The Company And Standardization:

Standard Oil Company of New Jersey Et Al., Appellants, V. United States of America, Appellee United States. Department of Justice, 1910 Standardization Research in Information Technology: New Perspectives Jakobs, Kai, 2007-12-31

Standardization has the potential to shape expand and create markets Information technology has undergone a rapid transformation in the application of standards in practice and recent developments have augmented the need for the divulgence of supplementary research Standardization Research in Information Technology New Perspectives amasses cutting edge research on the application of standards in the market covering topics such as corporate standardization linguistic qualities of international standards the role of individuals in standardization and the development use application and influence of information technology in standardization techniques *Standardization: A Business Approach to the Role of National Standardization Organizations* Henk J. de Vries, 2013-06-29 This study fills a gap in standardization literature It is the first academic analysis of national standardization organizations These organizations exist in every country and may be private or governmental organizations The first national standardization th organizations were founded in the early decades of the 20 century and were aimed at rationalizing industrial production Their mode of operation reflects the sense of co operation at the national level and in the telecommunications and electrotechnical field at the international level as well Now however the scene has changed with companies operating internationally Standards for products processes and services are crucial factors in determining success or failure on a fiercely competitive market especially when functional compatibility is a prerequisite as is the case in computer and telecommunications technologies As a consequence rather homogeneous needs of participants in standardization have given way to conflicting interests This prompts a discussion about the traditional role of national standardization organizations They increasingly depend on their exclusive links to the international standardization organizations ISO and IEC and in the case of Europe the regional organizations CEN and CENELEC In many cases formal standardization organizations are not the obvious bodies for developing standards to meet business needs Is this inevitable or could they improve performance and regain their market share Henk de Vries answers this question against the background of current developments in standardization at the international European and national levels **Standard Oil Company of New Jersey Et Al., Appellants, V.
