The Psychology of Religion and Place Victor Counted, Fraser Watts, 2019-11-01 This book examines the role of religious and spiritual experiences in people s understanding of their environment The contributors consider how understandings and experiences of religious and place connections are motivated by the need to seek and maintain contact with perceptual objects so as to form meaningful relationship experiences The volume is one of the first scholarly attempts to discuss the psychological links between place and religious experiences The chapters within provide insights for understanding how people s experiences with geographical places and the sacred serve as agencies for meaning making pro social behaviour and psychological adjustment in everyday life      Engaging Religions and Worldviews in Africa Yusufu Turaki, 2020-04-30 In a world of increasing globalization we live amidst a clash of cultures religions and worldviews each battling for the human heart and mind In this in depth study Yusufu Turaki offers a theological framework for engaging this clash of perspectives in Africa where traditional African religions colonialism and exposure to Christianity have each had a lasting impact on contemporary African worldviews Professor Turaki undertakes a systematic analysis of the nature of African Traditional Religion its complex history with Christianity and the need for African Christian theology to address its cultural and historical roots effectively He provides both a conceptual framework and practical guide for engaging African cultures and religions with compassion understanding and a firm foundation rooted in scriptural truth This book is an excellent resource for students of religion and theology as well as those interested in Africa s traditional heritage or drawn to the important work of cross cultural and inter religious dialogue      Faith Finding Meaning Byron L Sherwin, 2009-11-09 Popular books on various aspects of Jewish life and thought are published in substantial numbers Yet there are few if any that offer a comprehensive accessible scholarly presentation of Jewish theology Byron Sherwin fills this gap by demonstrating that Jewish theological thinking can be understood as a response to visceral existential issues and argues that human meaning and fulfillment can be

discovered in the application of an authentic Jewish way of thinking and living      *The Edinburgh Review* ,1900      **John Hick's Pluralist Philosophy of World Religions** Paul Rhodes Eddy,2020-08-26 This title was first published in 2002 One of the most fascinating and controversial interpretations of religious diversity is religious pluralism According to John Hick s model of religious pluralism all the world s great religions are equally valid ways of understanding and responding to the ultimate spiritual reality This book offers an exposition of and critical response to John Hick s model Introducing the various interpretations of religious diversity being discussed today this book presents constructive suggestions as to how things could be further developed to offer a more accurate less confusing presentation of the various options in theology of religions The standard threefold typology of responses to religious diversity exclusivism inclusivism and pluralism are explained and defended Hick s pluralist interpretation of religious diversity is traced culminating in a critical assessment of Hick s pluralistic model and an up to date summary of a variety of critiques directed toward Hick s proposal Paul Rhodes Eddy concludes that Hick s present model is ultimately unsuccessful in retaining both of his long cherished goals a robust religious realism and a consistent religious pluralism whilst overcoming the most difficult problem for the pluralist the fact that the world s religions understand the divine in often contradictory ways      Natural Religion and the Nature of Religion Peter Byrne,2013-05-02 This study offers students of religion and philosophy introductory chapters concerning the concept of natural religion It holds that we can t engage in useful discussion about the present concept of religion without a knowledge of the philosophical history that has shaped that concept This is discussed with reference to the notion of natural religion to illustrate certain aspects of deism and its legacy Originally published in 1989      The Continuity of Christian Thought Alexander Viets Griswold Allen,1888      **The Journal of Religion** ,1923 Includes section Book reviews      Religion Hent de Vries,2008 What do we talk about when we talk about religion Is it an array of empirical facts about historical human civilizations Or is religion what is in essence unpredictable perhaps the very emergence of the new In what ways are the legacies of religion its powers words things and gestures reconfiguring themselves as the elementary forms of life in the twenty first century Given the Latin roots of the word religion and its historical Christian uses what sense if any does it make to talk about religion in other traditions Where might we look for common elements that would enable us to do so Has religion as an overarching concept lost all its currency or does it ineluctably return sometimes in unexpected ways the moment we attempt to do without it This book explores the difficulties and double binds that arise when we ask What is religion Offering a marvelously rich and diverse array of perspectives it begins the task of rethinking religion and religious studies in a contemporary world Opening essays on the question What is religion are followed by clusters exploring the relationships among religion theology and philosophy and the links between religion politics and law Pedagogy is the focus of the following section Religion is then examined in particular contexts from classical times to the present Pentacostal revival leading into an especially rich set of essays on religion materiality and mediatization The final section grapples with the ever
