Funny Peculiar Mikita Brottman, 2013-04-15 Why are jokes funny Why do we laugh In *Funny Peculiar* Mikita Brottman demurs from recent scholarship that takes laughter and the broader domain of humor and the comical as a liberating social force and an endearing aspect of self expression For Brottman there is nothing funny about laughter which is less connected to mirth and feelings of good will than to a nexus of darker emotions fear aggression shame anxiety Brottman rethinks not only the mechanisms of humor but also the relation of humor to the body and the senses To this end she provides an engrossing account of the life and work of Gershon Legman exiled author publisher and sexologist Alfred Kinsey's first bibliographer and legendary compiler of the dirty joke Like Freud Legman was convinced of the impossibility of understanding humor apart from sex and Brottman shows how his two massive works on the subject *Rationale of the Dirty Joke* and *No Laughing Matter* provide a framework for understanding the ambivalent and often hostile impulses that underlie the comic impulse in its various guises In lively and enlivening chapters she traverses dirty jokes the figure of the evil clown in popular culture the current popularity of humor therapy changing fashions in stand up comedy and the connection between humor and horror Brottman's sparkling prose laced with wit does not obscure the seriousness of *Funny Peculiar* It is a thoughtful and wide ranging elaboration of the Freudian claim that joking in point of fact is no laughing matter

The Worlds of Herman Kahn Sharon Ghamari-Tabrizi, 2009-06-30 Herman Kahn was the only nuclear strategist in America who might have made a living as a standup comedian Indeed galumphing around stages across the country joking his way through one grotesque thermonuclear scenario after another he came frighteningly close In telling the story of Herman Kahn whose 1960 book *On Thermonuclear War* catapulted him into celebrity Sharon Ghamari Tabrizi captures an era that is still very much with us a time whose innocence gruesome nuclear humor and outrageous but deadly serious visions of annihilation have their echoes in the known unknowns and unknown unknowns that guide policymakers in our own embattled world Portraying a life that combined aspects of Lenny Bruce Hitchcock and Kubrick Ghamari Tabrizi presents not one Herman Kahn but many one who spoke the suffocatingly dry argot of the nuclear experts another whose buffoonery conveyed the ingenious absurdity of it all

and countless others who capered before the public ambiguous baffling always open to interpretation This then is a story of one thoroughly strange and captivating man as well as a cultural history of our moment In Herman Kahn s world is a critical lesson about how Cold War analysts learned to fill in the ciphers of strategic uncertainty and thus how we as a nation learned to live with the peculiarly inventive quality of strategy in which uncertainty generates extravagant threat scenarios Revealing the metaphysical behind the dryly deliberate apparently practical discussion of nuclear strategy this book depicts the creation of a world where clever men fashion Something out of Nothing and establishes Herman Kahn as our first virtuoso of the unknown unknowns

Laughter and Liberation Harvey Mindess,2017-07-05 *Laughter and Liberation* is based on the idea that humor is an agent of psychological liberation Since we are able to include every kind of wit and humor under the umbrella of this thesis it amounts to an informal comprehensive theory of the ludicrous Briefly put the theory proposes that the most fundamental function of humor is its power to release us from the inhibitions and restrictions under which we live our daily lives The quest for laughter is as old as man himself Egyptian pharaohs and Roman emperors went to great lengths to amuse themselves as did the monarchs of medieval Europe with court jesters Our speech and literature abound with references to humor such as Laugh and the world laughs with you cry and you cry alone He who laughs last laughs best All the world loves a clown Laugh if you are wise and A good laugh is sunshine in the house In *Laughter and Liberation* Harvey Mindess tells us how laughter and our sense of humor work He gives us the background of several well known humorists Steve Allen Richard Armour Sholom Aleichem and explains his theory of how and why they have become expert in making others laugh
