The Condition of the Working-Class in England in 1844 Friedrich Engels,2013-04-23 The Condition of the Working Class in England in 1844 With a Preface written in 1892 by Frederick Engels Originally addressed to a German audience the book is considered by many to

be a classic account of the universal condition of the industrial working class during its time The eldest son of a successful German textile industrialist Engels became involved in radical journalism in his youth Sent to England what he saw there made him even more radical About this time he formed his lifelong intellectual partnership with Karl Marx     **The Condition of the Working-class in England in 1844** Friedrich Engels,1920     *The Condition of the Working-Class in England In 1844* Frederick Engels,2018-03-14 The history of the proletariat in England begins with the second half of the last century with the invention of the steam engine and of machinery for working cotton These inventions gave rise as is well known to an industrial revolution a revolution which altered the whole civil society one the historical importance of which is only now beginning to be recognised England is the classic soil of this transformation which was all the mightier the more silently it proceeded and England is therefore the classic land of its chief product also the proletariat Only in England can the proletariat be studied in all its relations and from all sides We have not here and now to deal with the history of this revolution nor with its vast importance for the present and the future Such a delineation must be reserved for a future more comprehensive work For the moment we must limit ourselves to the little that is necessary for understanding the facts that follow for comprehending the present state of the English proletariat     *The Condition of the Working-Class in England In 1844* Frederick Engels,2021-08-29 Friedrich Engels sometimes anglicised as Frederick Engels was a German philosopher economist historian political theorist and revolutionary socialist He was also a businessman journalist and political activist whose father was an owner of large textile factories in Salford and Barmen Prussia The Condition of the Working Class is the best known work of Engels and in many ways still the best study of the working class in Victorian England It was also Engels s first book written during his stay in Manchester from 1842 to 1844 Manchester was then at the very heart of the Industrial Revolution and Engels compiled his study from his own observations and detailed contemporary reports The fluency of his writing the personal nature of his insights and his talent for mordant satire combine to make this account of the life of the victims of early industrial change into a classic a historical study that parallels and complements the fictional works of the time by such writers as Gaskell and Dickens What Cobbett had done for agricultural poverty in his Rural Rides Engels did and more in this work on the plight of the industrial workers in the England of the early 1840s     **The Condition of the Working-Class in England in 1844** Frederick Engels,2021-01-03 A town such as London where a man may wander for hours together without reaching the beginning of the end without meeting the slightest hint which could lead to the inference that there is open country within reach is a strange thing This colossal centralisation this heaping together of two and a half millions of human beings at one point has multiplied the power of this two and a half millions a hundredfold has raised London to the commercial capital of the world created the giant docks and assembled the thousand vessels that continually cover the Thames     *The Condition of the Working-Class in England In 1844* Friedrich Engels,Florence Kelley,2018-04-13 The Condition of the Working Class in England 1844 German Die Lage der arbeitenden Klasse in England

is an 1845 book by the German political philosopher Friedrich Engels. It is a study of the industrial working class in Victorian England. It was Engels' first book; it was originally written in German as *Die Lage der arbeitenden Klasse in England*. It was written during his 1842-44 stay in Manchester, the city at the heart of the Industrial Revolution, compiled from Engels' own observations and detailed contemporary reports.

Friedrich Engels' first major work, *The Condition of the Working Class in England* in 1844, has long been considered a social, political and economic classic. The first book of its kind to study the phenomenon of urbanism and the problems of the modern city, Engels' text contains many of the ideas he was later to develop in collaboration with Karl Marx. In this book, Steven Marcus, author of the highly acclaimed *The Other Victorians*, applies himself to the study of Engels' book and the conditions that combined to produce it. Marcus studies the city of Manchester, centre of the first Industrial Revolution between 1835 and 1850, when the city and its inhabitants were experiencing the first great crisis of the newly emerging industrial capitalism. He also examines Engels himself, son of a wealthy German textile manufacturer who was sent to Manchester to complete his business education in the English cotton mills. Touching upon several disciplines including the history of socialism, urban sociology, Marxist thought and the history and theory of the Industrial Revolution, *Engels, Manchester and the Working Class* offers a fascinating study of nineteenth-century English literature and cultural life.

Book Excerpt: umphed along the whole line. The Reform Bill of 1831 had been the victory of the whole capitalist class over the landed aristocracy. The repeal of the Corn Laws was the victory of the manufacturing capitalist not only over the landed aristocracy but over those sections of capitalists too whose interests were more or less bound up with the landed interest: bankers, stock jobbers, fund holders, etc. Free Trade meant the re-adjustment of the whole home and foreign commercial and financial policy of England in accordance with the interests of the manufacturing capitalists, the class which now represented the nation. And they set about this task with a will. Every obstacle to industrial production was mercilessly removed. The tariff and the whole system of taxation were revolutionised. Everything was made subordinate to one end, but that end of the utmost importance to the manufacturing capitalist: the cheapening of all raw produce and especially of the m.
