Atlantis and the Ten Plagues of Egypt Graham Phillips, 2003-07-23 Shows how a desecrated tomb in the Valley of the Kings holds the key to the true history of the destruction of Atlantis Reveals that Tomb 55 in the Valley of the Kings was designed not to keep intruders out but to trap something inside Provides forensic evidence proving that the mask believed to be the face of Tutankhamun is actually that of his elder brother Smenkhkare In Atlantis and the Ten Plagues of Egypt Graham Phillips explores the excavation of a mysterious and ritually desecrated tomb in the Valley of the Kings Tomb 55 which he contends holds the key to the true history of the destruction of Atlantis Unlike other Egyptian tombs designed to keep intruders out Tomb 55 was constructed to keep something imprisoned within specifically Smenkhkare the older brother of Tutankhamun who was deemed responsible for the ten plagues in Egyptian history to prevent such tragedies from ever happening again The forensic findings from this tomb coupled with compelling new evidence from the polar ice caps provide sensational evidence that the parting of the Red Sea the deaths of the first born and the other plagues that afflicted Egypt were all actual historical events Core samples from the polar ice caps indicate that a gigantic volcanic eruption took place in the eastern Mediterranean around the time of Amonhotep's reign Other research suggests this to have been the time of the eruption that destroyed the Greek island of Thera one of the likely locations of Atlantis and that the subsequent cataclysm may explain the unusual lack of resistance to the new religion installed by Amonhotep's son Akhenaten when he took power several years later

The Walking Dead at Saqqara Lara Weiss, 2022-06-21 Funerary rituals and the cult of the dead are classics of research in religious studies, especially for ancient Egypt. Still, we know relatively little about how people interacted in daily life at the city of Memphis and its Saqqara necropolis in the late second millennium BCE. By focussing on lived ancient religion, we can see that the social and religious strategies employed by the individuals at Saqqara are not just means on the way to religious post-mortem salvation, nor is their self-representation simply intended to manifest social status. On the contrary, the religious practices at Saqqara show in their complex spatiality a wide spectrum of options to configure sociality before and after one's own death. The analytical distinction between religion and other forms of human practices and sociality illuminates the range of cultural practices and how people selected, modified, or even avoided certain religious practices. As a result, pre-funerary, funerary, and practices of the subsequent mortuary cults in close connection with religious practices directed towards other ancestors and deities allow the formation of imagined and functioning reminiscence clusters as central social groups at Saqqara, creating a heuristic model applicable also to other contexts.

The Millionaire and the Mummies John M. Adams, 2013-06-25 A biography of the Gilded Age American lawyer tycoon exploring his exploits from New York City's government to the ancient tombs in Luxor, Egypt. Egypt, the Valley of the Kings, 1905. An American robber baron peers through the hole he has cut in an ancient tomb wall and discovers the richest trove of golden treasure ever seen in Egypt. At the start of the twentieth century, Theodore Davis was the most famous archaeologist in the world. His career turned tomb robbing and treasure hunting into a science. Using six of Davis's most important discoveries from the female Pharaoh Hatshepsut's sarcophagus to the exquisite shabti statuettes looted from the Egyptian Museum, not too long ago as a lens around which to focus his American rags-to-riches tale, author John M. Adams chronicles the rise of a poor country preacher's son. Through corruption and fraud, Davis amassed tremendous wealth in Gilded Age New York and then atoned for his ruthless career by inventing new standards for systematic excavation in the field of archaeology. He found a record eighteen tombs in the Valley and, breaking with custom, gave all the spoils of his discoveries to museums. A confederate of Boss Tweed, friend of Teddy Roosevelt, and rival of J. P. Morgan, the colorful American Lord Carnarvon shared his Newport mansion with his Rembrandts, his wife, and his mistress. The only reason history has forgotten Davis to a large extent is probably the fact that he stopped just short of King Tutankhamen's tomb, the discovery of which propelled Howard Carter, Davis's erstwhile employee, to worldwide fame just a
