Handbook of Comparative Political Economy Marino Regini, 2025-08-11 This comprehensive Handbook presents an overview of the evolution and current state of Comparative Political Economy CPE Taking an interdisciplinary approach it explores the leading theories main actors key institutions policy areas geographical boundaries and emerging themes in the field

Comparative Employment Relations in the Global Economy Carola Frege, John Kelly, 2013-07-24 Employment Relations is widely taught in business schools around the world Increasingly however more emphasis is being placed on the comparative and international dimensions of the relations between employers and workers It is becoming ever more important to comprehend today's work and employment issues alongside a knowledge of the dynamics between global financial and product markets global production chains national and international employment actors and institutions and the ways in which these relationships play out in different national contexts This textbook is the first to present a cross section of country studies including all four BRIC countries Brazil Russia India and China alongside integrative thematic chapters covering all the important topics needed to excel in this field The textbook also benefits from the editors and contributors experience as leading scholars in Employment Relations The book is an ideal resource for students on advanced undergraduate and postgraduate comparative programmes across areas such as Employment Relations Human Resource Management Political Economy Labour Politics Industrial and Economic Sociology Regulation and Social Policy

Comparative Political Economy Georg Menz, 2017-11-24 This new and comprehensive volume covering the subfield of comparative political economy provides a detailed overview over its intellectual roots clarifies its contents and introduces the readers to key debates while identifying new and exciting avenues for future research Ideas interests and institutions have traditionally been the main focus points of this field but the volume argues that culture provides an additional and often neglected area providing the glue that keeps national models of capitalism hanging together The volume also develops pathways beyond the varieties of capitalism paradigm Building on a thorough and rigorous review of comparative capitalisms and a synthesis of the research strands that have built the bedrock

of this subfield Comparative Political Economy explores the individual components of national models of capitalism and argues that these elements deserve closer scrutiny Their permutations have been considerable over the past thirty years and their study permits valuable insights both empirically and theoretically The empirical coverage of the book includes chapters covering industrial relations labour markets systems of education and training finance welfare state and debt In the conclusion research pathways forward are identified and the impact of energy security issues and environmental factors on the study of comparative capitalisms will be assessed

The SAGE Handbook of Industrial Relations Paul Blyton, Edmund Heery, Nicolas Bacon, Jack Fiorito, 2008-09-12 This handbook is an indispensable teaching research and reference guide for anyone interested in issues of labour and employment The editors have assembled a top flight group of authors and the end product is an encompassing state of the art review of the industrial relations field Professor Bruce E Kaufman AYSPPS Georgia State University This Handbook will quickly become the standard reference in industrial relations research It provides the most comprehensive and challenging presentation of the key theoretical debates and topics of research that will shape our field well into the 21st century All who wish to contribute to this field will need to read this volume and then build on what these authors have to say Professor Thomas A Kochan MIT Institute for Work and Employment Research This authoritative panorama of the field demonstrates the contemporary vitality breadth and critical depth of industrial relations scholarship and research Thirty four stimulating essays by an international blend of leading academics expertly review the analytical and empirical state of play across all aspects of industrial relations enquiry In doing so a rich agenda for further scholarly endeavour emerges Paul Marginson University of Warwick Over the last two decades a number of factors have converged to produce a major rethink about the field of Industrial Relations Globalization the decline of trade unions the spread of high performance work systems and the emergence of a more feminized flexible work force have opened new avenues of inquiry The SAGE Handbook of Industrial Relations charts these changes and analyzes them It provides a systematic comprehensive survey of the field The book is organized into four interrelated sections Theorizing Industrial Relations The changing institutions that shape employment practice The processes used by governments employers and unions Income inequality employee wellbeing business performance and national comparative advantages The result is a work of unprecedented scope and unparalleled ambition It offers a complete guide to the central debates new developments and emerging themes in the field It will quickly be recognized as the indispensable reference for Teachers Students and Researchers It is relevant to economists lawyers sociologists business and management researchers and Industrial Relations specialists

The Politics of Labor in a Global Age Christopher Candland, Rudra Sil, 2001 This volume features essays on labour relations at national local and workplace levels as economic and political actors cope with the similar challenges associated with economic adjustment measures and the impact of globalization

The Oxford Handbook of Work and Organization Stephen Ackroyd, 2006 Aims to bring together present and discuss what is known

