Michael Walzer,2008-10-01 Liberalism is egalitarian in principle but why doesn't it do more to promote equality in practice In this book the distinguished political philosopher Michael Walzer offers a critique of liberal theory and demonstrates that crucial realities have been submerged in the evolution of contemporary liberal thought In the standard versions of liberal theory autonomous individuals deliberate about what ought to be done but in the real world citizens also organize mobilize bargain and lobby The real world is more contentious than deliberative Ranging over hotly contested issues including multiculturalism pluralism difference civil society and racial and gender justice Walzer suggests ways in which liberal theory might be revised to make it more hospitable to the claims of equality Combining profound learning with practical wisdom Michael Walzer offers a provocative reappraisal of the core tenets of liberal thought Politics and Passion will be required reading for anyone interested in social justice and the means by which we seek to achieve it      *Poetic Affairs* Michael Eskin,2008-02-26 Poetic Affairs deals with the complex and fascinating interface between literature and life through the prism of the lives and works of three outstanding poets the German Jewish poet and Holocaust survivor Paul Celan 1920 1970 the Leningrad native U S poet laureate and Nobel Prize winner Joseph Brodsky 1940 1996 and Germany's premier contemporary poet Durs Grünbein born 1962 Focusing on their poetic dialogues with such interlocutors as Shakespeare Seneca and Byron respectively veritable love affairs unfolding in and through poetry Eskin offers unprecedented readings of Celan's Brodsky's and Grünbein's lives and works and discloses the ways in which poetry articulates and remains faithful to the manifold truths historical political poetic erotic determining human existence      **Rescuing Haya** Shelly Spilka,2012-02-01 In this memoir the author an eighth generation sabra speaks openly and honestly about her reasons for rejecting the Zionist vision and seeking her identity her self expression and her freedom abroad Left in an orphanage when she was five the author takes us on a journey through exile and grief to redemption the search and rescue of the orphan she once was the child called Haya      **European Thought and Culture, 1350-1992** Michael J. Sauter,2021-06-06 This book explores the main currents of European thought between 1350 and 1992 which it approaches in two principal ways culture as produced by place and the progressive unmooring of thought from previously set religious and philosophical boundaries The book reads the period against spatial thought's history spatial sciences such as geography or Euclidean geometry to argue that Europe cannot be understood as a continent in intellectual terms or its history organized with respect to traditional spatial geographic categories Instead we need to understand European intellectual history in terms of a culture that defined its own place as opposed to a place that produced a given culture It then builds on this idea to argue that Europe

s overweening drive to know more about humanity and the cosmos continually breached the boundaries set by venerable religious and philosophical traditions In this respect spatial thought foregrounded the human at the unchanging s expense with European thought slowly becoming unmoored as it doggedly produced knowledge at wisdom s expense Michael J Sauter illustrates this by pursuing historical themes across different chapters including European thought s exit from the medieval period the Renaissance the Reformation the Scientific Revolution the Enlightenment and Romanticism the Industrial Revolution and war and culture offering a thorough overview of European thought during this period The book concludes by explaining how contemporary culture has forgotten what early modern thinkers such as Michel de Montaigne still knew namely that too little skepticism toward one s own certainties makes one a danger to others Offering a comprehensive introduction to European thought that stretches from the late fourteenth to the late twentieth century this is the perfect one volume study for students of European intellectual history

**Renaissance Responses to Technological Change** Sheila J. Nayar, 2018-10-29 This book foregrounds the pressures that three transformative technologies in the long sixteenth century the printing press gunpowder and the magnetic compass placed on long held literary practices as well as on cultural and social structures Sheila J Nayar disinters the clash between humanist drives and print culture places the rise of gunpowder warfare beside the equivalent rise in chivalric romance and illustrates fraught attempts by humanists to hold on to classicist traditions in the face of seismic changes in navigation Lively and engaging this study illuminates not only how literature responded to radical technological changes but also how literature was sometimes forced through unanticipated destabilizations to reimagine itself By tracing the early modern human s inter animation with print powder and compass Nayar exposes how these technologies assisted in producing new ways of seeing knowing and being in the world

Christian Ethics David S. Cunningham, 2008-03-03 A biblical historical philosophical and theological guide to the field of Christian ethics Written in an accessible and animated style this is the essential text for students of Ethics Anxieties of Interiority and Dissection in Early Modern Spain Enrique Fernandez, 2015-01-01 Anxieties of Interiority and Dissection in Early Modern Spain brings the study of Europe s culture of dissection to the Iberian peninsula presenting a neglected episode in the development of the modern concept of the self Enrique Fernandez explores the ways in which sixteenth and seventeenth century anatomical research stimulated both a sense of interiority and a fear of that interior s exposure and punishment by the early modern state Examining works by Miguel de Cervantes Mar a de Zayas Fray Luis de Granada and Francisco de Quevedo Fernandez highlights the existence of narratives in which the author creates a surrogate self on paper then dissects it He argues that these texts share a fearful awareness of having a complex inner self in a country where one s interiority was under permanent threat of punitive exposure by the Inquisition or the state A sophisticated analysis of literary religious and medical practice in early modern Spain Fernandez s work will interest scholars working on questions of early modern science medicine and body politics *The Renaissance Epic and the Oral Past* Anthony Welch, 2012-11-27 This book

explores why Renaissance epic poetry clung to fictions of song and oral performance in an age of growing literacy Sixteenth and seventeenth century poets Anthony Welch argues came to view their written art as newly distinct from the oral cultures of their ancestors Welch shows how the period s writers imagined lost civilizations built on speech and song from Homeric Greece and Celtic Britain to the Americas and struggled to reconcile this oral inheritance with an early modern culture of the book Welch s wide ranging study offers a new perspective on Renaissance Europe s epic literature and its troubled relationship with antiquity
