field of community based natural resource management in Egypt including policymakers and practitioners donor agencies and civil society organizations as well as anthropologists and sociologists

Social Capital John Field, 2004-06-02 The term social capital is a way of conceptualizing the intangible resources of community shared values and trust upon which we draw in daily life It has achieved considerable currency in the social sciences through the very different work of Bourdieu in France and James Coleman and Robert Putnam in the States and has been taken up within politics and sociology as a means of explaining the decline of social cohesion and community values in many Western societies This concise introduction the only one currently available explains the

theoretical underpinning of the subject the empirical work that has been done to explore its operation and the effect that it has had on policy making particularly within such international governmental bodies as the World Bank and the European Commission With genuine cross disciplinary appeal this exceptional book will be of great interest to students of sociology politics and social policy

The Relationship Between Trust and Social Capital of China's Urban Residents Zou Yuchun, 2022-11-25 This book analyzes the relationship between trust and social capital in contemporary Chinese society It attempts to clarify the differences in degree among various types of trust in China today and the logic of social actions hoping to provide a new perspective from which China's local social relationship networks can be understood The book contributes to the field of contemporary Chinese sociology in the numerous ways First it improves the methods for comparing the ways in which different types of trust are measured Second it analyzes the regional differences in trust especially universal trust across China Third it discusses the impact of social capital social relations and their embedded resources on trust and tests the relationship for linearity and curvilinearity Fourth it explores whether the relationship between social capital and universal trust is regulated by institutional structural resources The analysis of the regulatory role of structural resources paves the way for a more comprehensive theory of the relationship between social capital and trust The book will be of interest to students and scholars of sociology contemporary China and East Asian studies It will also be a valuable source of reference for policymakers on the improvement of social institutions

Black Social Capital Marion Orr, 1999 Deindustrialization white flight and inner city poverty have spelled trouble for Baltimore schools Marion Orr now examines why school reform has been difficult to achieve there revealing the struggles of civic leaders and the limitations placed on Baltimore's African American community as each has tried to rescue a failing school system Examining the interplay between government and society Orr presents the first systematic analysis of social capital both within the African American community black social capital and outside it where social capital crosses racial lines Orr shows that while black social capital may have created solidarity against white domination in Baltimore it hampered African American leaders' capacity to enlist the cooperation from white corporate elites and suburban residents needed for school reform Orr examines social capital at the neighborhood level in elite level interactions and in intergovernmental relations to argue that black social capital doesn't necessarily translate into the kind of intergroup coalition needed to bring about school reform He also includes an extensive historical survey of the black community showing how distrust engendered by past black experiences has hampered the formation of significant intergroup social capital The book features case studies of school reform activity including the first analysis of the politics surrounding Baltimore's decision to hire a private for profit firm to operate nine of its public schools These cases illuminate the paradoxical aspects of black social capital in citywide school reform while offering critical perspectives on current debates about privatization site based management and other reform alternatives Orr's book challenges those who argue that social capital alone can solve fundamentally political problems by purely social

means and questions the efficacy of either privatization or black community power to reform urban schools Black Social Capital offers a cogent conceptual synthesis of social capital theory and urban regime theory that demonstrates the importance of government politics and leadership in converting social capital into a resource that can be mobilized for effective social change

Networks, Trust and Social Capital Sokratis M. Koniordos, 2017-03-02 The concepts of social networks social capital and trust play an increasingly central role in the social sciences They have become indispensable conceptual tools for the analysis of post industrial late modern societies which are characterized by such features as the relative decline of formal hierarchies the development of flexible social arrangements in the sphere of production and the extreme mobility of capital This is the first book to study the interrelationships between these important concepts both theoretically and empirically Drawing on empirical investigations from a range of diverse European social contexts the contributors develop an economic sociology that builds on and extends established theoretical perspectives The book opens with an introduction to the theoretical ideas relating social capital to reciprocity trust and social networks in line with current debates The authors go on to discuss the concept of social embeddedness addressing the economic effects of social capital by examining the network and trust foundations of labour markets and investigating the structural limits of trusting networks They conclude with an exploration of the impact of networking and the functioning of trust and social capital on the economic arrangements and performance of nascent capitalist economies in post Communist Europe This thematically unified collection by a team of distinguished contributors from across Europe provides an innovative and distinctive contribution to an expanding area of research

Learning Communities and Imagined Social Capital Jocey Quinn, 2010-04-01 This volume critically explores themes of belonging learning and community drawing on a range of research studies conducted with adult learners in formal and informal contexts and employing interdisciplinary theory from education feminist theory cultural studies and human geography Dominant but simplistic and regulatory ideas and practices of learning community in higher education and lifelong learning are critiqued Instead Jocey Quinn argues that learners gain most benefit from creating their own symbolic communities and networks which help to produce imagined social capital A rich variety of empirical data is used to explore and demonstrate how such imagined social capital works
