Savage,2011-09-02 The intent behind this book is to provide grist for the mill for research students and other interested readers Chapter one by author Allan Savage presents an understanding of the social construction of religious activity which maintains that social construction of religion arises from a dialectical engagement within the world from a phenomenological philosophical point of view Co author Peter Stuart presents a classical and traditional point of view and readers expecting academic accord between the authors will be disappointed A further rationale for writing this book is that both Savage and Stuart desire to express their personal convictions in the public forum Both have interests in the ebb and flow of civilization especially as it pertains to the place of faith religion politics and a variety of social phenomena including economics culture gender ethnicity and the family as well as the ebb and flow of money power property and prestige as articulated throughout history They believe that writing about the place of faith and religion in French Canada is crucial if one is to understand the place that this keystone civilization occupies within confederation and its enduring ambivalence regarding its belonging or not to Canada

REBUILDING Tian Yi-Peng,2021-11-18 In this work the author endeavors to treat Danwei system as a special and highly organized form of community and sets about his study from the perspectives of Danwei community s change and urban community reconstruction When it comes to the construction and development of urban communities in contemporary China academic circles at home often attempt to unravel its intimate and indissoluble connection with Danwei system and seek to lay emphasis upon the great complexity of their interactive relationship with each other However academic circles generally incorporate Danwei system taken as a national system as well as a universal institution into their fields of research whereas they rarely enter into a critical examination of the variations in its multiplicity of specific denotations by taking account of such variables as space region and culture nor do they show much concern about the existence of different types of Danwei In view of the foregoing difficulties in which the study of Danwei system gets entangled this study attempts to accomplish the following main purposes Firstly this study shall introduce such a variable as locality into the research on Danwei community by starting off from the research perspectives of Danwei community s origin formation and change Secondly several super large industrial communities in the old industrial bases shall be chosen as classic cases in illustration of long standing complications and entanglements enmeshed in this study And thirdly it seeks to reveal the mode and experience of urban community development against a background of Danwei system reform so that by gaining a full understanding of as well as making an in depth analysis of their rich implications we can enrich the theory of urban community construction in the Chinese context and hence grapple successfully with some theoretical problems confronting urban community reconstruction against a background of Danwei community change which shall eventually bring about a smooth transition of Danwei society This book will assuredly open an exceptional window to the transition of China from traditional to modern society the transition of Chinese society from planned economy to market economy and the change track of the interplay between the Chinese government and modern Chinese society after the founding of New China in 1949 at the present time and even in the foreseeable future *Chinese Research Perspectives on Society, Volume 4* Peilin LI,Guangjin CHEN,Yi ZHANG,2018-11-01 This collection of articles selected from Blue Book of Chinese Society 2015 published in Chinese reviews China s social condition from 2013 to 2014 The articles featured cover a range of social issues including employment income and consumption social security and others Findings are presented and analyzed from a number of social surveys on topics