about work and organizations and their connection to broader economic change in Europe and America This volume contains a range of theoretically informed essays which give comprehensive coverage of changes in work occupations and organizations Work and Employment in the High Performance Workplace Giles Anthony, Jacques Belanger, Paul-Andre Lapointe, Gregor Murray, 2013-10-11 There is a general consensus that deep seated changes are reshaping the way production and work are organized the way employees employers and their representatives deal with each other and the way governments seek to shape society In this work a group of leading scholars take stock of the evidence and implications of the new workplace Drawing on examples from a variety of national contexts they seek to characterize the nature of contemporary workplace change and assess its implications for the organization of work for workers for employment relations and for public policy *Comparative Political Economy* Georg Menz, 2017 A genealogy of the field from Adam Smith to the mid twentieth century Contemporary CPE the turn towards comparative capitalisms and the relationship with IPE Varieties of capitalism and the next steps beyond Labour markets and their regulation industrial relations and the organization of business and labour Models of finance and corporate governance and their implications The political economy of debt Welfare state models taming the market The state as an actor not a neutral umpire Conclusion future directions for comparative political economy **Student's Guide for Writing in Political Science** Andre Martel, 1997-01-15 This concise methodological guide is geared to undergraduates making the transition between descriptive and analytical work Many aspects of study and writing are explored posing a general political problem active reading approaches to research textual analysis the linking of ideas and data building an argument sourcing styles in English and French publishing outlets and book reviews An indispensable tool for beginning students and for those revisiting the field The Political Economy of Work in the Global South Anita Hammer, Adam Fishwick, 2020-03-28 Part of the Critical Perspectives on Work and Employment series this edited collection brings together contributions from leading international scholars to initiate an important dialogue between labour process analysis and scholarship on work in the Global South This book characterises the forms of work and labour process that characterise globalising capitalism today and addresses core analytical concerns within Labour Process Theory and research on work in the South It explores how a wide range of production relations in the Global South ranging from formal to informal employment and self employment are embedded in wider social relations of gender caste religion and ethnicity and are related to wider patterns of commodification and resistance Drawing on cutting edge research the book's chapters consider a diverse range of working situations covering migrant workers in the Middle East commercial surrogacy work in India and cooperative garment workers in Argentina In offering a novel reading of the political economy of work in the Global South and shedding light on lesser considered fields of work and worker organization this volume will provide new insights for making sense of the changing world of work for students scholars labour activists and practitioners alike *Institutional Change after the Great Recession* Luis Cárdenas del Rey, Javier de Arribas

Cámara,2021-08-12 This book combines demand led growth models and the institutional approach in order to explain the macroeconomic performance of the main European countries in recent years followed by which a coherent explanation of the institutional change since the Great Recession including the economic policy response to the economic and financial crisis 2008 and to the debt crisis 2010 is provided A Comparative Political Economy CPE analytical framework and provide an institutional base to the different European growth models is built in general terms over the period 1995 2018 The results allow us to link diverse growth dynamics to the changes of the institutional framework as a consequence of the economic and financial crises In each chapter for country case studies France Germany Italy Spain Greece Sweden UK and Poland there is an introduction with a general characterization of the country and the most relevant changes that have occurred subsequently main legislative milestones or changes in the behaviour of social agents especially the process of dualization or deregulation of European economies In addition an analysis of the macroeconomic evolution and the situation of the labour market before and after the crisis from a demand side perspective is included concluding with the linkages between both issues and the characterization of the growth model This book is of special interest to all the students and university professors who will use this book to be able to follow a multitude of subjects from Applied Economy to International Economic Structure but can also be useful for researchers doctoral students and teaching staff who want to expand knowledge in the fields of comparative political economy institutions and the European Union In general this book is aimed at anyone interested in expanding their knowledge of the evolution of Europe today *Handbook of Labour Market Policy in Advanced Democracies* Daniel

Clegg,Niccolo Durazzi,2023-10-06 Bringing together contributions from leading labour market policy scholars from across the globe this state of the art Handbook offers extensive and compelling analyses of labour market policy in advanced democracies This title contains one or more Open Access chapters **Crisis and Inequality** Mattias Vermeiren,2021-02-11 Spiralling inequality since the 1970s and the global financial crisis of 2008 have been the two most important challenges to democratic capitalism since the Great Depression To understand the political economy of contemporary Europe and America we must therefore put inequality and crisis at the heart of the picture In this innovative new textbook Mattias Vermeiren does just this demonstrating that both the global financial crisis and the European sovereign debt crisis resulted from a mutually reinforcing but ultimately unsustainable relationship between countries with debt led and export led growth models models fundamentally shaped by soaring income and wealth inequality He traces the emergence of these two growth models by giving a comprehensive overview deeply informed by the comparative and international political economy literature of recent developments in the four key domains that have shaped the dynamics of crisis and inequality macroeconomic policy social policy corporate governance and financial policy He goes on to assess the prospects for the emergence of a more egalitarian and sustainable form of democratic capitalism This fresh and insightful overview of contemporary Western capitalism will be essential reading for all students and scholars of international and comparative political economy

Handbook of the Politics of Labour, Work and Employment Gregor Gall, 2019 Providing a thorough overview of the political nature and dynamics of the world of work labour and employment this timely Handbook draws together an interdisciplinary range of top contributors to explore the interdependent relationship between politics and labour work and employment The Handbook explores the purpose roles rights and powers of employers and management workers and unions states and governments in the age of globalised neo liberalism

The Changing Political Economies of Small West European Countries Uwe Becker, 2011 The literature on changing varieties of capitalism concentrates on the big economies particularly the US Japan and Germany This important volume sheds light on the group of smaller European countries that share a high degree of corporatism Austria Belgium Denmark Finland the Netherlands Norway Sweden and Switzerland Most of them have recently been praised as alter native models to the route exemplified by the US The authors investigate the trajectories of these countries welfare systems corporate governance labour markets and industrial relations from about 1990 until the economic crisis in 2008 The volume also tracks their position in the processes of European integration and asks whether their particular brands of capitalism might be a viable candidate for the European socio economic model

The Political Economy of the Service Transition Anne Wren, 2013-01-24 Over the past four decades the world s most developed economies have experienced rapid de industrialization More than three quarters of employment is now in the service industry This book is the first systematic examination of the political economy of this transition and explores its profound implications for the economy politics and society

Beyond Varieties of Capitalism Bob Hancké, Martin Rhodes, Mark Thatcher, 2007-05-17 This edited work critically analyses developments in European Political Economy and their effects on the continental European economies Leading political economists from Europe and the United States consider how the influential Varieties of Capitalism approach can help us understand these challenges
